*Building a Successful Palestinian State* Robert E. Hunter,Seth G. Jones,2006-03-08 Throughout the history of Arab Israeli peace negotiations security has been the most important and most challenging issue for Palestinians Israelis and their neighbors This study examines key external security issues regarding the construction of a Palestinian state Its proposals include a NATO led international peace enabling force and Israeli Palestinian confidence building measures Building a Successful Palestinian State David Gompert,Kenneth Shine,Glenn Robinson,C. Richard Neu,Jerrold Green,2001-04-22 An examination of how an independent Palestinian state if created can be made successful The authors describe options for strengthening governance security economic development access to water health and health care and education and estimate the financial resources needed for successful development over the first decade of independence **Building a Palestinian State** Glenn E. Robinson,1997-03-22 an analysis that is as intricate and flawless as it is devastating Robinson s presentation is powerful and compelling and his scholarship impeccable MESA Bulletin an excellent book In just 200 pages Glenn Robinson manages to give the clearest and most concise analysis of the changing political and social structure of the West

Bank and Gaza and of current political realities that I have read Digest of Middle Eastern Studies a fair and sensitive account and contains the best available assessment of the Intifada's political aftermath among Palestinians An added bonus is that the book is written in an accessible style with enough historical background and contextual explanation to make it ideal as a text for courses in Middle East politics or the politics of revolutions American Political Science Review Well researched original scholarly deserves the attention of those interested in revolutionary theory or the Israeli Palestinian conflict Choice

Throughout the book is impressively researched and very well written Building a Palestinian State is a book that deserves to be widely read Journal of Palestine Studies a well informed and tightly argued analysis of the evolution of political leadership in the West Bank and Gaza from the 1980s to the spring of 1996 This book is a must read for anyone interested in the historical backdrop to current political developments in the areas under the control of the Palestinian Authority Middle East Policy carefully researched and balanced study Times Literary Supplement provides a unique analysis of the various facets of grassroots organizations and their interaction with the emerging state institutions a major and very timely contribution Anne Lesch In this well informed and accessibly written book Glenn E Robinson traces the emergence of a new political elite in the West Bank and Gaza in the 1980s and the grassroots political and social revolution it launched during the Intifada Israel and the Creation of a Palestinian State J. H. H. Weiler, 2024-10-31 To many outside observers of the Israeli Palestinian conflict there would appear to be one eminently sensible solution in exchange for recognition and adequate security guarantees Israel should return the West Bank and the Gaza strip subject to minor boundary modifications to the Palestinians led by a moderate PLO The Palestinians would then exercise their right to self determination and establish an independent state with or without a link to Jordan And yet this solution has found favor neither with successive Israeli governments nor with the PLO First published in 1985 Israel and the Creation of a Palestinian State now with a new preface by the author analyses the reasons for the rejection of this solution by the protagonists It then sets up a vision of a possible solution which by taking account of the subjective fears and aspirations of the parties may be regarded as more feasible The author's vision draws inspiration from the experience of reconstructing a new transnational order in Europe after the ravages of the Second World War The underlying theme focuses on the limitations of the purely national context as a framework for resolving the current political problems of the Israeli Palestinian dilemma *Creating the Palestinian State* Jerome M. Segal, 1989

**Palestinian State Formation** Nubar Hovsepian, 2009-03-26 This book examines the role of education in building a new Palestinian state and especially on the role and function of the education system in the process of state formation Since education frames a people's identity the nature of the education system affects how Palestinians relate to their state Through education the Palestinian Authority PA transforms the parameters of identity to serve the requirements of state building and the peace process International assistance to the PA affects all of these processes through the disbursal of political rent whose primary function is to bolster the PA and to keep the peace process going The new Palestinian Authority has assumed

two seemingly contradictory functions state building and resistance and the dynamic tensions between the two raise key questions for political and policy analysis Are these functions mutually exclusive or complementary in the context of the ongoing peace negotiations and state building Can the Palestinian leadership transform the Palestinian national movement from a revolutionary organization to a pragmatic state apparatus Are the PLO and the PA interchangeable What type of power does the PA need to cultivate the support or to secure the compliance of the Palestinian people for the state building project Clearly the answers to these questions have a direct bearing on the education system Will this system promote a resistance identity or a state building legitimizing identity

