Alcoholism Problems Selected Issues:

The Alcoholism Problems Sidney Cohen, 1983 The current issues and controversies about beverage alcohol and its potential disorders have been selected for consideration in this volume Not all of the short essays are problem oriented Some where written because new and pertinent knowledge has recently come forth *Alcohol and Substance Abuse in Adolescence* Judith Brook, Barry Stimmel, 2014-05-22 This timely volume explores the possible reasons that young people turn to drugs the most effective methods to manage those who are afflicted and ways to educate youth to prevent their initial drug involvement *Research Issues*, 1974 **Preventing Alcohol Abuse** Danuta W. Lockett, 1983 **To be Continued--** Charles Bishop, Bill Pittman, 1994 Women and Substance Abuse Edith S. Lisansky Gombert, Ted D. Nirenberg, 1993 Work on female drinking and female drug and alcohol abuse is proliferating because interest and productivity in alcohol research has expanded In this work the editors primary focus is on the abuse of alcohol its biological effects behavioral effects abuses and problems This book updates where this field is at the moment The first five chapters deal with basic issues of biology epidemiology and anthropology The next five chapters deal with substance abuse including antecedents consequences comorbidity fetal effects special populations and illicit drug use Two chapters which follow are concerned with related disorders that is smoking and eating disorders The final chapters cover treatment and prevention *Current Catalog* National Library of Medicine (U.S.), Curriculum Resource Catalog on Alcoholism and Drug Abuse National Center for Alcohol Education, 1982 Alcoholics Anonymous in Iceland Hildigunnur Ólafsdóttir, 2000 A historical and comparative analysis of the Icelandic AA movement which seeks to explain its particular and widespread success in Iceland despite formidable obstacles and paradoxical conditions Not only is anonymity one of AA s basic organizational principles impossible in a society as small as Iceland but the country s strong alcoholism treatment system has required a rethinking of AA s role a move from being a central dynamic force in getting sober to an interactive supporting force in staying sober Among the topics discussed in this book are the history structure and transformation of the movement in Iceland ad its relations and interactions with other groups treatment programs and society as a whole **The Social Importance of Self-Esteem** Andrew Mecca, Neil J. Smelser, John Vasconcellos, 1989-08-15 Is the well being of a society dependent on the well being of its citizenry Does individual self esteem play a causal role in chronic social problems such as child abuse school drop out rates teenage pregnancy alcohol and drug abuse welfare dependency In an attempt to answer these questions the State of California established a task force on self esteem and social responsibility in 1987 The aim of this body was to determine what connections might exist between these two factors and to suggest policy guidelines relating to the welfare of Californians and to the expenditure of public resources The ten essays in this volume prepared by faculty members of the University of California draw on research in the social and behavioral sciences to explore these issues They assess the substantive assertions and research findings in the field and make careful evaluations of their reliability and validity In many

cases strong connections between self esteem and problematic behavior are established in others the connections are weak and in some the causal relationship is as yet imperfectly understood One of the conclusions of the book is that research on these issues needs to be improved particularly in the areas of comparative and longitudinal studies Guidelines for future research are suggested and some points of policy direction are elaborated These essays may indeed promote additional research for the premise that social stability and welfare are largely dependent on the psychological state of a people poses a challenging and provocative counter emphasis to the assumption that social institutions are the primary determinants of individual welfare
