Bitburg In Moral And Political Perspective:

Bitburg in Moral and Political Perspective Geoffrey H. Hartman, 1986 Examines the moral and political controversy surrounding President Reagan's intention to visit a cemetery in Bitburg Germany in 1985 during a visit commemorating the fortieth anniversary of the end of World War II and the opening of the concentration camps The discovery that the cemetery also contained a small group of graves of SS officers prompted protests by Jews and American veterans The Holocaust and History United States Holocaust Memorial Museum, 2002-07-02 The Holocaust and History examines the various disputes surrounding the Holocaust examining why it should have come about how different sets of people reacted to it and what lessons should be learned for the future **Holocaust** Deborah E. Lipstadt, 2016-07-21 Immediately after World War II there was little discussion of the Holocaust but today the word has grown into a potent political and moral symbol recognized by all In *Holocaust An American Understanding* renowned historian Deborah E Lipstadt explores this striking evolution in Holocaust consciousness revealing how a broad array of Americans from students in middle schools to presidents of the United States tried to make sense of this inexplicable disaster and how they came to use the Holocaust as a lens to interpret their own history Lipstadt weaves a powerful narrative that touches on events as varied as the civil rights movement Vietnam Stonewall and the women's movement as well as controversies over Bitburg the Rwandan genocide and the bombing of Kosovo Drawing upon extensive research on politics popular culture student protests religious debates and various strains of Zionist ideologies Lipstadt traces how the Holocaust became integral to the fabric of American life Even popular culture including such films as *Dr Strangelove* and such books as John Hershey's *The Wall* was influenced by and in turn influenced thinking about the Holocaust Equally important the book shows how Americans used the Holocaust to make sense of what was happening in the United States Many Americans saw the civil rights movement in light of Nazi oppression for example while others feared that American soldiers in Vietnam were destroying a people identified by the government as the enemy Lipstadt demonstrates that the Holocaust became not just a tragedy to be understood but also a tool for interpreting America and its place in the world Ultimately *Holocaust An American Understanding* tells us as much about America in the years since the end of World War II as it does about the Holocaust itself *Light Motives* Randall Halle, Margaret McCarthy, 2003 *Light Motives* undertakes a long overdue critical reassessment of German popular cinema challenging the traditional view of German film history and offering new ways to think about popular cinema in general The Politics of the Nazi Past in Germany and Austria David Art, 2005-12-19 This book argues that Germans and Austrians have dealt with the Nazi past very differently and these differences have had important consequences for political culture and partisan politics in the two countries Drawing on different literatures in political science Art builds a framework for understanding how public deliberation transforms the political environment in which it occurs The book analyzes how public debates about the lessons of history created a culture of contrition in Germany that prevented a resurgent far right from consolidating itself in German

politics after unification By contrast public debates in Austria nourished a culture of victimization that provided a hospitable environment for the rise of right wing populism The argument is supported by evidence from nearly two hundred semi structured interviews and an analysis of the German and Austrian print media over a twenty year period A Guilted Age Ashraf A. H. Rushdy,2015-10 Public apologies have become increasingly common scenes and representative moments in what appears to be a global process of forgiveness The apology forgiveness dynamic is familiar to all of us but what do these rituals of atonement mean when they are applied to political and historical events In his timely topical and incisive book A Guilted Age Ashraf Rushdy argues that the proliferation of apologies by politicians nations and churches for past events such as American slavery or the Holocaust can be understood as a historical phenomenon In our post World War II world Rushdy claims that we live in a guilted age A Guilted Age identifies the two major forms of apologies political and historical and Rushdy defines the dynamics and strategies of each showing how the evolution of one led to the other In doing so he reveals what apology and forgiveness do to the past events they respectively apologize for and forgive and what happens when they fail Forgiveness Charles L. Griswold,2007 This is a comprehensive text on forgiveness in both its interpersonal and political contexts as well as its relation to reconciliation Holocaust Angst Jacob S. Eder,2016 Focusing on the German effort to rehabilitate its international reputation in the wake of the Holocaust this study examines German American relations from the 1970s through 1990 The Holocaust: Events, Motives and Legacy Martyn Housden,2016-10-11 The Holocaust has proved a defining event in German European and even world history It has left moral legal and political legacies which shape the global community we live in today This text is designed to introduce readers to the most important debates about the event It discusses the origins and course of the Holocaust as well as the motives of its perpetrators and the reactions of bystanders and victims alike In the process the study makes clear why history is not just about the past Martyn Housden is Reader in History at the University of Bradford His books include Hans Frank Lebensraum and the Holocaust Palgrave 2003 Hitler Study of a Revolutionary Routledge 2000 and Resistance and Conformity in the Third Reich Routledge 1997 He has written and lectured widely for student audiences An excellent introduction to the topic geared to senior pupils and undergraduates but also of value to the general reader History Teaching Review The Jewish Holocaust Marty Bloomberg,Buckley Barry Barrett,1995-01-01 This expanded edition of the guide to major books in English on the Holocaust is organized into ten subject areas reference materials European antisemitism background materials the Holocaust years Jewish resistance **Probing the Limits of Representation** Saul Friedländer,1992 German memory judicial interrogation and historical reconstruction writing perpetrator history from postwar testimony Christopher R Browning Historical Emplotment and the Problem of Truth Hayden White On Emplotment two kinds of ruin Perry Anderson History Counterhistory and Narrative Amos Funkenstein Just One Witness Carlo Ginzburg Of Plots Witnesses and Judgments Martin Jay Representing the Holocaust reflections on the historians debate Dominick LaCapra Historical Understanding and Counterhistoricality the

