Mohammad H. Tamdgidi, 2024-10-25 Omar Khayyam's Secret Hermeneutics of the Robaiyat in Quantum Sociological Imagination by Mohammad H Tamdgidi is a 12 book series of which this book is the 9th volume subtitled Khayyami Robaiyat Part 2 of 3 Quatrains 339 685 Songs of Hope Addressing the Question What Is Happiness Explained with New English Verse Translations and Organized Logically Following Omar Khayyam's Own Three Phased Method of Inquiry Each book independently readable can be best understood as a part of the whole series In Book 9 Tamdgidi offers the second of a three part set of 1000 quatrains he has chosen to include in this series from a wider set that have been over the centuries attributed to Khayyam Part 2 includes quatrains 339 685 for each of which the Persian original along with Tamdgidi's new English verse translation and a transliteration for the same are shared Each quatrain is indexed according to

the frequency of its inclusion in manuscripts the earliest known date of its appearance in them the extent to which it has wandered into other poets works and its rhyming scheme Brief comments about the meaning of each quatrain in relation to other quatrains and works attributed to Khayyam are then offered along with any notes regarding its new translation as shared Tamdgidi shows that the quatrains 339 685 address the question What Is Happiness The latter is the second of a set of three methodically phased questions Khayyam has identified in his philosophical works as being required for investigating any subject The order in which the quatrains are presented shows that the quatrains included in Part 2 follow a logically deductive reasoning process through which Khayyam advances in the causal chain of moving from methodological to explanatory and practical quatrains by way of addressing the question noted above The thematic topics of the quatrains of Part 2 as shared in Book 9 are X The Drunken Way XI Willfulness XII Foes and Friends XIII Wealth XIV Today XV Pottery XVI Cemetery and XVII Paradise and Hell Khayyam begins with reflections on God s created world suggesting that its unitary existence cannot be understood using either or dualistic lenses where the ways of knowing by the head the heart and senses are pursued separately Instead he advocates building on the idea of the Wine trope discovered in Part 1 a Drunken way by which he means a unitary way of knowing symbolized by the spiritual indivisibility of Wine in contrast to the fragmentations of the grapes He then embarks on a deductive method of emphasizing human willfulness also created by God offering humankind a chance for playing a creative role in shaping its own world Khayyam then continues to apply such an explanatory model in dealing with social matters having to do with foes friends and wealth leading him to advocate for the practical significance of stealing the chances offered in the here and now of today to transform self and society in favor of happier and more just outcomes Using the tropes of visiting the jug maker s shop and the cemetery he then emphasizes the need to maintain a wakeful awareness of the inevitability of one s physical death in order to use the opportunity of life to cultivate universal self awareness before it is too late that paradise and hell and judgment days are not otherworldly but realities of our here and now living He thus transcends the sentiment of a promised future hope by advising us to create a happy life in the cash of the here and now his own poetry itself being a means toward that end Part 2 must then be understood in consideration of the other two parts of his book of poetry one already shared in Book 8 addressing the questions Does Happiness Exist and the next to follow in Book 10 addressing the question Why Does or Can Happiness Exist

Omar Khayyam's Secret: Hermeneutics of the Robaiyat in Quantum Sociological Imagination: Book 10: Khayyami Robaiyat: Part 3 of 3: Quatrains 686-1000: Songs of Joy Addressing the Question "Why Can Happiness Exist?" Mohammad H. Tamdgidi, 2024-10-25 Omar Khayyam s Secret Hermeneutics of the Robaiyat in Quantum Sociological Imagination by Mohammad H Tamdgidi is a 12 book series of which this book is the 10th volume subtitled Khayyami Robaiyat Part 3 of 3 Quatrains 686 1000 Songs of Joy Addressing the Question Why Can Happiness Exist Explained with New English Verse Translations and Organized Logically Following Omar Khayyam s Own Three Phased Method of Inquiry Each book

