Alcohol Problems Social Control:

The Alcohol and Other Drug Thesaurus: Annotated alphabetical list National Institute on Alcohol Abuse and Alcoholism (U.S.),2000 **Research on Worksite-related Alcohol Problems** ,1990 **Prevention and Societal Impact of Drug and Alcohol Abuse** Robert T. Ammerman,Peggy J. Ott,Ralph E. Tarter,1999-03 The chapters in this book provide a comprehensive overview of the pervasive effects throughout society of substance abuse as well as of prevention programs at a variety of levels The book will be of value to scholars and those working in the field alike **The Concise Encyclopedia of Sociology** George Ritzer,J. Michael Ryan,2011-01-25 This concise encyclopedia is the most complete international survey of sociology ever created in one volume Contains over 800 entries from the whole breadth of the discipline Distilled from the highly regarded Blackwell Encyclopedia of Sociology with entries completely revised and updated to provide succinct and up to date coverage of the fundamental topics Global in scope both in terms of topics and contributors Each entry includes references and suggestions for further reading Cross referencing allows easy movement around the volume Alcoholism and Alcohol Abuse Among Women, Research Issues ,1980 **Social Aspects of Alcoholism** Benjamin Kissin,Henri Begleiter,2013-06-29 The first three volumes of this series have dealt with materials which generally justify the title The Biology of Alcoholism This is only remotely true of the present volume Social Aspects of Alcoholism or of the final volume to come Treatment and Rehabilitation Except for small portions of the treatment section which involve pharmacotherapy much of these last two volumes deals with the psychological aspects of alcoholism and still more with the social It is interesting to review the evolution of this new pattern over the past seven years a pattern which had it existed initially would have resulted if not in a different format at least in a different title Our initial selection of areas to be covered was influenced by our desire to present as hard data as possible in an attempt to lend a greater aura of scientific rigor to a field which was generally considered as soft When we completed our review of this material in volumes 1 3 we recognized that what we might have gained in rigor we had more than lost in completeness These volumes presented a picture of a biological disease syndrome for which the remedies and preventive measures were presumably also biological And yet most workers in the field readily accept the significant contributions of psychological and social factors to the pathogenesis and treatment of alcoholism

Drug and Alcohol Abuse Prevention Roland R. Watson,2012-12-06 A major national goal is to improve our health and advance our opportunities to pursue happiness Simultaneously there are increasing health care costs and increasing demands to accomplish more with less financial support Treatment costs can be reduced and health improved by preventing the toxic effects of drugs This first volume of our new series Drug and Alcohol to reduce the use and Abuse Reviews focuses on strategies abuse of common compounds known to cause major damage to health alcohol tobacco and illicit drugs such as cocaine and heroin With the number of deaths attributable to the consumption of alcohol in the US at about 100 000 per year the annual cost of addictions will be 150 billion by 1995 A variety of approaches to preventing drug abuse are being applied

by governmental agencies and health care providers to reduce costs These include school based interventions driver education programs media interventions health warning labels physician guidance economic disincentives restricted availability punishments and penalties environmental protections and social support approaches With such a range of options it becomes critical to evaluate and choose the most effective systems for a given population We feel that the present collection of critical survey articles constitutes a thorough examination of the issues and strategies associated with prevention and trust that readers will find the book exceedingly helpful in understanding and planning what needs to be done

Research Awards Index, 1989 **Alcohol Problems in the Community** Larry Harrison, 2002-05-03 Examines implications of recent community care legislation for government policy on alcohol and presents the particular difficulties faced by socially disadvantaged groups Outlines social work's role in managing alcohol related problems

Alcohol Problems Among Adolescents Gayle M. Boyd, Jan Howard, Robert A. Zucker, 2013-05-13 Alcohol misuse presents a major risk for health and well being throughout the life span but youth have a special vulnerability Alcohol is the most widely used drug by adolescents For some this may be one or two isolated occasions of youthful experimentation for others the use becomes excessive placing them in danger of immediate adverse consequences such as accidental injury and alcohol poisoning or encouraging other high risk behavior patterns including unprotected sex Moreover a pattern of heavy drinking

established in adolescence and young adulthood may continue into an adult pattern of alcohol abuse Concerned communities and institutions across the nation are tackling the problem of alcohol use and abuse by young people Research based knowledge is urgently needed to inform these efforts and to ensure that limited prevention resources are used as effectively as possible The origins of youthful alcohol use and abuse are found within the complex interplay of individual characteristics family and peer influences the larger societal context for alcohol use environmental conditions and maturational processes that accompany adolescence This volume which began as a special issue of the Journal of Research on Adolescence contains all of the material from the journal issue plus additional chapters It helps researchers to meet the tremendous challenge of disentangling the key determinants of risk and developing effective interventions Primary sources of influence on youthful alcohol use are described ranging from individual expectancies about alcohol effects and cognitive decision processes to parenting practices peer influences social environments and economic factors and a corresponding range of prevention interventions is discussed This book will serve as a primer to those with an interest in developing and improving effective programs and activities to reduce alcohol related problems among young people For those engaged in prevention research the text will provide useful reviews and current findings that should aid in directing future research activities *Research*
