# Creating The Agile Library A Management Guide For Librarians

**Mary Anne Nichols, C. Allen Nichols**

## **Creating The Agile Library A Management Guide For Librarians:**

**Creating the Agile Library** Lorraine J. Haricombe, T. J. Lusher, **Library Management in Disruptive Times** Steve O'Connor, 2015-09-30 Is the traditional library business model a victim of disruptive digital technologies Library Management in Disruptive Times identifies the key skills and attitudes needed by the library leaders of today and tomorrow and delivers a balanced view of the future of the profession Contributed to by expert professional library leaders and educators from across the globe this edited collection offers thought provoking perspectives on the challenge of the current operating environment across a range of library sectors library professional associations and geographic regions Each author brings their own particular area of expertise and perspective on to consider the effects of disruptive change in libraries globally Key topics covered include Leading change Management fads and their impact on libraries User engagement The value of collaboration and consortia Library management and the global economic crisis Agile management techniques The role of professional associations in redefining the profession Developing management skills on the job Planning for the future This dynamic collection helps readers to envision the purpose and value of future libraries and to see change as a rare opportunity to create truly new roles for librarians Readership This will be essential reading for library managers directors and aspiring leaders throughout the world *The Bowker Annual Library and Book Trade Almanac 2000* R R Bowker

Publishing, Bowker, 2000-05 As an on the job answer book a statistical information resource a planning and research guide and a directory and calendar The Bowker Annual Library and Book Trade Almanac 2000 delivers the hard to find industry news and information you need all year long This acclaimed must have resource provides Expert reviews of the key trends events and developments that will influence your work in 2000 and the years to come Plain English explanations of new legislation and changes in funding programs and how it will affect libraries Definitive statistics on book prices numbers of books published library expenditures average salaries and other budget crunching assistance A full calendar of events key organizations names and numbers of important individuals including e mail addresses and fax numbers and much more This fully updated reference tool makes it easy to stay on top of the developments that affect libraries booksellers and publishers alike and to find fast answers to the countless on the job questions you encounter You ll use it to Keep informed on the latest trends in networking the Internet and other advances Locate information on industry events and organizations Find lists of best books literary prizes winners and bestsellers Prepare budgets and justify requests Review recent legislation and regulations affecting your industry Learn about emerging trends needs problems and opportunities And that s just the beginning With The Bowker Annual 2000 on hand you won t spend hours or even days tracking down needed library or book trade data because the information you need is right at your fingertips *Library Literature* ,1934 An index to library and information science Planning for a New Generation of Public Library Buildings Gerard B. McCabe, 2000-01-30 The public library director needs information that helps in understanding what is involved in planning for a public library building

project This applies whether the subject is a free standing independent building a branch library a joint use facility with a museum a senior academic library a community or junior college library or a school library Reading this book will not turn a reader into a qualified specialist on library buildings but it will help librarians and others learn what should be known about a project so that they may function effectively as part of the planning team The concept of modern libraries is moving toward interactive connections with information sources far beyond the immediate community For the contemporary public library this means connection to a network with several terminals constantly online to the Internet New library buildings must be constructed with these and other needs in mind The public library director needs information that helps in understanding what is involved in planning for a public library building project This applies whether the subject is a free standing independent building a branch library a joint use facility with a museum a senior academic library a community or junior college library or a school library This book will help librarians and others learn what should be known about a project so that they may function effectively as part of the planning team      *The Practical Library Manager* Ruth C Carter, Bruce E Massis, 2013-04-15 Examine the nuts and bolts of successful management in today's rapidly evolving libraries This book is an essential primer for new library managers and directors In addition to providing an overview of the practical aspects of management it is a vital reference tool for managing your library and its staff The Practical Library Manager's informative text and comprehensive bibliographies of print and electronic resources can guide you to solutions to the issues that every fledgling library manager must deal with upon appointment While there are many publications on library management The Practical Library Manager is one of very few to focus on the practical issues of staffing and the importance of continuous staff training Also unlike other books on the subject this book features a chapter that points you to relevant management texts originally written for the corporate world rather than the library profession The Practical Library Manager is the perfect single source to help you understand the challenges of staffing your library and training your staff explore new technology's impact on library workers and evaluate training programs to help them keep up ensure that your staff has the core competencies they'll need in the current climate build a virtual library decide whether your library should join a consortium and much more In the words of the author Today the most successful libraries in the country are those addressing the needs of both external and internal customers However it takes more than technology to change the working relationship between the institution and its customer The guiding force for change must include a strong and respectful relationship between the library manager and staff Much of what is written in this book can assist the fledgling manager in creating an environment of trust teamwork and respect      Library & Information Science Abstracts, 2008      **Libraries Without Walls**, 2000      Leadership and Administration of Successful Archival Programs Bruce W. Dearstyne, 2001-10-30 Strong archival programs are rare in part because the archival field has not given sustained attention to program leadership and management issues over the years As a consequence many programs are underfunded and undersupported and lack