**Building a Palestinian State** Glenn E. Robinson,1997 Up to date analysis of grassroots Palestinian politics Islamism and the emerging Palestinian polity **The Routledge Handbook on the Israeli-Palestinian Conflict** Joel Peters,David Newman,2013 This Handbook provides an overview of the most contentious and protracted political issue in the Middle East The editors have gathered together a range of the top experts on the Palestinian Israeli conflict They tackle a range of topics from historical background through to peace efforts domestic politics critical issues such as refugees and settler movements and the role of outside players such as the Arab states US and EU **Soviet-PLO Relations and the Creation of a Palestinian State** Galia Golan,1979 *The Politics of Maps*

Calleya,2005-07-05 What are the prospects for the future of the Euro Mediterranean area and what relevant role can the Euro Mediterranean Partnership EMP play in the future After decades of a Mediterranean policy that was actually more focused on improving economic relations between Europe and the Mediterranean riparian states than anything else the EU launched a more comprehensive Mediterranean policy in November 1995 the so called Euro Mediterranean Partnership EMP that also embraced political and security relations and socio cultural relations As the tenth anniversary of this partnership approaches this book discusses measures that could help transform this multilateral initiative from a boundary management exercise to a process that focuses more on encouraging boundary transformation Euro Mediterranean initiatives that are in the pipeline such as the enhanced political dialogue the Charter for Peace and Stability the creation of a free trade area and justice and home affairs co operation are also discussed **Public paper of the presidents of the United States** George W. Bush,1982

**Environmental Security and Global Stability** Max G. Manwaring,2002-01-01 By meshing strategic and operational

expertise with research the work demonstrates the need to move theoretical and moral environmental protection programs to the realm of action      **Lordship and Liberation in Palestine-Israel** Muhannad Ayyash,2025-07-22 This

interdisciplinary book provides timely fresh perspective on Palestine Israel by rethinking the nature of settler colonial sovereignty and the relationship between land and people Muhannad Ayyash argues that this relationship comes in two distinct forms a settler colonial type practiced by the Israeli state that consists of lordship over land and people and a decolonial type seen in Palestinian popular organizing that he calls land as life a reciprocal bond The former is characterized by private ownership possession and violent expulsion of others the latter by communal ownership belonging to the land and opposition to the violence of expulsion Ranging widely across theory and history Ayyash contends that the opposition between these two types is at the core of the Palestinian Israeli struggle The choice before us today he concludes is between the continuation of the Israeli settler colonial project in particular and the project of colonial modernity in general or the commencement of a decolonial age in Palestine Israel and beyond Offering both novel theorizations and politically engaged analysis Lordship and Liberation in Palestine Israel illuminates how decolonial sovereignties represent an alternative to settler colonial violence      **Teaching Contested Narratives** Zvi Bekerman,Michalinos Zembylas,2014-01-30 In troubled

societies narratives about the past tend to be partial and explain a conflict from narrow perspectives that justify the national self and condemn exclude and devalue the enemy and their narrative Through a detailed analysis Teaching Contested Narratives reveals the works of identity historical narratives and memory as these are enacted in classroom dialogues canonical texts and school ceremonies Presenting ethnographic data from local contexts in Cyprus and Israel and demonstrating the relevance to educational settings in countries which suffer from conflicts all over the world the authors explore the challenges of teaching narratives about the past in such societies discuss how historical trauma and suffering are dealt with in the context of teaching and highlight the potential of pedagogical interventions for reconciliation The book shows how the notions of identity memory and reconciliation can perpetuate or challenge attachments to essentialized ideas about peace and conflict      **Public Papers of the Presidents of the United States, George W.
