**Robbie E. Davis-Floyd, Carolyn Fishel  
Sargent**

## **Birth Trap:**

**Birth as an American Rite of Passage** Robbie E. Davis-Floyd, 2004-03-15 Why do so many American women allow themselves to become enmeshed in the standardized routines of technocratic childbirth routines that can be insensitive unnecessary and even unhealthy Anthropologist Robbie Davis Floyd first addressed these questions in the 1992 edition Her new preface to this 2003 edition of a book that has been read applauded and loved by women all over the world makes it clear that the issues surrounding childbirth remain as controversial as ever **Current Catalog** National Library of

Medicine (U.S.), First multi year cumulation covers six years 1965 70 **Birth in Four Cultures** Brigitte Jordan, 1992-11-18 While the process of childbirth is in some sense everywhere the same it is also everywhere different in that each culture has produced a birthing system that is strikingly dissimilar from the others Based on her fieldwork in the United States Sweden Holland and Yucatan Jordan develops a framework for the discussion and investigation of different birthing systems Illustrated with useful examples and lively anecdotes from Jordan s own fieldwork the Fourth Edition of this innovative comparative ethnography brings the reader to a deeper understanding of childbirth as a culturally grounded biosocially mediated and interactionally achieved event *A Good Birth, a Safe Birth* Diana Korte, Roberta Scaer, 1992-09-16

Essential guide to the bewildering array of delivery options available **China's Population Aging and the Risk of 'Middle-income Trap'** Xueyuan Tian, 2017-07-05 This book includes a series of reports that mainly discuss the Middle Income Trap against the backdrop of population ageing in China It also offers practical suggestions on how to avoid it properly Concretely it argues that the government should accelerate the transition of economic development modes resolve concentrated social conflicts promote a balanced rural and urban development during the process of urbanization and mitigate the effects of population ageing by fostering strengths and avoiding weaknesses As for the challenges posed by population ageing in China it puts forward five core suggestions tailored to China s unique situation Assessing a number of real world challenges the general report and the special reports combine theory and empirical findings using primary data for their analyses Given the wealth of essential information it provides the book offers a valuable reference resource for decision makers

**Ethics and Human Reproduction (RLE Feminist Theory)** Christine Overall, 2013-05-20 In *Ethics and Human Reproduction* Christine Overall blends feminist theory and philosophical expertise to provide a coherent analysis of a range of moral questions and social policy issues pertaining to human reproduction and the new reproductive technologies Topics covered include sex preselection artificial insemination prenatal diagnosis abortion in vitro fertilisation and embryo transfer surrogate motherhood and childbirth Throughout the book the author examines the values and assumptions underlying common perceptions of sexuality and fertility the status of the foetus the value of children the nature of parenting and the roles of women In so doing she develops a feminist approach to answering questions about reproductive rights and freedoms the value of a genetic link between mother and their offspring the commodification of reproduction and the effects

of reproductive technologies on women and children This book should be essential reading for anyone interested in the new reproductive technologies biomedical ethics and women s health

**Childbirth and Authoritative Knowledge** Robbie E. Davis-Floyd, Carolyn Fishel Sargent, 2023-04-28 This benchmark collection of cross cultural essays on reproduction and childbirth extends and enriches the work of Brigitte Jordan who helped generate and define the field of the anthropology of birth The authors focus on authoritative knowledge the knowledge that counts on the basis of which decisions are made and actions taken highlights the vast differences between birthing systems that give authority of knowing to women and their communities and those that invest it in experts and machines Childbirth and Authoritative Knowledge offers first hand ethnographic research conducted by anthropologists in sixteen different societies and cultures and includes the interdisciplinary perspectives of a social psychologist a sociologist an epidemiologist a staff member of the World Health Organization and a community midwife Exciting directions for further research as well as pressing needs for policy guidance emerge from these illuminating explorations of authoritative knowledge about birth This book is certain to follow Jordan s Birth in Four Cultures as the definitive volume in a rapidly expanding field This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999 This benchmark collection of cross cultural essays on reproduction and childbirth extends and enriches the work of Brigitte Jordan who helped generate and define the field of the anthropology of birth The authors focus on authoritative knowledge the kn

technologyReflects a multidisciplinary collaborative approach to diagnosis management and treatment between radiologists perinatologists pediatricians and surgeonsIncludes embryology and anatomy overview chapters along with pertinent differential diagnoses for comprehensive coverageUses bulleted succinct text and highly templated chapters for quick comprehension of essential information at the point of careEnhanced eBook version included with purchase Your enhanced eBook allows you to access all of the text figures and references from the book on a variety of devices

