Creating A Virtual Library A Howtodoit Manual:

Creating a Virtual Library Frederick J. Stielow, 1999 Provides clear instructions for mounting a relatively advanced virtual library within a short period of time for low costs and even with an initially under trained staff **Handbook of Information Management** Alison Scammell, 2003-09-02 Effectively the eighth edition of Aslib's flagship Handbook of Special Librarianship and Information Work the definitive reference source on information theory practice and procedure since 1957 **The Practical Library Manager** Ruth C Carter, Bruce E Massis, 2013-04-15 Examine the nuts and bolts of successful management in today's rapidly evolving libraries This book is an essential primer for new library managers and directors In addition to providing an overview of the practical aspects of management it is a vital reference tool for managing your library and its staff The Practical Library Manager's informative text and comprehensive bibliographies of print and electronic resources can guide you to solutions to the issues that every fledgling library manager must deal with upon appointment While there are many publications on library management The Practical Library Manager is one of very few to focus on the practical issues of staffing and the importance of continuous staff training Also unlike other books on the subject this book features a chapter that points you to relevant management texts originally written for the corporate world rather than the library profession The Practical Library Manager is the perfect single source to help you understand the challenges of staffing your library and training your staff explore new technology's impact on library workers and evaluate training programs to help them keep up ensure that your staff has the core competencies they'll need in the current climate build a virtual library decide whether your library should join a consortium and much more In the words of the author Today the most successful libraries in the country are those addressing the needs of both external and internal customers However it takes more than technology to change the working relationship between the institution and its customer The guiding force for change must include a strong and respectful relationship between the library manager and staff Much of what is written in this book can assist the fledgling manager in creating an environment of trust teamwork and respect **Building Digital Libraries** Terry Reese, Kyle Banerjee, 2008 Demonstrates how resources are created distributed and accessed and how librarians can keep up with the latest technologies for successfully completing these tasks *Building Digital Libraries, Second Edition* Kyle Banerjee, Terry Reese, Jr., 2018-12-20 Whether you're embarking on the challenge of building a digital collection from scratch or simply need to understand the conceptual and technical challenges of constructing a digital library this top to bottom resource is the ideal guidebook to keep at your side especially in this thoroughly updated and reworked edition Demonstrating how resources are created distributed and accessed and how librarians can keep up with the latest technologies for successfully completing these tasks its chapters walk you step by step through every stage Demystifying core technologies and workflows this book comprehensively covers needs assessment and planning for a digital repository choosing a platform acquiring processing classifying and describing digital content storing and managing resources in a

digital repository digital preservation technologies and standards useful to digital repositories including XML the Portland Common Data Model metadata schema such as Dublin Core scripting using JSON and REST linked open data and automated metadata assignment sharing data and metadata understanding information access issues including digital rights management and analyzing repository use planning for the future migrating to new platforms and accommodating new types of data This book will thoroughly orient LIS students and others new to the world of digital libraries and also ensure that current professionals have the knowledge and guidance necessary to construct a digital repository from its inception

Creating Cyber Libraries Kathleen W. Craver, 2002-05-30 As prices of traditional library materials increase and space to house them shrinks savvy school library media specialists are creating cyber libraries or school libraries on the Internet These libraries offer students and their parents 24 hour access and are invaluable for providing up to date information in a way traditional materials cannot This guide outlines the steps library media specialists can take to create a cyber library provide content and policies for use and maintain it for maximum efficiency Craver justifies the need for cyber libraries in the 21st century and how they can help librarians to meet the standards in Information Power 1998 She explains the different types of cyber libraries available along with their advantages and disadvantages She discusses how to construct them using portals or by acquiring fee based cyber libraries and what policies should be in place to protect both the school and its students Also included are instructions for establishing remote access to subscription databases creating cyber reading rooms and providing instructional services to student users Once a cyber library is created it must be maintained and evaluated to keep it useful and current and this book provides guidelines to do so Finally there is a chapter on promoting the cyber library so the school community is aware of its features and participates in its growth process No school library should be without this volume
