Hopi Basket Weaving Helga Teiwes,1996-10 With the inborn wisdom that has guided them for so long through so many obstacles Hopi men and women perpetuate their proven rituals strongly encouraging those who attempt to neglect or disrespect their obligations to uphold them One of these obligations is to respect the flora and fauna of our planet The Hopi closeness to the Earth is represented in all the arts of all three mesas whether in clay or natural fibers What clay is to a potter s hands natural fibers are to a basket weaver from the Introduction Rising dramatically from the desert floor Arizona s windswept mesas have been home to the Hopis for hundreds of years A people known for protecting their privacy these Native Americans also have a long and less known tradition of weaving baskets and plaques Generations of Hopi weavers have passed down knowledge of techniques and materials from the plant world around them from mother to daughter granddaughter or niece This book is filled with photographs and detailed descriptions of their beautiful baskets the one art above all others that creates the strongest social bonds in Hopi life In these pages weavers open their lives to the outside world as a means of sharing an art form especially demanding of time and talent The reader learns how plant materials are gathered in canyons and creek bottoms close to home and far away The long painstaking process of preparation and dying is followed step by step Then using techniques of coiled plaited or wicker basketry the weaving begins Underlying the stories of baskets and their weavers is a rare glimpse of what is called the Hopi Way a life philosophy that has strengthened and sustained the Hopi people through centuries of change Many other glimpses of the Hopi world are also shared by author and photographer Helga Teiwes who was warmly invited into the homes of her collaborators Their permission and the permission of the Cultural Preservation Office of the Hopi Tribe gave her access to people and information seldom available to outsiders Teiwes was also granted access to some of the ceremonial observances where baskets are preeminent Woven in brilliant reds greens and yellows as well as black and white Hopi weavings then not only are an arresting art form but also are highly symbolic of what is most important in Hopi life In the women s basket dance for example woven plaques commemorate and honor the Earth and the perpetuation of life Other plaques play a role in the complicated web of Hopi social obligation and reciprocity Living in a landscape of almost surreal form and color Hopi weavers are carrying on one of the oldest arts traditions in the world Their stories in Hopi Basket Weaving will appeal to collectors artists and craftspeople and anyone with an interest in Native American studies especially Native American arts For the traveler or general reader the book is an invitation to enter a little known world and to learn more about an art form steeped in meaning and stunning in its beauty

Arizona's War Town John S. Westerlund, 2004-01-01 Few American towns went untouched by World War II even those in remote corners of the country During that era the federal government forever changed the lives of many northern Arizona citizens with the construction of the U S Army ordnance depot at Bellemont ten miles west of Flagstaff John Westerlund now tells how this linchpin in the war effort marked a turning point in Flagstaff s history One of only sixteen munitions depots built between 1941 and 1943 the Navajo Ordnance Depot contributed significantly to the city s rapid growth during the war years as it brought considerable social cultural and economic change to the region A clearing in the ponderosa pine forest called Volunteer Prairie met the military s criteria for a munitions depot open terrain a cool climate plentiful water and proximity to a railroad and it was also sufficiently inland to be safe from the threat of coastal invasion Constructing a depot of 800 ammunition bunkers each the size of a 2 000 square foot home called for a force of 8 000 laborers and Flagstaff became a boom town overnight as construction workers and their families poured in from nearby Indian reservations and as far away as the Midwest and South More than 2 000 were retained as permanent employees a larger workforce than Flagstaff s total pre war employment roster As Westerlund s portrait of wartime Flagstaff shows prosperity brought unanticipated consequences racism simmered beneath the surface of the town as ethnic groups were thrown together for the first time merchants called a city wide strike to protest emerging union activity juvenile delinquency rose dramatically Flagstaff women entered the workforce in unprecedented numbers altering local mores along with their own plans for the future meanwhile hundreds of sailors and marines arrived at Arizona State Teachers College to participate in the Navy s V 12 program Whether recounting the difficulty of 3 500 Navajo and Hopi employees adjusting to life off the reservation or the complaints of townspeople that Austrian POWs transferred to the depot to ease the labor shortage were treated too well Westerlund shows that the construction and maintenance of the facility was far more than a military matter Navajo Ordnance Depot remained operational to support wars in Korea Vietnam and the Persian Gulf and today Camp Navajo provides storage for thousands of deactivated ICBM motors But in recounting its early days Westerlund has skillfully blended social and military history to vividly portray not only a city s transitional years but also the impact of military expansion on economic and community development in the American West
