Under Briggflatts Donald Davie, 1989 *Under Briggflatts* is a history of the last thirty years of British poetry with necessary excursions into other areas criticism philosophy translation and non British English poetries It has grown naturally out of Donald Davie s immediate involvement with new writing as a poet reviewer teacher and reader He has reassessed the writers who have most engaged his attention revised his reviews and supplemented earlier material with much that is new *Under Briggflatts* provides a narrative that is remarkable in scope and generous in tone By combining close readings of specific poems and more general considerations of style form and context Davie s account is characteristically elegant precise and uncompromising *Under Briggflatts* is organized in three large chapters one devoted to each decade In the 1960s Davie pays particular attention to the work of Austin Clarke Hugh MacDiarmid Norman McCaig Keith Douglas Edwin Muir Basil Bunting the gurus whose prose writings helped catalyze the traumatic events of 1968 Elaine Feinstein Sylvia Townsend Warner Philip Larkin Charles Tomlinson Thomas Kinsella and Ted Hughes The second chapter follows these figures into the new decade and explores the work of among others Thom Gunn C H Sisson R S Thomas John Betjeman and such themes as women s poetry translation poetic theory and the later impact of T S Eliot and of Edward Thomas Perhaps the most controversial chapter is the third in which David without abandoning the poets already introduced assesses Geoffrey Hill Tony Harrison and Seamus Heaney and looks too at the recovery of Ivor Gurney s poems at Ted Hughes as Laureate the posthumous work of Sylvia Townsend Warner the burgeoning Hardy industry and the critical writings of Kenneth Cox

Late Modernism and Expatriation Lauren Arrington, 2022-01-15 How did living abroad inflect writers perspectives on social change in the countries of their birth and in their adopted homelands How did writers reformulate ideas of social class race and gender in these new contexts How did they develop innovations in form and technique to achieve a style that reflected their social and political commitments The essays in this book show how the outward turn that typifies late modernist writing was precipitated in part by writers experience of expatriation Late Modernism Expatriation encompasses writing from the 1930s to the present day and considers expatriation in both its voluntary and coerced manifestations Together the essays in this book shape our understanding of how migration especially in its late twentieth and twenty first century complexities affects late modernism s temporalities The book attends to major theoretical questions about mapping late modernist networks and it foregrounds neglected aspects of writers work while placing other writers in a new frame

Stubbs,Doug Haynes,2017-03-16 This study develops the important work carried out on American literature through the frameworks of transnational transatlantic and trans local studies to ask what happens when these same aspects become intrinsic to the critical narrative Much cultural criticism since the 1990s has sought to displace perceptions of American exceptionalism with broader notions of Atlanticism transnationalism world system and trans localism as each has redefined the US and the world more generally This collection shows how the remapping of America in terms of global networks and as a set of particular localities or even glocalities now plays out in Americanist scholarship reflecting on the critical consequences of the spatial turn in American literary and cultural studies Spanning twentieth and twenty first century American poetry fiction memoir visual art publishing and television and locating the US in Caribbean African Asian European and other contexts this volume argues for a re modelling of American ness with the transnational as part of its innate rhetoric It includes discussions of travel migration disease media globalization and countless other examples of inflowing Essays focus on subjects tracing the contemporary contours of the transnational such as the role of the US in the rise of the global novel the impact of Caribbean history on American thought and vice versa transatlantic cultural and philosophical genealogies and correspondences and the exchanges between the poetics of American space and those of other world spaces Asking questions about the way the American eye has traversed and consumed the objects and cultures of the world but how that world is resistant this volume will make an important contribution to American and Transatlantic literary studies T.S.

Eliot, Man and Poet Laura Cowan,Sebastian David Guy Knowles,Scott A. Leonard,1990 Basil Bunting Julian Stannard,2014 This study explores Basil Bunting s poetry position as a point of inspiration for younger poets and describe the ways in which it acts as a platform to show that Anglo American modernism was not incompatible with native traditions

Disjunctive Poetics Peter Quartermain,1992-06-26 *Disjunctive Poetics* examines some of the experimental contemporary writers including Stein and Zukofsky whose work forms a counterpoint to the mainstream writing of our time Peter Quartermain suggests that the explosion of such modern writing is linked to the severe political social and economic dislocation of non English speaking immigrants who arriving in America at the turn of the century found themselves uprooted from their tradition and disassociated from their culture
