Aids To Engineers Examinations:

Aids to Engineers Examinations N. Hawkins, 2015-06-16 Excerpt from Aids to Engineers Examinations There are three parties to an engineer's license First The Applicant Second The Public Third The Examiners or examining board of engineers To the applicant the period of an examination is a season of nervous dread and the utmost fitness does not always remove the feeling of anxiety Men often operate steam plants satisfactorily who cannot tell how they do it and a thoroughly practical engineer may make a very poor showing when questioned by an examiner It is sometimes still worse when modest applicants are required to write their experience for in the hands of many men the pen is an awkward tool hence a very large margin is allowed to men who can demonstrate that they have had the necessary practical experience even though they may not be able to answer questions off hand and those who have become rattled under the unusual catechising are frequently kindly advised by the examiner to come and try again About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Aids to Engineers' Examinations**