The Art of Being Jewish in Modern Times Barbara Kirshenblatt-Gimblett, Jonathan Karp, 2013-02-11 The wide ranging portrayal of modern Jewishness in artistic terms invites scrutiny into the relationship between creativity and the formation of Jewish identity and into the complex issue of what makes a work of art uniquely Jewish Whether it is the provenance of the artist as in the case of popular Israeli singer Zehava Ben the intention of the iconography as in Ben Shahn's antifascist paintings or the utopian ideals of the Jewish Palestine Pavilion at the 1939 New York World's Fair clearly no single formula for defining Jewish art in the diaspora will suffice *The Art of Being Jewish in Modern Times* is the first work to analyze modern Jewry's engagement with the arts as a whole including music theater dance film museums architecture painting sculpture and more Working with a broad conception of what counts as art the book asks the following questions What roles have commerce and politics played in shaping Jewish artistic agendas Who determines the Jewishness of art and for what purposes What role has aesthetics played in reshaping religious traditions and rituals This richly illustrated volume illuminates how the arts have helped Jews confront the various challenges of modernity including cultural adaptation and self preservation economic diversification and ritual transformation There truly is an art to being Jewish in the modern world or alternatively an art to being modern in the Jewish world and this collection fully captures its range diversity and historical significance

Scandal and Aftereffect Steven Ungar, 1995 *Scandal and Aftereffect* will make a crucial contribution to discussions about the function of memory in the relationship of history to cultural production and about the history of history itself

Memory, History, Nation Susannah Radstone, 2017-09-04 In the last decade a focus on memory in the human sciences has encouraged new approaches to the study of the past As the humanities and social sciences have put into question their own claims to objectivity authority and universality memory has appeared to offer a way of engaging with knowledge of the past as inevitably partial subjective and local At the same time memory and memorial practices have become sites of contestation and the politics of memory are increasingly prominent This interdisciplinary volume demonstrates from a range of perspectives the complex cultural work and struggles over meaning that lie at the heart of

what we call memory The chapters in this volume offer a complex awareness of the workings of memory and the ways in which different or changing histories may be explained They explore the relation between individual and social memory between real and imaginary event and fantasy history and myth Contradictory accounts or memories in direct contradiction to the historical record are not always the sign of a repressive authority attempting to cover something up The tension between memory as a safeguard against attempts to silence dissenting voices and memory's own implication in that silencing runs throughout the book Topics covered range from the Basque country to Cambodia from Hungary to South Africa from the Finnish Civil War to the cult Jim Jarmusch movie Dead Man from the Rock and Roll Hall of Fame to Australia Part I Transforming Memory is concerned primarily with the social and personal transmission of memory across time and generations Part II Remembering Suffering Trauma and History brings the after effects of catastrophe to the fore Part III Patterning the National Past the relation between nation and memory is the central issue Part IV And Then Silence reflects on the complex and multiple meaning of silence and oblivion wherein amnesia is often used as a figure for the denial of shamefu

Psychoanalysis, Historiography, and Feminist Theory Katherine Kearns,1997-10-16 In this book Katherine Kearns explores the relationship of history to narrative She combines psychoanalysis with recent feminist theory to reveal the hidden assumptions behind the construction of any historical narrative Her alternative approach one she labels psychohistoriography rejects the notion that certain historical categories are inalienably given By introducing insights derived from psychoanalysis and critical theory Kearns expands our conception of what can legitimately count as historical evidence

Geoffrey Hartman G. Douglas Atkins,2006-06-01 The critic explicitly acknowledges his dependence on prior words that make his word a kind of answer He calls to other texts that they might answer him Geoffrey Hartman is the first book devoted to an exploration of the intellectual poetry of the critic who whether or not he represents the future of the profession is a unique and major voice in twentieth century criticism Professor Atkins explains clearly Hartman's key ideas and places his work in the contexts of Romanticism and Judaism on which he has written extensively In Geoffrey Hartman he provides a valuable introduction to a major critical voice who has called into question our assumptions about the distinction between commentary and imaginative literature