sufficient space staff and other resources to carry out their immensely important work This collection of essays from eight of the archival field's notably successful leaders provides first hand accounts of how to carry out planning build coalitions and alliances garner resources empower and inspire program personnel change program direction and take programs in new dynamic directions There is an abundance of literature on archival theory techniques and practice but leadership program building and related topics are seldom covered in archival literature This collection of essays provides varying perspectives insights advice caveats and other helpful information based on the experiences of highly regarded professionals in the field who have actually developed and administered successful programs They address such issues as how to define program success the traits of a successful program leadership traits and similarities and differences between archival program and similar programs such as libraries

**The Evolution of Library and Museum Partnerships** Lisa Gottlieb, 2004-11-30

These authors examine the unique social roles of libraries and museums review historical precedents as well as library museum partnerships funded in recent years through IMLS grants and forge an exciting vision of a new library museum hybrid The juxtaposition of library collections and museum artifacts they assert has the potential to create authentic interactive experiences for community members and it can help establish a distinct meaningful and sustainable role for libraries In the authors words libraries can then reassert themselves as places devoted to contemplation wonder knowledge acquisition and critical inquiry Commercialization edutainment and the library as a learning community are just some of the fascinating topics addressed as the authors explore the future's terrain and suggest how libraries might situate themselves upon it Libraries museums and the ways in which they are used by patrons have drastically changed in past decades Digitization projects infotainment and the Internet are redefining the library's and the museum's roles in the community What are the implications for the future of these institutions These authors examine the unique social roles of libraries and museums review historical precedents as well as library museum partnerships funded in recent years through IMLS grants and forge an exciting vision of a new library museum hybrid The juxtaposition of library collections and museum artifacts they assert has the potential to create authentic interactive experiences for community members and it can help establish a distinct meaningful and sustainable role for libraries In the authors words libraries can then reassert themselves as places devoted to contemplation wonder knowledge acquisition and critical inquiry Commercialization edutainment and the library as a learning community are just some of the fascinating topics addressed as the authors explore the future's terrain and suggest how libraries might situate themselves upon it

**Collaborative Electronic Resource Management** Joan E.

Conger, 2004-11-30 Electronic resource management is becoming a primary responsibility of library managers This book approaches electronic resource management as a system affecting all library work linking it to concepts of collaborative management and the assessment cycle The author demonstrates how collection development acquisitions licensing budgeting and cataloging techniques technological infrastructure and user services for electronic resources fit into the new

collaborative management that relies on learning more than control to respond to change The techniques presented for managing electronic resources improves the library s service value through relationships between library professionals and with library customers Engaging the librarian in a cycle of constant learning and assessment the approach ultimately makes work lighter relationships with colleagues and customers more productive and library services more relevant to community needs

**Libraries Without Walls 3** Peter Brophy,Zoë Clarke,Shelagh Fisher,2000 Lifelong learning is becoming reality throughout the world requiring that learning opportunities and materials are delivered to citizens in their locality at home or at work Increasing numbers of students are undertaking distance education programmes and libraries are being called upon to find innovative ways to support distance learners Developments in technology are creating new possibilities for document delivery and the distributed virtual library *LA Record* ,1999

