Ideologies and Technologies of Motherhood Helena Ragoné, France Winddance Twine, 2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company **Breaking the Abortion Deadlock** Eileen McDonagh, 1996-10-24 For over twenty years the abortion debate has raged with each side entrenched in unyielding positions This book breaks the impasse by using pro life premises to reach pro choice conclusions While it is commonly assumed that state protection of the fetus as a form of human life undermines women s reproductive rights McDonagh instead illuminates how it is exactly such state protection of the fetus that strengthens rather than weakens not only women s right to an abortion but even more significantly women s ability to call on the state for abortion funding McDonagh s approach by bridging the divide between pro life and pro choice advocates revolutionizes the abortion debate in a way that opens up a whole new avenue for resolving the abortion conflict and advancing women s rights McDonagh reframes the abortion debate by locating the missing piece of the puzzle the fetus as the cause of pregnancy After exposing the myths on this subject her exacting analysis presents the scientific and legal evidence that the ultimate source of pregnancy is the fetus The central issue then becomes what the fetus as an active agent does to a woman s body during pregnancy whether that pregnancy is wanted or not McDonagh graphically describes the massive changes produced by the fetus when it takes over a woman s body As such pregnancy is best depicted not as a condition that women have a right to choose but rather as a condition to which they must have a right to consent Abortion therefore does not rest on the intensely debated principle stated in Roe that women have a right to be free from state interference when choosing privately what to do with their own bodies Instead as McDonagh s book explains abortion rights flow inevitably from women s more established right to consent to what another agent does to their body Specifically women have a right to resist an unwanted intrusion by a fetus as well as to receive help from the state to stop such an intrusion Moving abortion rights from choice to consent has broad legal and cultural ramifications tapping into the very cornerstone of the American political system consent McDonagh unravels the consequences of extending to pregnant women the same guarantees of bodily integrity and liberty possessed by others in our society Specifically she shows why a woman who does not consent to be made pregnant by a fetus not only has a right to terminate pregnancy but why the state violates constitutional due process and equal protection guarantees when it fails to provide her with the same protections against nonconsensual intrusions by a fetus as it provides against nonconsensual intrusions by other parties This book pivotally strengthens therefore not only women s right to abortion but also abortion funding By providing new grounds both for the public funding of abortion and for the removal of government restrictions on

abortions it lays the foundation for enhancing women's rights through major policy changes in legislatures and courts

Life Choices Linda Weber, 2011-10-16 *Life Choices* is a bold exploration of the spiritual essence of abortion the historical context for it and how it leads us to live with more awareness Abortion has lessons to teach everyone about making conscious choices in our lives and opens the way to a greater connection with love death power and all life The essentially pro life nature of abortion asks us to accept death as part of the flow of life The failure to understand this contributes to the ferocious abortion wars

Blue-Ribbon Babies and Labors of Love Christine Ward Gailey, 2010-02-01 Most Americans assume that shared genes or blood relationships provide the strongest basis for family What can adoption tell us about this widespread belief and American kinship in general *Blue Ribbon Babies and Labors of Love* examines the ways class gender and race shape public and private adoption in the United States Christine Ward Gailey analyzes the controversies surrounding international public and transracial adoption and how the political and economic dynamics that shape adoption policies and practices affect the lives of people in the adoption nexus adopters adoptees birth parents and agents within and across borders Interviews with white and African American adopters adoption social workers and adoption lawyers combined with her long term participant observation in adoptive communities inform her analysis of how adopters beliefs parallel or diverge from the dominant assumptions about kinship and family Gailey demonstrates that the ways adoptive parents speak about their children vary across hierarchies of race class and gender She shows that adopters notions about their children's backgrounds and early experiences as well as their own family values influence child rearing practices Her extensive interviews with 131 adopters reveal profoundly different practices of kinship in the United States today Moving beyond the ideology of blood is thicker than water Gailey presents a new way of viewing kinship and family formation suitable to times of rapid social and cultural change

Strangers and Kin Barbara MELOSH, Barbara Melosh, 2009-06-30 *Strangers and Kin* is the history of adoption An adoptive mother herself Barbara Melosh tells the story of how married couples without children sought to care for and nurture other people's children as their own Taking this history into the early twenty first century Melosh offers unflinching insight to the contemporary debates that swirl around adoption the challenges to adoption secrecy the ethics and geopolitics of international adoption and the conflicts over transracial adoption

Women's Studies Index, 1992 **Abortion & Common Sense** Ruth Dixon-Mueller, Paul K. B. Dagg, 2002 ABORTION COMMON SENSE cuts through the rhetoric and misinformation surrounding the abortion debate to look at the facts Four of every ten women in the United States will have at least one abortion in their lifetimes Worldwide 46 million women terminate their pregnancies every year some safely some dangerously Demonstrating that placing arbitrary restrictions on girls and women's access to safe early abortion is illogical unworkable and unfair the authors urge that the humane treatment of problem pregnancies be integrated into health and family planning programs as a routine element of good medical care and of an equitable and rational social policy Sampling of reviews a near perfect primer on reproductive health and policy issues accessible to the lay
