in tension with and possibly in opposition to migrants closest associates precisely the people whom social capital theory paints as the font of the resources that make migration possible Roger Waldinger University of California Los Angeles USA Contents Foreword Roger Waldinger Introduction Victor Ziga Kamel Dora Delphine Mercier and Michel Peraldi Part One Migrant Families and Their Re configuration Chinese Migrant Women Creating Meaningful Lives Despite Vulnerable Statuses H l ne Le Bail Conflict and Migration from Iraq Building a Life in Exile Amid the Twists and Turns of a Dramatic History Cyril Roussel From Family Dispersion to Asylum Seeking Palestinian Refugees in Lebanon and Syria Kamel Dora Part Two Children s Movements Across Borders A left behind child from El Alto Protection Strategies and Redefinition of Kinship Ties for the Children of Migrant Women in Bolivia Robin Cavagnoud Journey to the Ordinary Integration of an Undocumented Moroccan Migrant in France Mustapha El Miri Children Circulating Between the United States and Mexico Victor Ziga and Betsab Rom n Gonz lez Part Three From Adventure to Waiting Emancipation of Restricted Trajectories Life While Waiting Experiencing the Asylum Application in France Carolina Kobelinsky A Family Resemblance Migration Work and Loyalty Fr d ric D cosse Suzana s choices Working in the maquiladoras migrating to survive and living transnationally Delphine Mercier Part Four From Expatriate to Migrant From Expats to migrants Mano s worlds in Marrakesh Michel Peraldi The Aeronautical Engineer in Flight Turbulence and the Capacity for Agency Across Borders Alfredo Hualde Being a Doctor Over Here or Over There Collective action the foundation of the capacity for agency in the migratory process Ariel Mendez Conclusion Uncertainty Anticipated Deborah A Boehm Serving the Household and the Nation Shu-Ju Ada Cheng,2006-01-01 Serving the Household and the Nation is an absorbing sociological study of the globalization of domestic service Using the case of Filipina domestics in Taiwan Cheng examines how nationalist politics shape the experience of migrant women under the context of globalization For migrant domestics it is often the state policy that creates their structural vulnerability in public and in private Cheng focuses on the question of how the intervention of the state and the development of nationhood shape the localization of domestic service and explores the nexus between homemaking and nation building This revealing book demonstrates how the management of foreign domestics is not only important for labor control but also central to the state s administration over alien subjects the development of nationhood and in this case study the changing ethnoscape in Taiwan

**The Palgrave Companion to MIT Economics** Robert A. Cord,2025-07-10 The Massachusetts Institute of Technology has been and continues to be one of the most important global centres for economics With four chapters on themes in MIT economics and 38 chapters on the lives and work of MIT economists this book shows how economics became established at the Institute how it produced some of the world s best known economists including Paul Samuelson Franco Modigliani and Robert Solow and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast the volumes provide economists especially those interested in macroeconomics and the history of economic thought with an in depth analysis of MIT economics Migrant Actors Worldwide ,2024-05-21 Capital is

moved to where low wage labour is available and migrants move often in large numbers to where investments and or wealth accumulated due to specific historic factors create a demand for labour This volume explores this idea and contributes to the fields of global labour working class and migration history by illuminating the lives of working people over the 19th and 20th centuries The book s twenty authors discuss a wide range of topics from capital investments in terms of the availability of low wage labour and forced mobilization to gender discrimination Contributors are Selda Altan Beate Althammer Nina Trige Andersen Cecilia Bruzelius Geoffrey Ewen Katharine Frederick Veronika Helfert Dirk Hoerder Ritesh Kumar Jaiswal D cil Juif Radhika Kanchana Leslie Page Moch Lukas Neissl Christof Parnreiter Lucas Poy Richard Saich Mahua Sarkar Lewis H Siegelbaum Yukari Takai and Aliko Vaxevanoglou

**Reconstructing Solidarity** Virginia Lee Doellgast, Nathan Lillie, Valeria Pulignano, 2018 Work is widely thought to have become more precarious Many people feel that unions represent the interests of protected workers in good jobs at the expense of workers with insecure employment low pay and less generous benefits Reconstructing Solidarity Labour Unions Precarious Work and the Politics of Institutional Change in Europe argues the opposite that unions try to represent precarious workers using a variety of creative campaigning and organizing tactics Where unions can limit employers ability to exit labour market institutions and collective agreements and build solidarity across different groups of workers this results in a virtuous circle establishing union control over the labour market Where they fail to do so it sets in motion a vicious circle of expanding precarity based on institutional evasion by employers Ieconstructing Solidarity examines how unions build or fail to build inclusive worker solidarity to challenge this vicious circle and to re regulate increasingly precarious jobs Comparative case studies from fourteen European countries describe the struggles of workers and unions in industries such as local government retail music metalworking chemicals meat packing and logistics Their findings argue against the thesis that unions act primarily to protect labour market insiders at the expense of outsiders