**Young Adults and Public Libraries** Mary Anne Nichols,C. Allen Nichols,1998-06-25 This handbook is suitable for specialists and generalists in small medium and large public libraries and addresses the full spectrum of library services to teens Young adults comprise 25% of library patrons yet nationwide only 11% of libraries have a young adult librarian By offering services specifically for young adults libraries will fulfill their responsibility to provide services to the entire community rather than ignoring this fast growing segment of the population The book focuses on topics related to young adult collections including reader s advisory genre fiction non fiction magazines non print materials trends publishing censorship and restricted access to materials and services based on age Teens use of technology especially the Internet is covered as well Addressing the full spectrum of library services aimed at teens this handbook is intended for use by novices as well as experts It is suitable for specialists and generalists in small medium and large public libraries and addresses the full spectrum of library services to teens Young adults comprise 25% of library patrons yet nationwide only 11% of libraries have a young adult librarian By offering services specifically for young adults libraries will fulfill their responsibility to provide services to the entire community rather than ignoring this fast growing segment of the population The book focuses on topics related to young adult collections including reader s advisory genre fiction non fiction magazines non print materials trends publishing censorship and restricted access to materials and services based on age Teens use of technology especially the Internet is covered as well Other aspects include homework assistance centers youth participation serving underserved populations and cooperation with other agencies The book concludes with a comprehensive annotated bibliography of professional resources to aid readers

The Human Response to Library Technology Janice Kirkland,1999

**The Electronic Resources Troubleshooting Guide** Holly Talbott,Ashley Zmau,2020-11-06 A library user can t access an article Your log in credentials won t work In the realm of electronic resources everything runs smoothly until suddenly without warning it doesn t Invariably systems will break down but a trial and error approach to finding out what s wrong is highly inefficient This hands on guide from two expert ERM librarians walks you through the essentials of troubleshooting It outlines a methodical process that will help you identify the source of a

problem even when it's not obvious and take steps to reach a resolution With the goal of developing a library wide workflow in mind this guide will teach you how to familiarize yourself with the components of electronic resources using flowchart diagrams of common access chains such as discovery services knowledge bases research guides and library services platforms navigate the complete triage and troubleshooting workflow illustrated through 14 in depth examples recognize the symptoms of common access disruptions conduct efficient troubleshooting interviews manage help tickets and design problem reports that capture key information without overburdening the user create publicly available help pages for problems originating with users devices or computers communicate with vendors and IT personnel for speedy resolutions providing dozens of clear definitions of library and technology terms that will help you minimize confusion and customize your own troubleshooting workflow chart for common use across departments and staff hierarchies

**Managing Information Technology** Patricia Ingersoll, John Culshaw, 2004-10-30 Providing resources for planning and managing every possible aspect of the relationships and work involved for successful cooperation between libraries and information technology services including staffing and reporting lines inter organizational relationships training daily and periodic operations research and new technologies this book also offers guidance to help systems librarians better plan for tomorrow Appended materials including a glossary sample job descriptions organizational charts integrated library system vendor contacts suggested professional reading controlled circulation publications a bibliography sample policies and documents and an index add to the practicality of this resource Jacket

*Urban Library Journal*, 2001

**Human Resource Management in Today's Academic Library** Janice Simmons-Welburn, Beth McNeil, 2004-01-30 This book provides a comprehensive look at issues that shape the nature of Human Resources in academic libraries Libraries in varying academic environments have undergone tremendous change during the last two decades of the 20th century as they have sought redefinition as learning organizations As organizations they have experienced significant changes in the role and definition of professionalism along with challenges from such shifting workplace demographics as age and ethnicity and technological issues which have also had direct impact on the recruitment and retention of staff Much of the attention of human resources administrators in academic libraries has focused on an array of issues that mirrors concerns across campuses affirmative action and diversity the rights of employees with disabilities under the Americans with Disabilities Act the impact of the Family Medical Leave Act and other directives on employee benefits salary equity and a desire among employees for flexible work schedules

**How To Create Agile Library** Manoj Sonawane, 2021-01-12 The need of moving library services on the cloud was intense after the pandemic and lockdown situations The tools mentioned in the book may offer you great help to create and move your library services on the cloud In this book we will build the agile library by using various e tools ranging from cloud storage to e content management to online delivery of information and it would be a handy guide for you to create your online library The book will start with a conversation on how the IT industry shifted from the waterfall model to an agile

model and provided benefits to the end customers In the next part the book will discuss how to use this agile model of the IT industry to shift the traditional library services into an agile library which will use various e tools or resources to build the information services on the cloud to make it truly agile Your key take away from this book 1 How to get 200 GB of cloud space free for your information services 2 How to create content on the cloud and share it with your users seamlessly 3 How to use cloud storage platforms in both academic and corporate libraries 4 How to use Facebook as a social learning platform for your library services
