modify this architecture for your own needs Expert VB 2005 Business Objects Rockford Lhotka, 2006-11-24 Rockford Lhotka started writing his Business Objects books in 1996 and over the years he s become one of the world s foremost authorities on building distributed object oriented systems This second edition of his industry standard VB NET Business Objects book not only addresses changes in NET 2 0 and Visual Studio 2005 but also reflects substantial enhancements and improvements to the CSLA NET Framework and how it can be used to create enterprise level NET applications Expert VB 2005 Business Objects takes you from an opening discussion of logical architectures to detailed n tier deployment options using the CSLA NET Framework Rockford provides enough understanding and detail for you to take this approach to your own projects as many developers have already done Rockford travels the world discussing his ideas with other developers at professional conferences and local user groups but you can benefit from his expertise anytime with this book There are many solutions to developing distributed applications why not learn about them from an expert with a universally accepted and respected framework Professional ASP.NET 2.0 Bill Evjen, 2006 Provides information on the features and functions of ASP NET 2 0 covering such topics as Web server controls working with Master Pages themes and skins data binding working with XML and caching **Developing Business Objects** Andy Carmichael, 1998-03-28 Presents the successes and failures of the pioneers who used object oriented methods and languages in commercial applications *Changing the Ways We Work* Nils Mårtensson, Ronald Mackay, S. Björgvinsson, 1998 This book highlights the effects of an increasing use of information technology IT in manufacturing Mainly focus is on the changes in organisation in working procedures and in the demands on the capabilities of the personnel both on the shop floor and the engineering and management levels It disseminates information from the research and development carried out under ESPRIT s Integration in Manufacturing domain as well as from other activities in similar domains in industry and academia A particular focus is on giving an overview and resume of work undertaken in the Third and Fourth Research Framework Programmes of ESPRIT **IBM Software for SAP Solutions** Yaro Dunchych, Peter Bahrs, Khirallah Birkler, Bernd Eberhardt, Navneet Goyal, James Hunter, Derek Jennings, Joe Kaczmarek, Michel Laaroussi, Michael Love, Stefan Momma, Nick Norris, Martin Oberhofer, Manfred Oevers, Paul Pacholski, Andrew Stalneck, Jörg Stolzenberg, Pierre Valiquette, IBM Redbooks, 2015-09-29 SAP is a market leader in enterprise business application software SAP solutions provide a rich set of composable application modules and configurable functional capabilities that are expected from a comprehensive enterprise business application software suite In most cases companies that adopt SAP software remain heterogeneous enterprises running both SAP and non SAP systems to support their business processes Regardless of the specific scenario in heterogeneous enterprises most SAP implementations must be integrated with a variety of non SAP enterprise systems Portals Messaging infrastructure Business process management BPM tools Enterprise Content Management ECM methods and tools Business analytics BA and business intelligence BI technologies Security Systems of record Systems of engagement The tooling included with SAP software

addresses many needs for creating SAP centric environments However the classic approach to implementing SAP functionality generally leaves the business with a rigid solution that is difficult and expensive to change and enhance When SAP software is used in a large heterogeneous enterprise environment SAP clients face the dilemma of selecting the correct set of tools and platforms to implement SAP functionality and to integrate the SAP solutions with non SAP systems This IBM Redbooks publication explains the value of integrating IBM software with SAP solutions It describes how to enhance and extend pre built capabilities in SAP software with best in class IBM enterprise software enabling clients to maximize return on investment ROI in their SAP investment and achieve a balanced enterprise architecture approach This book describes IBM Reference Architecture for SAP a prescriptive blueprint for using IBM software in SAP solutions The reference architecture is focused on defining the use of IBM software with SAP and is not intended to address the internal aspects of SAP components The chapters of this book provide a specific reference architecture for many of the architectural domains that are each important for a large enterprise to establish common strategy efficiency and balance The majority of the most important architectural domain topics such as integration process optimization master data management mobile access Enterprise Content Management business intelligence DevOps security systems monitoring and so on are covered in the book However there are several other architectural domains which are not included in the book This is not to imply that these other architectural domains are not important or are less important or that IBM does not offer a solution to address them It is only reflective of time constraints available resources and the complexity of assembling a book on an extremely broad topic Although more content could have been added the authors feel confident that the scope of architectural material that has been included should provide organizations with a fantastic head start in defining their own enterprise reference architecture for many of the important architectural domains and it is hoped that this book provides great value to those reading it This IBM Redbooks publication is targeted to the following audiences Client decision makers and solution architects leading enterprise transformation projects and wanting to gain further insight so that they can benefit from the integration of IBM software in large scale SAP projects IT architects and consultants integrating IBM technology with SAP solutions