independently readable can be best understood as a part of the whole series In Book 10 Tamdgidi offers the third of a three part set of 1000 quatrains he has chosen to include in this series from a wider set that have been over the centuries attributed to Khayyam Part 3 includes quatrains 686 1000 for each of which the Persian original along with Tamdgidi's new English verse translation and a transliteration for the same are shared Each quatrain is indexed according to the frequency of its inclusion in manuscripts the earliest known date of its appearance in them the extent to which it has wandered into other poets works and its rhyming scheme Brief comments about the meaning of each quatrain in relation to other quatrains and works attributed to Khayyam are then offered along with any notes regarding its new translation as shared Tamdgidi shows that the quatrains 686 1000 address the question Why Does or Can Happiness Exist The question is the third of a set of three methodically phased questions Khayyam has identified in his philosophical works as being required for investigating any subject The order in which the quatrains are presented shows that the quatrains included in Part 3 continue the logically deductive reasoning process started in Part 2 but serve as practical examples of how humankind can turn the activity of poetry writing itself as a source of joy in life when confronting the topics of death survival and spiritual fulfillment The thematic topics of the quatrains of Part 3 as shared in Book 10 are XVIII Garden XIX Wine XX Love XXI Night XXII Death and Survival XXIII Liberation and XXIV Return Khayyam's overall sentiment in pursuing the inquiry in the third part of his book of poetry is expressive of joy He begins by showing using the example of his own poetry how strolling in a garden offers opportunities to enjoy it even when writing about the transient nature of the roses and greens He then offers in the longest section of his book a set of quatrains in praise of Wine disguising therein a praise of the joy of writing his own poetry Wine's metaphorical double meanings offering chances in the here and now of stealing joyfulness even when mistreated by his foes and amid feelings of helplessness in confronting physical death He then turns to the topic of spiritual Love signifying the role the sentiment of Love in search of the Source of creation plays in the evolutionary process of the succession order of the created existence as discussed in his writings He continues to the topic of death and the possibility of lasting spiritual survival and existence by practically encouraging the Drinkers of the Wine of his poetry itself to help bring about that end He ends the Wine of his poetry by expressing how it has helped free himself from the prior in Part 1 doubtfully expressed inevitability of physical death in favor of not just hopefulness in Part 2 but the certainty of having initiated a lasting spiritual existence by way of the bittersweet Wine of his poetry itself celebrating a return to the spiritual Source of all existence as woven into the 1000 threaded wick of the candle of his Love for God We should therefore judge each step of the third part of Khayyam's poetic inquiry in consideration of the two other parts of his book of poetry those already shared in Books 8 and 9 addressing the questions Does Happiness Exist and What Is Happiness

REVIEWS a masterpiece in Omar Khayyam studies Jafar Aghayani Chavoshi Ph D University of Paris 1997 Professor of Philosophy of Science at Sharif University of Technology Tehran Iran specializing in Philosophy Epistemology and History of Mathematics and Science and in Omar Khayyam Studies From his Foreword to the last book of the Omar Khayyam s Secret series Tamdgidi having taken his readers through the first eleven books of his Omar Khayyam s Secret series in book twelve consistent with good teaching offers an overview of what had already been covered by the series as he does in each of its successive books He does more He discusses the scientific

requirements for the study of Khayyam's biography and then he proceeds to depict the new findings of the series that make possible a textually and historically more reliable biography for Khayyam. Both with distinction he has achieved. The series is a most admirable example of teaching at its best. Tamdgidi is but an expert guide in a journey of joint learning and teaching nowhere except in the concluding book including his notes on the biography of Omar Khayyam is it conclusory. He patiently anticipates and works with the reader to grapple with issues so there are common discoveries. At times he and his readers are detectives with moments of sudden insights, realizations and inspiration. Indeed for this reader who was exposed at an early age to Khayyam through the work of Edward FitzGerald encountering this series was like the astronauts who experienced seeing the Earth for the first time from outer space. It was nothing I could have imagined from prior experience. Every college library should at least secure a copy of the last synoptic volume of the series and every research library should have the entire series as one of its prized acquisitions and holdings. The claim or assertion respecting the likely longevity of the series and its importance to libraries and by implication scholars is not made lightly and it is in no way an exaggeration. A study of its methodology, its findings, the significance of those findings for the universe of learning, of the skills, dedication and sacrifices the author brought to bear on the work and of the approach observed to help readers grapple with and understand what is being disclosed attests a rich body of corroborating testimony to the assertion.

