Creating Strategic Vision Longrange Planning For National Security:

Creating Strategic Vision, 1987 **Creating Strategic Vision: Long-Range Planning for National Security**, 1987
America faces a 21st century challenged by military and political competition with the Soviet Union terrorism in the Third World and economic competition with Asia and Europe Our weaknesses are due as much as anything to our lack of strategic vision We lack effective systems for systematic long range planning and an ability to think about long range agendas for large institutions This book is a key building block to development of American strategic vision long range planning innovation and thinking about the future The effort to look at the Air Force experience to consider a surprise free future for dealing with the Soviet Union and to outline the fundamental questions of an introductory model for long range planning will be helpful to everyone who is concerned about America s defense establishment and about America s future **Assembly**, 1987

Creating Strategic Vision Perry McCoy Smith, 1987 Charting the nation's course strategic planning processes in the 1952-53 "New Look" and the 1996-97 Quadrennial Defense Review Patrick M. Condray, 2022 This study analyzes how the processes used in the national security planning influence the results It begins by discussing the nature of strategic planning for national security eventually defining it as a disciplined effort involving the allocation of resources to programmed activities aimed at achieving a set of objectives by integrating major goals policies and action sequences into a cohesive whole Two examples the New Look of 1953 and the Quadrennial Defense Review of 1997 are selected for comparison due to the many parallels of their respective historical situations The next step in the study defines several alternative methods for conducting strategic planning including how using those methods could influence the outcome These differences are used to analyze both the New Look and the Quadrennial Defense Review The New Look provides an example of a primarily sequential top down process while the Quadrennial Defense Review demonstrated the advantages and drawbacks of a primarily parallel process which had both top down and bottom up aspects The final section discusses the implications of the different approaches including the recommendation that any review contemplating major changes in national security policy follow a more sequential and top down process with clear guidance given to participants **National Defense and Security** United States. Cerami, James F. Holcomb, 2001 For more than 3 decades the U S Army War College USAWC Department of National Security and Strategy has faced the challenge of educating future strategic leaders on the subject of national security or grand strategy Fitting at

the top of an officer's or government official's career long professional development program this challenge has been to design a course on strategy that incorporates its many facets in a short period of time all within the 1 year senior service college curriculum To do this a conceptual approach has provided the framework to think about strategy formulation The purpose of this volume is to present the USAWC strategy formulation model to students and practitioners This book serves as a guide to one method for the formulation analysis and study of strategy an approach which we have found to be useful in providing generations of strategists with the conceptual tools to think systematically strategically critically creatively and big

Balancing what is described in the chapters as ends ways and means remains at the core of the Army War College's approach to national security and military strategy and strategy formulation **Department of Defense Appropriations** United States. Congress. House. Committee on Appropriations. Subcommittee on Department of Defense,1998 **Our New National Security Strategy** James J. Tritten,1992-09-30 This book is an analysis of President Bush's Regional Defense Strategy first unveiled in Aspen Colorado on August 2 1990 This strategy involves a mix of active reserve and reconstitutable forces and General Colin Powell's Base Force If implemented the new strategy and force structure would return significant U S ground and air forces to the continental United States where most would be demobilized In the event of a major crisis the United States would rely on active and reserve forces for a contingency response much as was done for Operation Desert Storm The new national security strategy is based upon the 25 percent budget cut negotiated with Congress a greatly depleted Russian threat and a new international security environment that assumes two years warning of a European centered global war with the former USSR There are four major critical factors upon which the new strategy depends 1 the continued decline of the Russians as a threat to world stability 2 the ability of the intelligence community to meet new challenges 3 the behavior of the allies and Congress and 4 the ability of industry to meet new demands The new strategy is not simply an adjustment to existing defense doctrine or strategy but rather a fundamental revision of the way the United States has approached defense since 1945 Students and scholars interested in politico military strategy and government policy will find this book of great interest **Redeemer Nation** Orrin Schwab,2004 In this book Dr Orrin Schwab develops the concept of the modern technocratic state as part of a global technocratic culture and civilization The author argues that technocratic cultural and institutional forms were and are part of a collective script for Western culture The American script combined the scientific commercial and technological aspects of the Enlightenment with the radical 17th century Protestant belief in America as a new Zion In the twentieth century the synthesis of mission along with global technocratic knowledge and institutions created the Wilsonian liberal technocratic order As the principal agent and protector of the modern capitalist international system America the self defined Redeemer Nation has moved through the controlled anarchy of international relations from one war and crisis to the next confirmed in its self defined role and mission **Monthly Catalog of United States Government Publications** United States.
