Bird's Opening Timothy Taylor, 2005-12-01 International Master Timothy Taylor unearths the secrets of Bird's Opening and its many deviations Using illustrative games he examines tactical and positional ideas for both colors and recommends the best paths     H.E. Bird Hans Renette, 2016-10-07 No chess player of the 19th century had a longer more varied career than Henry Edward Bird 1829-1908 After pursuing a civil career for years his love for chess prevailed He belonged to the top level of British players for decades but he really shone at Simpson's Divan Bird's accessibility fierce attacking style and contempt for draws made him a people's favorite but his proud and touchy character led him into disputes with his colleagues A very strong and widely known player he fell into oblivion after his death This comprehensive first biography of Bird provides a detailed account of his personal life and a deeply researched coverage of his feats at the chess board Almost 1 200 games are included hundreds of them published here for the first time Nearly 450 games many of them thrilling all out fights are presented with a mix of contemporary and modern annotations     **Joyce in the Belly of the Big Truck;**

D. Harding, Ken Smith, Hugh E. Myers, 1989     *The Modernized Bird's Opening* Raven Sturt, 2025-03-28 Bird's Opening is currently in that Goldilocks zone of the great arbitrages in life The majority of chess players have dismissed it overlooking its inherent value and this allows for adopters of the Bird to take advantage of this asymmetry As of this writing it is played 9% of the time in online databases and this drops to 2% in the master's database of OTB games For reference in the OTB database 1 e4 is played 45% of the time So for every 225 OTB games your opponent plays against 1 e4 he plays against the Bird once While a case could be made that 1 e4 or 1 d4 are stronger the objective difference between them and the Bird is infinitesimal The way I see it people will continue to ignore the Bird for the foreseeable future Unless this book sells a million copies the Bird will never be played remotely close to the frequency it deserves Because of this it will never be worth your opponent's while to study it so it will always carry great surprise value The book is structured around the Lichess database for players rated between 1200 and 2000 so if you are in this category the repertoire will synchronize perfectly with the lines your opponents are choosing in your own games Whenever possible I have sought out lines to surprise your opponent and give them the toughest time figuring things out

prepares you for the lines you are most likely to face from Black Your idea is to play the Birds Opening 1 f4 as White The Stonewall pawn structure is f4 e3 d4 with Nf3 This Playbook tells you what to play The 200 key positions are based on what Black plays most often Five moves for White are added below the diagrams That s about 1000 moves of opening preparation Tim Sawyer has developed opening repertoires for 40 years Do you want an easy way to start your chess games Let him be your guide Databases have millions of games with too many options that are too hard to remember This book narrows your choices It answers the question of what do I play when I get here I offer you help Play this You are given a complete consistent repertoire This shows you what to play in your games not what others played Most players think it takes too long to learn an opening This is a quick study Think how nice it is to be familiar with your defenses against 1 d5 1 Nf6 1 c5 and 1 e5 Imagine being comfortable with your piece development It s your move as White in every diagram Start your game well Follow the suggested continuations Be prepared [1.
