Bishops and Prophets in a Black City Martin West, 1977-09-01 *The Healer-Prophet in Afro-Christian Churches* Gerhardus C. Oosthuizen, 2016-05-18 Apart from the mainline Pentecostal and Zionist churches there are different types of African Independent Indigenous Churches AIC The greater part of the more than four thousand denominations and eight million adherents came into the AIC during the past three decades mainly from the traditional African religious background The important role of the diviner in the traditional society has been replaced by the prophet in the AIC the prophet understands the worldview of his her people especially the cultural diseases In some churches the office of prophet cum diviner is represented by one person The AIC movement is the most dynamic church movement in many parts of Africa especially Southern Africa The consistent growth of these churches can largely be accounted for by the healing procedures they use which are highlighted in this study Dr Oosthuizen approaches healing from various angles as sickness is not only determined by physical and psychological factors but also by disturbed human relationships and socio political and economic tensions

The Universal Church of the Kingdom of God in South Africa Ilana van Wyk, 2014-05-12 This book shows how the UCKG utilizes rituals that are locally meaningful and are informed by local ideas about human bodies agency and ontological balance

A History of the Church in Africa Bengt Sundkler, Christopher Stead, 2000-05-04 Bengt Sundkler's long awaited book on African Christian churches will become the standard reference for the subject

The Public Face of African New Religious Movements in Diaspora Afe Adogame, 2016-02-24 The growing pace of international migration technological revolution in media and travel generate circumstances that provide opportunities for the mobility of African new religious movements ANRMs within Africa and beyond ANRMs are furthering their self assertion and self insertion into the religious landscapes of Europe the Americas and Asia Their growing presence and public visibility seem to be more robustly captured by the popular media than by scholars of NRMs historians of religion and social scientists a tendency that has probably shaped the public mental picture and understanding of the phenomena This book provides new theoretical and methodological insights for understanding and interpreting ANRMs and African derived religions in diaspora Contributors focus on individual groups and movements drawn from Christian Islamic Jewish and African derived religious movements and explore their provenance and patterns of emergence their belief systems and ritual practices their public civic roles group self definition public perceptions and responses tendencies towards integration segregation organisational networks gender orientations and the implications of interactions within and between the groups and with the host societies The book includes contributions from scholars and religious practitioners thus offering new insights into how ANRMs can be better defined approached and interpreted by scholars policy makers and media practitioners alike

The Church Struggle in South Africa John W. De Gruchy, 2005 No more heartrending yet hopeful case study in Christian ethics exists than in the story of South African apartheid and its recent decisive transformation John de Gruchy's authoritative and newly updated account of

Christian complicity with and then resistance to one of the world's most notoriously repressive regimes holds indispensable lessons and dangerous memories for all concerned about evil justice and racial reconciliation

The Religion of the Landless Daniel L. Smith-Christopher, 2015-01-14 Through brilliant new interpretations of biblical exiles Daniel Smith Christopher shows their experience as the most apt model for the Church as witnesses for the peace and justice of God in a strange land

The Power of the Occult in Modern Africa James Kiernan, 2006 The occult is a framework of ideas and related practices that is drawn upon as a common resource to provide an understanding of how an apparently random world really works Based mainly on experiential research in a range of African societies the essays in this volume examine the relevance of the occult to a variety of social concepts and contexts These studies stress three features of the occult in modern Africa 1 as an explanatory and tactical device it is resilient 2 it is malleable with a capacity to absorb and assimilate new elements 3 it is flexible and adaptable to emerging situations and novel circumstances Of interest to specialists in the fields of religion social science and African studies this book will benefit the general reader interested in the occult and its relevance to modernity and globalisation

Pentecostalism in Africa, 2014-10-16 Within recent decades Pentecostal charismatic Christianity has moved from an initially peripheral position to become a force to be reckoned with within Africa's religious landscape Bringing together prominent Africanist scholars from a wide range of disciplines this book offers a comprehensive and multifaceted treatment of the ways in which Pentecostal Charismatic movements have shaped the orientations of African Christianity and extended their influence into other spheres of post colonial societies such as politics developmental work and popular entertainment Among other things the chapters of the book show how Pentecostal charismatic Christianity responds to social and cultural concerns of Africans and how its growth and increasingly assertive presence in public life have facilitated new kinds of social positioning and claims to political power

