Little Monsters Helene Brembeck,Karin M. Ekström,Magnus Mörck,2007 This book is about stories of consumption beyond the culture economy divide By bringing along Actor Network Theory entities that in conventional approaches are taken for granted such as consumers goods and companies proves to be unstable assemblages of humans goods and technologies We meet materialistic children and parents creating an intimate moment at McDonald s car poolers trying to get out of the grip of individual transportation young couples imagining a home in that odd reversal of private space the furniture store and grown men practicing a hobby so close to childhood that it causes unease These and other examples line that up as our monsters ready to act out the drama Considering that actor network theory has its roots in narratology of Algirdas Greimas 1917 1992 what better use can one imagine for it than its application to the tales of consumption In the best ANT ian style the book refuses to label people things and phenomena with the received names The message is wait until the end of the story to see whether or not a big company wins over small consumers or if behind a bewitching trademark hides a good fairy or a wicked witch This collection

challenges most of the common places about consumption production markets and consumers **New York Magazine**
