## **Alaskasiberia Connection:**

*The Alaska-Siberia Connection* Otis Hays, 1996 American Lend Lease generosity helped to join Russia and America in a wartime alliance against Germany However Russia suspicious of American sincerity delayed the establishment of an Alaska Siberia delivery route known throughout the war as ALSIB to the German war front Instead other routes via the North Atlantic and the Persian Gulf were employed for the delivery of urgently needed aircraft in 1941 42 Eventually recognizing that an ALSIB route would allow the delivery of American made aircraft in days not weeks or months the Russians agreed to the ALSIB route in late 1942 The ALSIB route became the fastest and most productive means of moving combat aircraft to the Russian German front Additionally although it was primitive and dangerous it established a direct and time saving artery between Moscow and Washington and it was heavily used by diplomats politicians and countless military officials both Soviet and American Declassified official U S military records and selected Russian sources as well as reminiscences from former American liaison officers who were stationed at ALSIB posts in Alaska between 1943 and 1945 serve as the basis for this intriguing story

History of Alaska , Volume II Jonathan M. Nielson, Ph.D., 2018-03-01 The most significant military development to touch Alaska during the interwar years was the advent of air power an innovation that completely altered Alaska s strategic position Suddenly the world became smaller as areas once thought safely distant from potential enemies became vulnerable Nowhere was this more evident than in the Pacific whose countless islands became potential advanced air bases As air technology improved the ability of long range bombers and by the 1930s of carrier aircraft to penetrate American airspace was a development of far reaching significance While such warnings were largely limited to a handful of air power advocates their vocal advocacy constituted nothing less than an insurrection a revolution in military thinking fought against entrenched military conservatism cultural aversion to change fears of budget cuts and War Department lethargy Indeed it was the air power crusader General Billy Mitchell who aggressively fought to convince the War and Navy Departments to embrace the new doctrine of offensive air power Mitchell came to understand Alaska s strategic importance early on Consequently he saw the Aleutians as a vulnerability if left unguarded Japan could creep up and by establishing air dominance take Alaska and Canada s West Coast But he also saw Alaska as a strategic base from which American planes could reduce Tokyo to powder Prophetically in 1923 Mitchell forecast precisely the military threat and strategic arguments that would shape military thinking almost twenty years later I am thinking of Alaska In an air war if we were unprepared Japan could take it away from us first by dominating the sky and creeping up the Aleutians By the mid to late 1930s military and civilian advocates of air power and more visionary strategists were beginning to make their voices heard in Congress and elsewhere decrying Alaska s military vulnerability Between 1933 and 1944 no one was more adamant than Alaska s Delegate in Congress Anthony Joseph Tony Dimond who challenged the nation to defend itself by defending Alaska To Dimond it seemed poor strategy to fortify one pacific base Hawaii while ignoring another Alaska Dimond s campaign was strengthened

by passage of the Wilcox Bill sponsored by Representative J Mark Wilcox D Florida officially known as the National Air Defense Act This truly significant legislation authorized the location and construction of military airfields throughout the United States as a general defense preparedness measure Alaska was recognized as one of the nation s six strategic regions and two bases one at Anchorage the other at Fairbanks were recommended in part because Alaska was closer to Japan than it is to the center of the continental United States Fortuitously for Alaska defense advocates General Douglas MacArthur stepped down as Chief of Staff of the Army and was replaced by Major General Malin Craig in October 1935 Craig and Brigadier General Stanley D Embick advocated a substantial reconfiguration of Plan Orange arguing that the Philippines presented an invitation to attack and should be neutralized in favor defending the Alaska Hawaii Panama Triangle Both the Army and Navy were charged with defending Alaska as far west as Dutch Harbor and the army pledged to mobilize 6 600 troops in Alaska within a month of attack by Japan In contemplating the defense of Alaska the Army General Staff formulated five priority objectives first increase the Alaska garrison second establish a major base for Army operations near Anchorage third develop a network of air bases within Alaska fourth garrison these bases with combat troops and fifth protect the naval installations at Sitka Kodiak and Dutch Harbor Alaska was about to go to war

