Horrobin, 2012-12-06 East Africa is rapidly becoming one of the most popular areas in the world among the increasing numbers of travellers who are prepared to venture outside their own continent To those of us fortunate enough to live here the reasons for this popularity are quite apparent Much of the region enjoys an equable climate all the year round with no extremes of either heat or cold and with plenty of sunshine Scenically the area is one of the most beautiful on earth with a marvellous variety of landscape The beaches are vast and clean and unspoilt But the outstanding attractions of East Africa for most people are its fascinating peoples and the unparalleled abundance of its wild life This guide is the first of three planned to cover the whole region of East Africa It deals with Kenya and Northern Tanzania The other guides will deal with Uganda and the rest of Tanzania Many books have been written about East Africa They come into four main categories the magnificent picture books the geography books the stories about animals and the detailed technical books on such special aspects as game conservation bird life prehistory or butterflies None of these is suitable as a practical guide for either the local resident or the average intelligent

visitor who is interested in everything but is not an enthusiastic specialist in any particular subject **Northern Tanzania Safari Guide** Philip Briggs, Chris McIntyre, 2023-07-07 This new thoroughly updated fifth edition of Bradt's Northern Tanzania Safari Guide remains the only full length guidebook focussed exclusively on the country's north and on Zanzibar. Reflecting tourism's shift away from backpackers and budget camping safaris to upper end and mid range safaris and beach holidays it is tailored closely to the requirements of anyone going on a safari to northern Tanzania followed by a few days on Zanzibar. Northern Tanzania is dominated by Africa's finest safari circuit offering spectacular game viewing year round. Centred on the legendary Serengeti National Park and its world famous wildebeest migration this circuit also incorporates the Ngorongoro Crater and surrounding Ngorongoro Conservation Area, Lake Manyara and Tarangire national parks. Geographically northern Tanzania is one of Africa's most varied regions with a palm fringed Indian Ocean coastline complemented by the scenic wonders of the Great Rift Valley and several impressive volcanically formed mountains, most notably snow capped Mount Kilimanjaro, the tallest peak in Africa and a popular goal for hikers. Lesser known gems include the prehistoric rock art at Kondoa, a UNESCO World Heritage Site, the forested Arusha National Park and Amani Nature Reserve and the spectacular Ol Doinyo Lengai, Africa's most active volcano. Serviced by a well developed safari industry, northern Tanzania's superlative reserves are complemented by a stopover on the legendary Spice Island of Zanzibar. With its atmospheric old town, idyllic beaches and offshore reefs teeming with marine life it is every bit as evocative as its name. Written by acknowledged Africa experts and prolific guidebook writers Philip Briggs and Chris McIntyre, this guide prioritises practical information about the area's peerless collection of national parks, game reserves and other safari destinations. Accommodation listings for the safari destinations are the most detailed and authoritative available, the authors weeding through the ever growing number of lodges and camps to create a critically selective list of the best properties across all price points. Meanwhile a colour wildlife field guide provides great detail about wildlife and where to see it. All in all Northern Tanzania Safari Guide is the most authoritative source available for visitors, an essential travel companion for both first time visitors and seasoned safari goers.

A Field Guide to the Raptors of Europe, the Middle East, and North Africa William S. Clark, 1999 In this thorough new identification guide, author Bill Clark presents the latest information on tried and tested field marks for the diurnal raptors, both perched and in flight, making this book essential for all ornithologists or any bird watcher who wants to identify these extraordinary birds.

Birds of Kenya's Rift Valley Adam Scott Kennedy, 2014-05-04 Kenya's Rift Valley includes four major national parks: Lake Nakuru, Lake Bogoria, Mount Longonot and Hell's Gate, as well as many smaller areas that are outstanding for wildlife.
