Disabilities: What Are They? Robert Evert Cimera, 2007-08-24 Specific learning disability is by far the largest category of conditions served in special education Unfortunately few parents and educators truly understand what a learning disability is Many erroneously believe it is a politically correct term for mildly mentally retarded or dull normal Further while most laypeople have heard of dyslexia rarely do they know about other types of learning disabilities such as dysnomia or dyscalculia In addition to explaining what learning disabilities are and how they should be diagnosed Learning Disabilities What Are They also explores the many different types of learning disabilities that affect children and adults today Moreover it presents a host of strategies and resources that can show parents and teachers how to help children succeed Easy to read and informative this book is essential for any parent or teacher who has a child with a learning disability *Technical*

The Oxford Handbook of the Science of Science Communication Kathleen Hall Jamieson, Dan M. Kahan, Dietram Scheufele, 2017 On topics from genetic engineering and mad cow disease to vaccination and climate change this Handbook draws on the insights of 57 leading science of science communication scholars who explore what social scientists know about how citizens come to understand and act on what is known by science Shattered, Cracked, Or Firmly Intact? Farida Jalalzai, 2013-03-28 How do men's and women's paths to political office differ Once in office are women's powers more constrained than those of men The number of women in executive leadership positions has grown substantially over the past five decades and women now govern in vastly different contexts around the world But their climbs to such positions don't necessarily correspond with social status and the existence of gender equity In *Shattered Cracked or Firmly Intact* Farida

Jalalzai outlines important patterns related to women executive s paths powers and potential impacts In doing so she combines qualitative and quantitative analysis and explores both contexts in which women successfully gained executive power and those in which they did not The glass ceiling has truly shattered in Finland where to date three different women have come to executive power only cracked in the United Kingdom with Margaret Thatcher as the only example of a female prime minister and remains firmly intact in the United States While women appear to have made substantial gains they still face many obstacles in their pursuit of national executive office Women compared to their male counterparts more often ascend to relatively weak posts and gain offices through appointment as opposed to popular election When dominant women presidents do rise through popular vote they still almost always hail from political families and from within unstable systems Jalalzai asserts the importance of institutional features in contributing positive representational effects for women national leaders Her analysis offers both a broad understanding of global dynamics of executive power as well as particulars about individual women leaders from every region of the globe over the past fifty years Viewing gender as embedded within institutions and processes this book provides an unprecedented and comprehensive view of the complex contradictory and multifaceted dimensions of women s national leadership **Cracks in the Ivory Tower** Jason Brennan, Phillip W. Magness, 2019 Brennan and Magness expose many of the ethical failings of academia and in turn reshape our understanding of how such high power institutions run their business From publisher description **The Complete Book of Colleges**, 2007 Cracked Glasses Heather Thompson Day, 2012-11 **SAT** □□□□ □□□, 2018-01-16 SAT SAT SAT SAT **Cracked Hearts** Linda Masemore Pirrung, 2006-11-22 Stephanie had just dozed off when suddenly there was a break in the silence She woke momentarily Her eyes popped open and moved from one side to the other as if attempting to see what the noise was but her body was too weak from sleep to do more than that While asleep on her back the sensation of lips on hers brought her slowly back to consciousness Still in dreamy twilight not fully conscious of whether it was a dream or Ron trying to arouse her she felt two hands cup her breasts Eyes still closed Stephanie smiled brought her arms up and dreamily wrapped them around her dream lover s neck Hunh Steph s breath drew inward in a sudden gasp She bolted straight upright from her bed her eyes round as silver dollars The sudden realization that Ron didn t have long hair brought her to an immediate state of panic A hand covered her mouth to muffle her scream Sweat beads broke out on her forehead and her face was blood red from trying to scream against a barrier Senior High Core Collection Raymond W.
