Developing Future-ready Learners for a Global Age Suzanne S. Choo, Woon Chia Liu, Bee Leng Chua, 2024-12-02 Suzanne S Choo Woon Chia Liu and Bee Leng Chua offer a dynamic look into the tripartite relationship between education research policy and practice that characterizes Singapore s changing education landscape Over the years Singapore has garnered increasing attention internationally for its world class education system Pushing back against the stereotypical notions of exam and teacher centric education in Asia the contributors to this volume discuss opportunities as well as challenges in Singapore s innovation towards constructivist critical culturally responsive and cosmopolitan forms of learning Highlighting the pedagogical innovation and its context in Singapore s teacher education and schools the authors bridge theory and practice by providing an understanding of innovative practices informed by key shifts in Singapore s education policies and the key conceptual principles informing these practices More importantly it provides on the ground empirical insights into the ways these innovative pedagogical practices are enacted in the classroom and in teacher education programmes Each chapter provides an in depth understanding of how these pedagogies are applied across various subject disciplines including guided problem solving in Mathematics games based pedagogy in Science multimodal literacies in language ethical criticism in Literature Nonlinear Pedagogy in Physical Education multicultural approaches in music and dialogic pedagogy in drama among others Balancing theoretical and empirical focus this resourceful text will be of interest to students researchers and practitioners in educational development pedagogy and teacher education as well as policymakers across international fields in education

Developing Expert Leadership For Future Schools Kenneth Leithwood, Paul T. Begley, J. Bradley Cousins, 2005-09-29 Based on the authors research on the behaviour and thinking of school leaders this volume presents arguments about the nature of expert school leadership It parallels developments in the field from the early

1980s when the emphasis was on identifying the behaviours of effective principals to the early 1990s when the focus shifted to understanding the thinking underlying those behaviours The ideas contained in this book should be useful in helping practising educationalists develop the skills involved in school leadership

Leadership Lessons: 10 Keys to Success in Life and Business Jim Swartz, Julie K. Thorpe, 2008-01-01 Achievers the masters innovators and great ones do not owe their success to luck birth or environment Rather great achievers throughout history from Michelangelo to Einstein Madame Curie to Bill Gates Colonel Sanders to General Eisenhower all have characteristics that the authors have distilled into actions for extraordinary success in any field In the process some old notions are put to rest including the saw that innovators must be risk takers in fact they not and that great ideas just happen This book ranges from the importance of preparing for success acquiring expertise to endurance against obstacles and recognizing and then seizing opportunities None of it is easy they say but the rewards can be substantial This fascinating book will be especially helpful for senior executives ambitious managers and entrepreneurs many will find the clarity of its prose and sometimes surprising relevance of the examples and keys inspirational

Educational Leadership Preparation and Development David Gurr, Peng Liu, 2025-08-04 This collection addresses key issues in the preparation and development of school leaders across eight countries and four world areas North America United Kingdom Europe and Australasia The work offers evidence based insights into the current and future leadership preparation and development needed for school success The future focus extends across the coming two or more decades and challenges the reader to consider how schools will likely develop and the leadership we will need in these schools The book comes at a time when many schools are faced with significant challenges including enduring impacts from the pandemic teacher shortages and the incorporation of new technologies such as generative AI Leadership in schools has never been more important and it is timely to consider the leadership preparation and development we need now and into the future There are chapters that address leadership from pre service and early career teachers through to principals providing a whole of career focus The authors are part of the International Leadership Development Network and use their extensive research to consider the important areas of teacher and middle leaders leadership for equity inclusion and social justice and school community and university partnerships It is a book that will prove useful to teachers and school leaders system leaders university faculty and graduate researchers
