Ketterson,2012-12-06 As we assume the editorship of *Current Ornithology* it seems useful to review the objectives of the series We cannot improve on the statements of our predecessors when they began their service as editors In his preface to Volume 1 1983 Richard F Johnston wrote The appearance of the first volume of a projected series is the occasion for comment on scope aims and genesis of the work The scope of *Current Ornithology* is all of the biology of birds Ornithology as a whole organism science is concerned with birds at every level of biological organization from the molecular to the community at least from the Jurassic to the present time and over every scholarly discipline in which bird biology is done to say this is merely to expand a dictionary definition of ornithology The aim of the work to be realized over several volumes is to present reviews or position statements concerning the active fields of ornithological research Dennis M Power who edited Volumes 6 12 1989 1995 began his preface to Volume 6 1989 as follows This edited series has three principal goals The first is to provide information in a relatively concise way for researchers needing an overview of specific disciplines The second is to provide an update on specific schools of thought bringing together ideas from colleagues whose works often appear in a variety of journals And the third is to stimulate and suggest directions for new research Wildlife Review ,1991 **Bird Conservation Implementation and Integration in the Americas** ,2005 **Animal Damage Control Program** ,1990 **Animal Damage Control Program** United States.
