

Bascom Barry Hayes

Bismarck And Mitteleuropa

MATS ANDRÉN

Bismarck And Mitteleuropa:

Bismarck and Mitteleuropa Bascom Barry Hayes,1994 His labors were often fruitless His own master Wilhelm I and the Prussian bureaucrats diplomats and courtiers with direct access to this first of Bismarck's Wilhelmian nemeses could be at least as obstructionist in Berlin as Franz Joseph and his minions in Vienna In fact all too often Bismarck's lack of control over the Prussian elites was in part responsible for the resistance of the Habsburg ruling circle Mitteleuropa Henry Cord Meyer,2013-03-09 Books begin as ideas The suggestion for this one came from my mentor and friend Hajo Holborn of Yale University To him I am indebted for a series of challenging and rewarding experiences in the study of history This work started as a routine dissertation on a limited subject developed into a rejection of several generally accepted notions about German history and finally opened out upon some broader perspectives of the modern Western world In pursuing my topic I have tried to remain consistent and true to a fundamental conviction that ideas cannot be dissociated from the men and situations that give birth to them or from the changing characteristics of later men and later situations that use or affect the earlier ideological heritage Politics by slogan is an aspect of man's activity that has its obvious serious defects These imperfections become more menacing when they are enshrined as history by slogan in the service of whatever cause To counteract this tendency I have tried to tie the ideas of mid European integration clearly to specific persons or situations at every stage of development Without such anchorage ideas will billow into slogans or evaporate into loose generalizations

The Grand Strategy of the Habsburg Empire A. Wess Mitchell, 2018-06-26 The Habsburg Empire's grand strategy for outmaneuvering and outlasting stronger rivals in a complicated geopolitical world. The Empire of Habsburg Austria faced more enemies than any other European great power Flanked on four sides by rivals it possessed few of the advantages that explain successful empires. Its army was not renowned for offensive prowess its finances were often shaky and its populace was fragmented into more than a dozen ethnicities. Yet somehow Austria endured outlasting Ottoman sieges Frederick the Great and Napoleon The Grand Strategy of the Habsburg Empire tells the story of how this cash strapped polyglot empire survived for centuries in Europe's most dangerous neighborhood without succumbing to the pressures of multisided warfare. Taking readers from the War of the Spanish Succession in the early 1700s to the Austro Prussian War of 1866 A Wess. Mitchell argues that the Habsburgs succeeded not through offensive military power or great wealth but by developing strategies that manipulated the element of time in geopolitical competition. Unable to fight all their enemies at once the Habsburgs learned to use the limited tools at their disposal terrain technology and treaty allies to sequence and stagger their conflicts drive down the costs of empire and concentrate scarce resources against the greatest threat of the moment Rarely holding a grudge after war they played the long game in geopolitics corralling friend and foe alike into voluntarily managing the empire's lengthy frontiers and extending a benign hegemony across the turbulent lands of middle Europe A study in adaptive statecraft The Grand Strategy of the Habsburg Empire offers lessons on how to navigate a messy geopolitical map

stand firm without the advantage of military predominance and prevail against multiple rivals **Intentions in Great Power** <u>Politics</u> Sebastian Rosato, 2021-04-20 Why the future of great power politics is likely to resemble its dismal past Can great powers be confident that their peers have benign intentions States that trust each other can live at peace those that mistrust each other are doomed to compete for arms and allies and may even go to war Sebastian Rosato explains that states routinely lack the kind of information they need to be convinced that their rivals mean them no harm Even in cases that supposedly involved mutual trust Germany and Russia in the Bismarck era Britain and the United States during the great rapprochement France and Germany and Japan and the United States in the early interwar period and the Soviet Union and United States at the end of the Cold War the protagonists mistrusted each other and struggled for advantage Rosato argues that the ramifications of his argument for U S China relations are profound the future of great power politics is likely to Austria, Hungary, and the Habsburgs R. J. W. Evans, 2006-08-03 These essays by the leading resemble its dismal past historian of the Austro Hungarian empire explore the political and religious history of the Habsburg lands They also describe key aspects of the evolution towards modern statehood and national awareness in Central Europe over more than two centuries of cultural and social transition Studies of War Henk W. Houweling, Jan G. Siccama, Gerrit Faber, J.B. Kuné,2024-12-02 The First World War and German National Identity Jan Vermeiren, 2016-07-18 An innovative study of the impact of the wartime alliance between Imperial Germany and Austria Hungary on German national identity Traditionalist History of the Great War, Book II Alexander Wolfheze, 2021-01-27 This book analyzes the world of 1914 by combining the approaches of traditionalist hermeneutics and 20th century geopolitics. The juxtaposition of these two frameworks incorporated in the principles of Sacred Geography and Sea Power allows for a Traditionalist perspective on the choices facing the Ten Great Powers on the eve of the Great War The book's multifaceted approach follows the iconoclastic culture critique method of the Traditional School that was developed by Ren Gu non Frithjof Schuon and Julius Evola it shows the pre war world as essentially different from the post war world Thus the Ten Great Power protagonists of the Great War may be understood on their own terms rather than through a backward projection of politically correct values on the existentially different human life world of 1914 Dislodging the historical materialist progress premise that underpins contemporary academic historiography this book reasserts the highest claim of the Art of History meta narrative meaning