**Ethics and Human Reproduction** Christine Overall,2012-10-11 In Ethics and Human Reproduction Christine Overall blends feminist theory and philosophical expertise to provide a coherent analysis of a range of moral questions and social policy issues pertaining to human reproduction and the new reproductive technologies Topics covered include sex preselection artificial insemination prenatal diagnosis abortion in vitro fertilisation and embryo transfer surrogate motherhood and childbirth Throughout the book the author examines the values and assumptions underlying common perceptions of sexuality and fertility the status of the foetus the value of children the nature of parenting and the roles of women In so doing she develops a feminist approach to answering questions about reproductive rights and freedoms the value of a genetic link between mother and their offspring the commodification of reproduction and the effects of reproductive technologies on women and children This book should be essential reading for anyone interested in the new reproductive technologies biomedical ethics and women s health

Capture-Recapture: Parameter Estimation for Open Animal Populations George A. F. Seber,Matthew R. Schofield,2019-08-13 This comprehensive book rich with applications offers a quantitative framework for the analysis of the various capture recapture models for open animal populations while also addressing associated computational methods The state of our wildlife populations provides a litmus test for the state of our environment especially in light of global warming and the increasing pollution of our land seas and air In addition to monitoring our food resources such as fisheries we need to protect endangered species from the effects of human activities e g rhinos whales or encroachments on the habitat of orangutans Pests must be controlled whether insects or viruses and we need to cope with growing feral populations such as opossums rabbits and pigs Accordingly we need to obtain information about a given population s dynamics concerning e g mortality birth growth breeding sex and migration and determine whether the respective population is increasing static or declining There are many methods for obtaining population information but the most useful and most work intensive is generically known as capture recapture where we mark or tag a representative sample of individuals from the population and follow that sample over time using recaptures resightings or dead recoveries Marks can be natural such as stripes fin profiles and even DNA or artificial such as spots on insects Attached tags can for example be simple bands or streamers or more sophisticated variants such as radio and sonic transmitters To estimate population parameters sophisticated and complex mathematical models have been devised on the basis of recapture information and computer packages This book addresses the analysis of such models It is primarily intended for ecologists and wildlife

managers who wish to apply the methods to the types of problems discussed above though it will also benefit researchers and graduate students in ecology Familiarity with basic statistical concepts is essential

**The Crusaders** Baby Kattackal, The Crusaders with its rich cast of characters delves into a host of subjects that the author Baby Kattackal holds dear to his heart The novel is divided into three parts and follows the story of Jes Raj his son Beja and a Chinese girl Xiuying It explores faith blind belief superstition and atheism on one hand On another it examines the concept of discipline and the negative and positive aspects of it Then there is the notion of love a word that is bandied about so much but so misunderstood as well What is true love What is the path to true love What are the illusions and delusions we suffer when we are in love But most importantly the core of the book is really about Communism and Marxism To put it in the author s own words The aim of this book lies in the answers which the Marxist theory has sorely failed to address has the Marxian theory succeeded in abating the poverty of the masses or in bringing in equality and welfare to the people Has the theory been of any help in abating the poverty of the people of the Soviet Union and the People s Republic of China What about freedom of speech in these communist countries What was the condition of the working class under communism Comparing the condition of the proletariat under communism with that of capitalism hasn t the condition of the working class under capitalism always been far better Kattackal s message is clear to enlighten future generations about the poignant story of people who suffered and gave up their lives in despair unable to withstand the atrocities of the communist regimes The author says I would like to warn them not to get carried away by the impractical but alluring concepts of abatement of poverty bringing in equality and welfare to all which Marxism and communism have proved they were incapable of achieving