*Capitalism and Migration* Nestor Rodriguez, 2023-01-01 This book explores the role of capital and labor migration in the expansion of the capitalist world system It presents comprehensive case studies on various historical periods of hegemony recognized by world system theory the Dutch hegemony 1625 1675 British hegemony 1815 1873 and US hegemony 1945 1970 Moreover the book identifies an earlier period of economic dominance in Western Europe when merchant bankers from Florence dominated the regional wool trade in the early thirteenth century In these four intervals of dominance i e from the medieval period to the late twentieth century capital and labor migration formed the basis of capitalist development in the hegemonic core states as well as in peripheral regions under their economic and political influence In turn the book analyzes the migration patterns associated with the rise of hegemony from the perspectives of class relations between employers and workers technological advances at the workplace economic cycles and state policies on labor migration It concludes with a projection that heightened migration will continue to characterize the capitalist world system especially as many poor and displaced populations in peripheral regions resort to migration for survival Accordingly it

appeals to scholars in the fields of politics sociology history anthropology and economics who are interested in globalization and world system analysis *The Danwei* Xiaobo Lü, Elizabeth J. Perry, 2015-02-24 The danwei or work unit occupies a central place in Chinese society To understand Chinese politics demands a better understanding of this system This volume provides a systematic study of the danwei system and addresses a variety of questions from historical and comparative perspectives

**Right to DREAM** William A. Schwab, 2013-04-01 The DREAM Act bipartisan legislation first introduced in Congress in 2001 would provide conditional residency for undocumented youth brought to the United States as children It recognizes that undocumented youth have done nothing wrong and that they should be allowed to work to go to school and to travel The bill makes college more affordable through in state tuition and gives the undocumented a path to citizenship if they graduate from college or serve in the military Congress has failed to pass the DREAM Act and fourteen states have filled the gap by implementing their own laws and policies that provide educational benefits to undocumented students Right to DREAM makes a compelling argument for the DREAM Act and comprehensive immigration reform William A Schwab explores the key issues surrounding this legislation What are the issues that divide What do the proponents and opponents of the DREAM Act argue Is there a middle ground Is compromise possible Answering these questions Schwab explains the legal issues surrounding the education of immigrant children who immigrates and why how four waves of immigration have shaped the nation the effects of immigrants on the U S economy and culture and the process of becoming an American Schwab analyzes the DREAM Act deferred action and immigration policy He weaves personal stories of undocumented youth throughout the book and advocates for the economic political and social benefits of the DREAM Act that would bring undocumented youth out of the shadows and into the mainstream of society

**Routledge Handbook of World-Systems Analysis** Salvatore Babones, Christopher Chase-Dunn, 2012-05-31 World systems analysis has developed rapidly over the past thirty years Today s students and junior scholars come to world systems analysis as a well established approach spanning all of the social sciences The best world systems scholarship however is spread across multiple methodologies and more than half a dozen academic disciplines Aiming to crystallize forty years of progress and lay the groundwork for the continued development of the field the Handbook of World Systems Analysis is a comprehensive review of the state of the field of world systems analysis since its origins almost forty years ago The Handbook includes contributions from a global interdisciplinary group of more than eighty world systems scholars The authors include founders of the field mid career scholars and newly emerging voices Each one presents a snapshot of an area of world systems analysis as it exists today and presents a vision for the future The clear style and broad scope of the Handbook will make it essential reading for students and scholars of anthropology archaeology geography political science history sociology and development economics

**Migrants at Work** Cathryn Costello, Mark Robert Freedland, 2014 There is a highly significant and under considered intersection and interaction between migration law and labor law Labor lawyers have tended to regard migration law as generally speaking outside their

