Shadow Dragons James A. Owen,2010-04-29 The Caretakers of the Imaginarium Geographica are at war The last stones from the Keep of Time are falling and at the request of an old enemy a new tower is being built in our world The old enemy is the Winter King s Shadow and he wields a terrible weapon the Spear of Destiny which can be used to command the shadows of anyone it touches including the protectors of the Archipelago the dragons The Shadow King returns to the Archipelago using the ship the Iron Dragon and enlists an unstoppable army of Dragon Shadows While WWII rages in our world all the caretakers both past and present must come together to save the Archipelago All hope lies with a small group of companions along with mythical knight Don Quixote who must sail beyond the very ends of the Archipelago in search of a broken sword and the only being alive who can repair it a scholar who once upon a time was called Madoc The Man Who Saved the Whooping Crane Kathleen Kaska,2012-09-16 Millions of people know a little bit about efforts to save the whooping crane thanks to the movie Fly Away Home and annual news stories about ultralight planes leading migratory flocks But few realize that in the spring of 1941 the population of these magnificent birds pure white with black wingtips standing five feet tall with a seven foot wingspan had reached an all time low of fifteen Written off as a species destined for extinction the whooping crane has made a slow but unbelievable comeback over the last seven decades This recovery would have been impossible if not for the efforts of Robert Porter Allen an ornithologist with the National Audubon Society whose courageous eight year crusade to find the only remaining whooping crane nesting site in North America garnered nationwide media coverage His search and his impassioned lectures about overdevelopment habitat loss and unregulated hunting triggered a media blitz that had thousands of citizens on the lookout for the birds during their migratory trips Allen s tireless efforts changed the course of U S environmental history and helped lead to the passage of the Endangered Species Act in 1973 Though few people remember him today his life reads like an Indiana Jones story full of danger and adventure failure and success His amazing story deserves to be told
