Creation Edited Brown Vocal Score Eng Ger Texts:

Haydn: The Creation Nicholas Temperley, 1991-05-31 Haydn's Creation is one of the great masterpieces of the classical period. This absorbing and original account of the work provides an indispensable guide for the concert goer, performer and student alike. The author places the work within the oratorio tradition and contrasts the theological and literary character of the English libretto with the Viennese milieu of the first performances. The complete text is provided in both German and English versions as a useful reference point for discussion of the design of the work, the musical treatment of the words including questions of Haydn's pictorialism and a detailed examination of the different movement types employed. The book also contains a brief history of the reception of the work with appendices of notes on the changing performance traditions and selected extracts from critical accounts from the nineteenth and twentieth centuries. A History of the Oratorio Howard E. Smither, 2012-09-01 The Oratorio in the classical Era is the third volume of Howard Smither's monumental History of the Oratorio, continuing his synthesis and critical appraisal of the oratorio. His comprehensive study surpasses in scope and treatment all previous works on the subject. A fourth and final volume on the oratorio in the nineteenth and twentieth centuries is forthcoming. In this volume Smither discusses the Italian oratorio from the 1720s to the early nineteenth century and oratorios from other parts of Europe from the 1750s to the nineteenth century. Drawing on works that represent various types, languages and geographical areas, Smither treats the general characteristics of oratorio libretto and music and analyzes twenty-two oratorios from Italy, England, Germany, France and Russia. He synthesizes the results of specialized studies and contributes new material based on firsthand study of eighteenth-century music manuscripts and printed librettos. Emphasizing the large number of social contexts within which oratorios were heard, Smither discusses examples in Italy such as the Congregation of the Oratory, lay confraternities and educational institutions. He examines oratorio performances in German courts, London theaters and English provincial festivals and the Parisian Concert spirituel. Though the volume concentrates primarily on eighteenth-century oratorio from the early to the late Classical styles, Smither includes such transitional works as the oratorios of Jean-François Le Sueur in Paris and Stepan Anikievich Degtiarev in Moscow. A History of the Oratorio is the first full-length history of the genre since Arnold Schering's 1911 study. In addition to synthesizing current thought about the oratorio, this volume contributes new information on relationships between oratorio librettos and contemporary literary and religious thought and on the musical differences among oratorios from different geographical/cultural regions.