purview and migration lawyers have somewhat similarly tended to neglect labor law. The culmination of a collaborative project on Migrants at Work funded by the John Fell Fund, the Society of Legal Scholars and the Research Centre at St John's College Oxford, this volume brings together distinguished legal and migration scholars to examine the impact of migration law on labor rights and how the regulation of migration increasingly impacts upon employment and labor relations. Examining and clarifying the interactions between migration law and labor law, contributors to the volume identify the many ways that migration law as currently designed divides the objectives of labor law, privileging concerns about the labor supply and demand over worker protective concerns. In addition, migration law creates particular forms of status which affect employment relations, thereby dividing the subjects of labor law. Chapters cover the labor laws of the UK, Australia, Ireland, Israel, Italy, Germany, Sweden, and the US. References are also made to discrete practices in Brazil, France, Greece, New Zealand, Mexico, Poland, and South Africa. These countries all host migrants and have developed systems of migration law reflecting very different trajectories. Some are traditional countries of immigration and settlement migration, while others have traditionally been countries of emigration but now import many workers. There are nonetheless common features in their immigration law which have a profound impact on labor law, for instance in their shared contemporary shift to using temporary labor migration programs. Further chapters examine EU and international law on migration, labor rights, human rights, and human trafficking and smuggling, developing cross-jurisdictional and multi-level perspectives. Written by leading scholars of labor law, migration law, and migration studies, this book provides a diverse and multidisciplinary approach to this field of legal interaction of interest to academics, policymakers, legal practitioners, trade unions, and migrants groups alike.

**The Anthropology of Citizenship** Sian Lazar, 2013-11-11. The Anthropology of Citizenship introduces the theoretical foundations of and cutting edge approaches to citizenship in the contemporary world in local, national, and global contexts. Key readings provide a cross-cultural perspective on citizenship practices and an individual citizen's relationship with the state. Introduces a range of exciting and cutting edge approaches to citizenship in the contemporary world. Provides key readings for students and researchers who wish to gain an understanding of citizenship practices and an individual's relationship with the state in a global context. Offers an anthropological perspective on citizenship, the self, and political agency with a focus on encounters between citizens and the state in education, law, development, and immigration policy. Provides students with an understanding of the theoretical foundations of citizenship as characterized by liberal and civic republican ideas of political belonging and exclusion. Explores how citizenship is constructed at different scales and in different spaces. Twenty-five key writings identify what is a new and vibrant subfield within politics and anthropological research.

**Handbook of the International Political Economy of Migration** Leila Simona Talani, Simon McMahon, 2015-08-28. This Handbook discusses theoretical approaches to migration studies in general, as well as confronting various issues in international migration from a distinctive and unique international political economy perspective. With a

focus on the relation bet Who Needs Migrant Workers? Martin Ruhs, Bridget Anderson, 2012-05-17 Are migrant workers needed to do the jobs that locals will not do or are they simply a more exploitable labour force Do they have a better work ethic or are they less able to complain Is migrant labour the solution to skills shortages or actually part of the problem This book provides a comprehensive framework for analysing the demand for migrant workers in high income countries It demonstrates how a wide range of government policies often unrelated to migration contribute to creating a growing demand for migrant labour This demand can persist even during economic downturns The book includes quantitative and qualitative analyses of the changing role of migrants in the UK economy The empirical chapters include in depth examinations of the nature of staff shortages and the use of migrant workers in six sectors health social care hospitality food production construction and financial services The book s conceptual framework and empirical findings are of importance to academic and policy debates about labour immigration in all high income countries The final chapter presents a comparative analysis of research and policy approaches to assessing labour shortages in the UK and the US It examines the potential lessons of the UK s Migration Advisory Committee MAC for current debates about labour shortages and immigration reform in the US The book will be of significant interest to policy makers stakeholders academics and students

Mobility and Modernity Steven Lawrence Hochstadt, 2023-07-28 Mobility and Modernity uses voluminous German data on migrations over the past two centuries to demonstrate why conventional assumptions about the relationship between mobility and modernity must be revised Thus far the changing total volume of migration has not been traced over a long period for any country Unique migration registration statistics both detailed and broadly geographical in coverage allow the precise plotting of migration rates in Germany since 1820 Steve Hochstadt combines careful quantitative methods easily understood numerical data and social analysis based upon broad reading in German social history to show that current beliefs about the direction and timing of changes in German mobility which have been based on late nineteenth century anxieties about urbanization and industrialization do not match the data Migration rates in Germany rose continuously throughout the nineteenth century and have fallen during the twentieth century Mobility Hochstadt argues was not an unprecedented accompaniment to industrialization but a traditional rural response to specific economic changes Hochstadt s more precise analysis of urban in and outmigration shows the mechanism of urbanization to have been the migration of families rather than the much greater but also more circular migration of single men and women Hochstadt demonstrates the importance of examining historical behavior powerfully justifying the methods of historical demography as a path to social understanding The data and specific conclusions are German but the methods and reinterpretation of migration history have much wider application both to other modern European nations and to currently developing countries Those who study the modern social history of Europe the mechanisms that formed urban working classes and the methods of historical demography will be interested in Hochstadt s work