Religion, Conflict, and Democracy in Modern Africa Samuel K. Elolia, 2012-03-02 Spanning various regions of Sub Saharan Africa the authors of this volume come together to explore the complex relationship between religion and democracy in contemporary Africa As a result of the end of the Cold War and the fall of the Soviet Union many African countries have come to the realization however partial that political and social change is inevitable in spite of government heavy handedness and threats It has also become evident that no political system that refuses to permit freedom of political expression and alternative systems of governance could continue to be sustained It is in precisely this political climate that religious institutions have collaborated with other elements of civil society to call for political reforms with the church often becoming the prominent voice against oppressive governments in countries such as Kenya and South Africa It is the purpose of this book to assess how religion

shapes political issues and to what extent religious forces influence the civil society By acknowledging the role of the civil society the essays recognize the resilience that comes out of Africa even when the sociopolitical situation seems unbearable

Under the Canopy Linda Elaine Thomas,1999 The culture of a black South African community the religion rituals that enabled it to survive the devastating apartheid era

Witchcraft, Violence, and Democracy in South Africa Adam Ashforth,2005-01-15 Large numbers of people in Soweto other parts of South Africa live in fear of witchcraft presenting complex unique problems for the government Adam Ashforth explores the challenge of occult violence the spiritual insecurity that it engenders to democratic rule in South Africa

Pentecostal and Charismatic Spiritualities and Civic Engagement in Zambia Naar M'fundisi-Holloway,2018-08-22 For the past sixty years the Pentecostal and Charismatic movement has played a major role in Zambia In this book Naar Mfundisi Holloway explains the history of this development and its impact on civic engagement She opens a discussion on church state relations and explains how the church presented a channel of hope in the wake of the HIV AIDS pandemic despite having a history that eschewed civic engagement In fact the pandemic propelled the church to work alongside the state in the fight against the disease Using interviews and historical analysis this book provides valuable insight into how Pentecostal and Charismatic churches have effectively engaged matters of civic concern in Zambia dating from colonial times

Vinculum Amoris David Williams,2004-05 Christianity is not just a set of moral commands It is not just belonging to a church It is not just remembering its founder of long ago It is all of these but far more it is a vital relationship with a living and loving God And it is the Holy Spirit third Person of the God head who makes this happen Vinculum amoris is Latin for bond of love which describes the essential activity of the Spirit Because the Spirit links us to God he saves us guides and empowers us He enlivens our worship such as in baptism and the Lord s Supper He stimulates our praying and gives gifts to deepen the quality of our lives and service to God Because he links us to God we are linked to each other in a deeper way Enriching yes And the more that we understand how the Spirit does it the deeper this enriching will be The author s prayer is that this book will do just that for God s people and for his Church

The African Poor John Iliffe,1987-12-25 This history of the poor of Sub Saharan Africa begins in the monasteries of thirteenth century Ethiopia and ends in the South African resettlement sites

of the 1980s Its thesis derived from histories of poverty in Europe is that most very poor Africans have been individuals incapacitated for labour bereft of support and unable to fend for themselves in a land rich economy There has emerged the distinct poverty of those excluded from access to productive resources Natural disaster brought widespread destitution but as a cause of mass mortality it was almost eliminated in the colonial era to return to those areas where drought has been compounded by administrative breakdown Professor Iliffe investigates what it was like to be poor how the poor sought to help themselves how their counterparts in other continents live The poor live as people rather than merely parading as statistics Famines have alerted the world to African poverty but the problem itself is ancient Its prevailing forms will not be understood until those of earlier periods are revealed and trends of change are identified This is a book for all concerned with the future of Africa as well as for students of poverty elsewhere An African Independent Church Leader Obed N. Kealotswe,1994 **The Griqua Conundrum** Linda Waldman,2007 This book offers a reconceptualisation of indigenous people and their political involvement It demonstrates the deep intertwining of constructions of indigenesness and identity with national social and political histories and argues that differences and fractures within the indigenous movement between leaders spokespeople and ordinary men and women shape the nature of indigenous politics both nationally and internationally South Africa s resident population of Griqua provide the context for this exploration of indigenous mobilisation politics and ethnic identity The Griqua people have long sought and only recently acquired official recognition within their country of birth Using qualitative research methodologies and an anthropological approach this book documents negotiation between Griqua leaders organisers and government officials and in so doing details a complex process of mediation and interaction generally overlooked in the discourse of indigenous identity This exploration of identity is essential to understanding post apartheid South African history politics and society In addressing the marginalisation of Griqua followers and examining the meaning of being Griqua for those quieter poorer people who live in the small town of Griquatown and who are relatively isolated from the Indigenous People s Forum and the United Nations the book also examines the hidden dimensions of political and indigenous mobilisation