Mitteleuropa and German Politics J. Brechtefeld,1996-09-11 The revival of the region of east central Europe known as Mitteleuropa began in Hungary and Czechoslovakia For Germany Mitteleuropa became a renewed geopolitical concept Since 1990 Mitteleuropa has increasingly become a region of German economic engagement However German elites failed however to develop a coherent political approach to that region while simultaneously conducting an eclectic Mitteleuropa policy outside a broader framework of foreign policy This book traces Germany's Mitteleuropa politics and puts them into an historical context and into a framework for future foreign policy

The Quest for the Lost Nation Sebastian

Conrad, 2010-07-15 Highly praised when published in Germany The Ouest for the Lost Nation is a brilliant chronicle of Germany's and Japan's struggles to reclaim a defeated national past Sebastian Conrad compares the ways German and Japanese scholars revised national history after World War II in the shadows of fascism surrender and American occupation Defeat in 1945 marked the death of the national past in both countries yet as Conrad proves historians did not abandon national perspectives during reconstruction Quite the opposite the nation remained hidden at the center of texts as scholars tried to make sense of the past and searched for fragments of the nation they had lost By situating both countries in the Cold War Conrad shows that the focus on the nation can be understood only within a transnational context **Central Europe** Otilia Dhand, 2019-10-31 Central Europe is one of the key notions of classical geopolitics yet it has always been a somewhat elusive concept Originally perceived as a plan for a German dominated political and economic union it subsequently emerged to threaten leaders in the East and West in a variety of forms Otilia Dhand provides a critical examination of the concept of Central Europe from its early inception to the present day Making extensive use of archival material she shows how successive manifestations of Central Europe of whatever vintage have failed to bring about their intended changes on the international structure and how customary claims about Central Europe are not supported by the original source material The result is a work of outstanding scholarship that advances our understanding of regionalism and The Routledge History of East Central Europe Since 1700 Irina Livezeanu, Arpad von geopolitics in Europe Klimo, 2017-03-16 Covers territory from Russia in the east to Germany and Austria in the west exploring the origins and evolution of modernity in this region Provided by the publisher *German Colonialism in a Global Age* Bradley Naranch, Geoff Eley, 2015-02-20 This collection provides a comprehensive treatment of the German colonial empire and its significance Leading scholars show not only how the colonies influenced metropolitan life and the character of German politics during the Bismarckian and Wilhelmine eras 1871 1918 but also how colonial mentalities and practices shaped later histories during the Nazi era In introductory essays editors Geoff Eley and Bradley Naranch survey the historiography and broad developments in the imperial imaginary of the nineteenth and twentieth centuries Contributors then examine a range of topics from science and the colonial state to the disciplinary constructions of Africans as colonial subjects for German administrative control They consider the influence of imperialism on German society and culture via the mass marketing of imperial imagery conceptions of racial superiority in German pedagogy and the influence of colonialism on German anti Semitism The collection concludes with several essays that address geopolitics and the broader impact of the German imperial experience Contributors Dirk B nker Jeff Bowersox David Ciarlo Sebastian Conrad Christian S Davis Geoff Eley Jennifer Jenkins Birthe Kundus Klaus M hlhahn Bradley Naranch Deborah Neill Heike Schmidt J P Short George Steinmetz Dennis Sweeney Brett M Van Hoesen Andrew Zimmerman In the Twilight of Empire. Count Alois Lexa von Aehrenthal (1854-1912) Solomon Wank, 2020-02-17 Count Alois Lexa von Aehrenthal 1854 1912 was the most important Austro