**Alaska** Claus M. Naske,Herman E. Slotnick,2014-10-22 The largest by far of the fifty states Alaska is also the state of greatest mystery and diversity And as Claus M Naske and Herman E Slotnick show in this comprehensive survey the history of Alaska s peoples and the development of its economy have matched the diversity of its land and seascapes Alaska A History begins by examining the region s geography and the Native peoples who inhabited it for thousands of years before the first Europeans arrived The Russians claimed northern North America by right of discovery in 1741 During their occupation of Russian America the region was little more than an outpost for fur hunters and traders When the czar sold the territory to the United States in 1867 nobody knew what to do with Seward s Folly Mainland America paid little attention to the new acquisition until a rush of gold seekers flooded into the Yukon Territory In 1906 Congress granted Alaska Territory a voteless delegate and in 1912 gave it a territorial legislature Not until 1959 however was Alaska s long sought goal of statehood realized During World War II Alaska s place along the great circle route from the United States to Asia firmly established its military importance which was underscored during the Cold War The developing military garrison brought federal money and many new residents Then

the discovery of huge oil and natural gas deposits gave a measure of economic security to the state Alaska A History provides a full chronological survey of the region s and state s history including the precedent setting Alaska Native Claims Settlement Act of 1971 which compensated Native Americans for their losses the effect of the oil industry and the trans Alaska pipeline on the economy the Exxon Valdez oil spill and Alaska politics through the early 2000s **The Red Warrior: U.S.**

Fancher,2024-09-24 Through U S President Franklin D Roosevelt s Lend Lease program American leaders sought to keep Joseph Stalin s Red Army in the field and fighting Adolf Hitler s forces in the Second World War from 1941 forward Delivered by the Anglo American Arctic naval convoys overland through the Iranian deserts and mountains and through the skies from Alaska to Siberia this much needed material aid helped Stalin s Red Army to continue fighting and thereby prevented a separate peace with Hitler s Germany and a mechanized repeat of the First World War s Brest Litovsk fiasco Yet Roosevelt and other U S officials due to their severe underestimation of Stalin s character and his rigid and fanatical devotion to exporting Communism at gunpoint gambled incorrectly that they could win the Soviet premier s heart and mind through several excessive wartime aid gestures including the furnishing of atomic bomb materials to the Soviet regime By 1945 American leaders had succeeded in their strategic goal of keeping Stalin and his Red Army in the war and hastening victory but failed in their efforts to purchase the Soviet premier s goodwill and commitment to postwar peace heralding the global Cold War and setting the stage for later U S martial aid programs to those resisting aggression abroad In addition to its primary focus on the American leadership s perceptions of Stalin s strategic importance to the Allied war effort in the Second World War this work also includes a detailed assessment of Roosevelt s Soviet Lend Lease program alongside U S President Ronald Reagan s later support for the Afghan Islamic guerrillas resisting Soviet occupation during the Soviet Afghan War of the 1980s and a comparison of both martial aid programs with Washington s recent revival of Lend Lease aid for the Ukrainian war effort It offers today s American leaders and policymakers a chance to consult the lessons of history and apply them in the present *The United States Geological Survey in Alaska* ,1981 [The United States Geological Survey in](#)

Mid-Holocene Language Connections between Asia and North America Edward Vajda, Michael Fortescue, 2022-01-31 This volume presents the up to date results of investigations into the Asian origins of the only two language families of North America that are widely acknowledged as having likely genetic links in northern Asia It brings together all that has been proposed to date under the respective rubrics of the Uralo Siberian Eskimo Yukaghir Uralic hypothesis and the Dene Yeniseian hypothesis The evolution of the two parallel research strategies for fleshing out these linguistic links between North America and Asia are compared and contrasted Although focusing on stringently controlled linguistic reconstructions the volume draws upon archaeological and human genetic data where relevant

*Reluctant Conquest* Kathryn C. Lavelle, 2025-06-10 A comprehensive history of U S involvement in the Arctic from the American Revolution through the acquisition of Alaska to the present day What drives American foreign relations in the Arctic It is difficult to give a unified answer to this question because most histories of the region are divided between the Atlantic and Pacific coasts Asian and European strategic interests or federal government and Indigenous peoples concerns making it difficult to understand the connections among the environmental challenges scientific understandings strategic calculations and governance relationships Most Americans do not think of their country as an Arctic power yet it is a region where the United States has had important ties throughout its history In this sweeping study from the founding of the country through the acquisition of Alaska to the present Kathryn C Lavelle considers American relations across the circumpolar North incorporating discussions of economics national security and science that are conventionally separated Lavelle argues that it is impossible to understand U S policy without a knowledge of American political development and of how scientific understandings have grown alongside studies of climate and other environmental issues This history has important implications for future American policy regarding traditional national security and political economy in addition to climate change and environmental cooperation
