Birmingham Cinemas:

Birmingham Cinemas Christine Wilkinson, Margaret Hanson, 2003-09-01 Through the medium of old photographs and archive ephemera this book provides a fascinating look at the history cinema going in the city of Birmingham from its early beginning as a fairground attraction right up to the present day and the giant multiplex cinema The reader is taken on a tour of movie houses and auditoriums around the city including the Kingstanding Odeon Curzon Hall Winson Green Picture House and the Appollo in Erdington Leisure in Britain, 1780-1939 John K. Walton, James Walvin, 1983 Audiences Ian Christie, 2012 This timely volume engages with one of the most important shifts in recent film studies the turn away from text based analysis towards the viewer Historically this marks a return to early interest in the effect of film on the audience by psychoanalysts and psychologists which was overtaken by concern with the effects of film linked to calls for censorship and moral panics rather than to understanding the mental and behavioral world of the spectator Early cinema history has revealed the diversity of film viewing habits while traditional box office studies which treated the audience initially as a homogeneous market have been replaced by the study of individual consumers and their motivations Latterly there has been a marked turn towards more sophisticated economic and sociological analysis of attendance data And as the film experience fragments across multiple formats the perceptual and cognitive experience of the individual viewer who is also an auditor has become increasingly accessible With contributions from Gregory Waller John Sedgwick and Martin Barker this work spans the spectrum of contemporary audience studies revealing work being done on local non theatrical and live digital transmission audiences and on the relative attraction of large scale domestic and mobile platforms Publisher's website

Film - An International Bibliography Malte Hagener, Michael Töteberg, 2016-12-16 Kommentierte Bibliografie Sie gibt Wissenschaftlern Studierenden und Journalisten zuverlässig Auskunft über rund 6000 internationale Veröffentlichungen zum Thema Film und Medien Die vorgestellten Rubriken reichen von Nachschlagewerk über Filmgeschichte bis hin zu Fernsehen Video Multimedia *Odeon Cinemas* Allen Eyles, 2002 The old saying does often seem to hold true the rich get richer while the poor get poorer creating a widening gap between those who have more and those who have less The sociologist Robert K Merton called this phenomenon the Matthew effect named after a passage in the gospel of Matthew Yet the more closely we examine the sociological effects of this principle the more complicated the idea becomes Initial advantage doesn't always lead to further advantage and disadvantage doesn't necessarily translate into failure Does this theory need to be revisited Merton's arguments have significant implications for our conceptions of equality and justice and they challenge our beliefs about culture education and public policy His hypothesis has been examined across a variety of social arenas including science technology politics and schooling to see if in fact advantage begets further advantage Daniel Rigney is the first to evaluate Merton's theory of cumulative advantage extensively considering both the conditions that uphold the Matthew effect and the circumstances that cause it to fail He explores whether growing inequality is beyond human control or disparity is socially constructed and subject to change Reexamining our core assumptions about society Rigney causes us to rethink the sources of inequity **Canadian National Cinema** Chris Gittings, 2012-10-02 Canadian National Cinema explores the idea of the nation across Canada's film history from early films of colonisation and white settlement such as *The Wheatfields of Canada* and *Back to God's Country* to recent films like *N L E Confessional* *Mon Oncle Antoine* *Grey Fox* *Highway 61* *Kanehsatake* and *I've Heard the Mermaids Singing* Reel Change Richard Wallace, Jon Burrows, 2022-08-16 Ten years ago a technological revolution swept through cinemas around the world as analogue projectors were replaced with digital equipment It was not just the plastic medium of film that was removed from projection boxes during this transformation most cinemas took this opportunity to also evict the human projectionists who were hitherto in charge of screenings Projectionists had been hidden from the sight of audiences for most of the history of photographic moving image projection and their

redundancies went largely unnoticed and unremarked upon This book focuses attention on what has been happening behind film spectators heads for the past 130 years and attempts to write the history of cinema in Britain from the perspective of its habitually overlooked and undervalued projectionists beginning in the silent era and continuing to the present day Drawing upon extensive archival research and lengthy interviews with former projectionists it documents the key facets and challenges of their work and how these evolved in response to previous waves of significant technological change It evaluates how projectionists helped to design and maintain key aesthetic characteristics of the 20th century big screen experience It shows how the institution of cinema in Britain has been historically underpinned by the harsh exploitation of projectionists by many employers detailing inadequate wage levels and poor working conditions that formerly provoked government investigation and explaining why these problems were never successfully ameliorated by trade unions It also charts in depth the recent fateful transition to digital projection delineating how and why projectionists were so swiftly and ruthlessly consigned to the past and assessing whether this form of entertainment should be considered diminished by their super session