Hungarian diplomat in the period before the First World War Volume Two of Solomon Wank's brilliant biography covers Aehrenthal's years as foreign minister from 1906 until his death in 1912 This includes the dramatic events of the Bosnian annexation crisis in 1908 09 when Aehrenthal brought Europe to the brink of war until he retreated from the precipice once he recognized the abyss Thinking Europe MATS ANDRÉN, 2022-10-14 List of figures and tables Acknowledgements Preface Introduction Part I Unity and Borders 1800 1914 Chapter 1 Dreaming of unity Chapter 2 Longing for borders Chapter 3 Looking for common ground Chapter 4 Performing communality Part II Crisis and Decline 1914 1945 Chapter 5 Passage to a new Europe the First World War Chapter 6 Fearing crisis Chapter 7 Organising for Europe Part III Integration and identity 1945 Chapter 8 Claiming European unity and a Europe of nations Chapter 9 Elevating European awareness Conclusion Bibliography Index Canadian Review of Studies in Nationalism ,1996 Bismarck and His Times George O. Kent, 1978 A new account of the life and policies of the first German chancellor Otto von Bismarck this concise historical biography reflects for the first time in English the historical shift in emphasis from the traditional political economic approach to the more complex social economic one of post World War II scholarship Since the middle of the 1950s much new material on Bismarck and nine teenth century Germany and new interpretations of existing material have been published in Germany Great Britain and the United States Pro fessor George O Kent's brilliant syn thesis drawing on this mass of mate rial examines changes in emphasis in post World War II scholarship The book particularly in the historiograph ical notes and bibliographical essay provides the serious student with an invaluable guide to the intricacies of recent Bismarckian scholarship For the general reader the main text presents a picture of the man the issues and the age in the light of modern scholarship The major shift in historical emphasis described in this new account is the importance scholars give to the period 1877 79 the years of change from free trade to protectionism rather than to 1870 71 the founding of the Reich Bismarck s political machinations par ticularly his willingness to explore the possibilities of a coup d tat are more fully discussed here than in any other book The Habsburg Legacy Ritchie Robertson, Edward Timms, 1994 With the collapse of Communism in Eastern Europe and the break up of the Soviet Union nationalism and its effects are once more at the forefront of attention However to understand more fully what is happening now it is valuable to look back into the past and examine the construction and collapse of the multi national Habsburg Empire After examining how the Holy Roman Empire became the Austrian Empire at the beginning of the nineteenth century this collection of essays charts the subsequent growth of distinctive regional identities in Hungary Galicia Trieste and Croatia before looking at the official attempts to define ethnic identity and what harm resulted from their good intentions Differing constructions of Austrian identity among Jewish novelists women writers and art historians besides the literary works of Hofmannsthal and Musil are then analysed as are the attempts to devise a new Austrian identity under the semi fascist rule of the 1930s and the early years of the post war Second Republic Concluding with a general analysis contrasting the gradual integration of nations in present day western Europe

with the dissolution of multi national states in the east Austrian Studies 5 is both a challenging reappraisal of a fallen Empire and a timely reflection of an on going question Book Jacket The Bismarck Myth Robert Gerwarth, 2005-07-14 Few statesmen in history have inspired the imagination of generations of Germans more than the founder of the Kaiserreich Otto von Bismarck The archetype of charismatic leadership the Iron Chancellor maintained his pre eminent position in the pantheon of Germany's political iconography for much of the twentieth century Based on a large selection of primary sources this book provides an insightful analysis of the Bismarck myth s profound impact on Germany s political culture In particular it investigates the ways in which that myth was used to undermine parliamentary democracy in Germany after the Great War paving the way for its replacement by authoritarian rule under an allegedly Bismarckian charismatic leader Adolf Hitler As one of the most powerful weapons of nationalist agitation against the Weimar Republic the Bismarck myth was never contested The nationalists ideologically charged interpretation of Bismarck as the father of the German nation state and model for future political decision making clashed with rivalling and thoroughly critical democratic and communist perceptions of the Iron Chancellor The quarrel over Bismarck's legacy demonstrates how the clash of ideologies particularly between 1918and 1933 resulted in a highly political fight for the correct and universal interpretation of the German past Essential reading for anyone interested in modern German history this book sheds new light on the Weimar Republic s struggle for survival and the reasons for its failure Choice ,1995

Ignite the flame of optimism with Crafted by is motivational masterpiece, **Bismarck And Mitteleuropa**. In a downloadable PDF format (PDF Size: *), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.
