The Tao and the Daimon Robert Cummings Neville, 1983-06-30 The Tao and the Daimon examines a central theme in religious studies the question of the authority and authenticity of traditional religious faith and practice tao in light of the challenge from the spirit of critical reason Socrates daimon From a non judgmental historical standpoint it develops the dialectical relation between religion and rational inquiry Neville employs a philosophical system to set a task for reflection making it possible to see how Eastern and Western religious traditions differ overlap contradict and reinforce one another The central chapters are detailed studies of theologically interesting elements in Christianity Buddhism taoism and Neoconfucianism How can one judge of the higher truths of another religion without having practiced it Can the tao and the daimon after all be reconciled purely in the conceptual realm of speculative philosophy Neville recognizes the very real differences between conceptualizing and practicing and the very real differences in understanding that can result At the same time he transcends the problem by identifying and exemplifying in his own work speculative philosophy as a tao in itself a new locus of religious significance our own scholarly interpretation new creations of the holy out of practiced scholarly piety toward the old

Let's Get Growing, Christians! A Practical Guide to Creating a Lifestyle of Doing God's Will Jennifer Harley Chalmers and Willard F. Harley, Jr., 2003-08-06 When we become Christians we consciously repent of our bad habits a promise to make a 180 turn from habits that displease God toward habits that please Him We do

this through and by faith alone Yet faith alone does not suddenly make good our promise It is our faith that gives us the reason to act upon our promise but our action is still needed So how do we put action into our plan How do we rid ourselves of these bad habits and substitute habits that are in God s will This book will help you do just that create a lifestyle of doing God s will You will learn how to Develop a lifestyle of greater respect for God Love God with all of your being Learn to love and care for others Witness in a way that takes your personality and abilities into account Develop a lifestyle where Bible study is a throughout the day activity And that s why this book is called LET S GET GROWING CHRISTIANS It s about practically applying plans of action to get you growing as a Christian living a life of doing God s will **Freed to Lead**

Rodney Woods,2016-01-15 This book and course is designed to enable Christians to lead confidently based on their identity in Christ Leadership is tough Many leaders come to leadership from competence in a different field without training and fear that they cannot really lead and will be found out one day Many leaders are insecure constantly assessing how they are coming across and where challenges may arise Being grounded in Christ is the foundation for all true Christian leadership This identity based leadership makes us less driven reduces the risk of burnout and enables us to survive personal attacks use conflict positively and overcome other barriers to effective leadership Once we operate from this secure base centred and grounded in Christ we become less vulnerable to threats to our status we cease to have anything to hide because we can afford to be vulnerable and we are less likely to be blown off course by strong willed people wanting to push their own agenda Theology explained and defended, in a series of sermons ... with a memoir of the life of the Author Timothy DWIGHT (D.D., President of Yale College.),1831 *Creating the Land of the Sky* Richard D. Starnes,2010-03-12 A sophisticated inquiry into tourism s social and economic power across the South In the early 19th century planter families from South Carolina Georgia and eastern North Carolina left their low country estates during the summer to relocate their households to vacation homes in the mountains of western North Carolina Those unable to afford the expense of a second home relaxed at the hotels that emerged to meet their needs This early tourist activity set the stage for tourism to become the region s New South industry After 1865 the development of railroads and the burgeoning consumer culture led to the expansion of tourism across the whole region Richard Starnes argues that western North Carolina benefited from the romanticized image of Appalachia in the post Civil War American consciousness This image transformed the southern highlands into an exotic travel destination a place where both climate and culture offered visitors a myriad of diversions This depiction was further bolstered by partnerships between state and federal agencies local boosters and outside developers to create the attractions necessary to lure tourists to the region As tourism grew so did the tension between leaders in the industry and local residents The commodification of regional culture low wage tourism jobs inflated land prices and negative personal experiences bred no small degree of animosity among mountain residents toward visitors Starnes s study provides a better understanding of the significant role that tourism played in shaping communities across the South **The Christian**

Witness and Advocate of Bible Holiness ,1897**Making the American Self** Daniel Walker Howe,2009-09-22

Originally published in 1997 and now back in print *Making the American Self* by Daniel Walker Howe the Pulitzer Prize winning author of *What Hath God Wrought* charts the genesis and fascinating trajectory of a central idea in American history One of the most precious liberties Americans have always cherished is the ability to make something of themselves to choose not only an occupation but an identity Examining works by Benjamin Franklin Jonathan Edwards Abraham Lincoln Frederick Douglass Henry David Thoreau Ralph Waldo Emerson Margaret Fuller and others Howe investigates how Americans in the 18th and 19th centuries engaged in the process of self construction self improvement and the pursuit of happiness He explores as well how Americans understood individual identity in relation to the larger body politic and argues that the conscious construction of the autonomous self was in fact essential to American democracy that it both shaped and was in turn shaped by American democratic institutions The thinkers described in this book Howe writes believed that to the extent individuals exercised self control they were making free institutions liberal republican and democratic possible And as the scope of American democracy widened so too did the practice of self construction moving beyond the preserve of elite white males to potentially all Americans Howe concludes that the time has come to ground our democracy once again in habits of personal responsibility civility and self discipline esteemed by some of America s most important thinkers Erudite beautifully written and more pertinent than ever as we enter a new era of individual and governmental responsibility *Making the American Self* illuminates an impulse at the very heart of the American experience