Omar Khayyam's Secret: Hermeneutics of the Robaiyat in Quantum Sociological Imagination: Book 7:

Khayyami Art Mohammad H. Tamdgidi, 2024-03-01 Omar Khayyam's Secret Hermeneutics of the Robaiyat in Quantum Sociological Imagination by Mohammad H Tamdgidi is a twelve book series of which this book is the seventh volume subtitled Khayyami Art The Art of Poetic Secrecy for a Lasting Existence Tracing the Robaiyat in Nowrooznameh Isfahan's North Dome and Other Poems of Omar Khayyam and Solving the Riddle of His Robaiyat Attributability Each book independently readable can be best understood as a part of the whole series In Book 7 Tamdgidi shares his updated edition of Khayyam's Persian book Nowrooznameh The Book on Nowrooz and for the first time his new English translation of it followed by his analysis of its text He then visits recent findings about the possible contribution of Khayyam to the design of Isfahan's North Dome Next he shares the texts and his new Persian where needed and English translations and analyses of Khayyam's other Arabic and Persian poems Finally he studies the debates about the attributability of the Robaiyat to Omar Khayyam Tamdgidi verifiably shows that Nowrooznameh is a book written by Khayyam arguing that its unreasonable and unjustifiable neglect has prevented Khayyami studies from answering important questions about Khayyam's life works and his times Nowrooznameh is primarily a work in literary art rather than in science tasked not with reporting on past truths but

with creating new truths in the spirit of Khayyam's conceptualist view of reality Iran in fact owes the continuity of its ancient calendar month names to the way Khayyam artfully recast their meanings in the book in order to prevent their being dismissed given their Zoroastrian roots during the Islamic solar calendar reform underway under his invited direction The book also sheds light on the mysterious function of Isfahan's North Dome as a space revealing it as having been to serve as part of an observatory complex for the annual Nowrooz celebrations and leap year declarations of the new calendar The North Dome to whose design Khayyam verifiably contributed and in fact bears symbols of his unitary view of a world created for happiness by God marks where the world's most accurate solar calendar of the time was calculated It deserves to be named after Omar Khayyam not Taj ol Molk and declared as a cultural world heritage site Nowrooznameh is also a pioneer in the prince guidance books genre that anticipated the likes of Machiavelli's *The Prince* by centuries the difference being that Khayyam's purpose was to inculcate his Iranian and Islamic love for justice and the pursuit of happiness in the young successors of Soltan Malekshah Iran is famed for its ways of converting its invaders into its own culture and Nowrooznameh offers a textbook example for how it was done by Khayyam Most significantly however Nowrooznameh offers by way of its intricately multilayered meanings the mediating link between Khayyam's philosophical theological and scientific works and his Robaiyat showing through metaphorical clues of his beautiful prose how his poetry collection could bring lasting spiritual existence to its poet posthumously Khayyam's other Arabic and Persian poems also provide significant clues about the origins the nature and the purpose of the Robaiyat as his lifelong project and magnum opus Tamdgidi argues that the thesis of Khayyam's Robaiyat as a secretive artwork of quatrains organized in an intended reasoning order as a book of life serving to bring about his lasting spiritual existence can solve the manifold puzzles contributing to the riddle of his Robaiyat attributability He posits and in the forthcoming volumes of this series will demonstrate that the lost quatrains comprising the original collection of Robaiyat have become extant over the centuries such that we can now reconstruct by way of solving their 1000 piece jigsaw puzzle the collection as it was meant to be read as an ode of interrelated quatrains by Omar Khayyam

Omar Khayyam's Secret: Hermeneutics of the Robaiyat in Quantum Sociological Imagination: Book 8: Khayyami Robaiyat: Part 1 of 3: Quatrains 1-338: Songs of Doubt Addressing the Question "Does Happiness Exist?" Mohammad H. Tamdgidi, 2024-10-25 Omar Khayyam's Secret Hermeneutics of the Robaiyat in Quantum Sociological Imagination by Mohammad H Tamdgidi is a 12 book series of which this book is the 8th volume subtitled Khayyami Robaiyat Part 1 of 3 Quatrains 1 338 Songs of Doubt Addressing the Question Does Happiness Exist Explained with New English Verse Translations and Organized Logically Following Omar Khayyam's Own Three Phased Method of Inquiry Each book independently readable can be best understood as a part of the whole series In Book 8 Tamdgidi offers the first of a 3 part set of 1000 quatrains he has chosen to include in this series from a wider set that have been over the centuries attributed to Khayyam Part 1 includes quatrains 1 338 for each of which the Persian original along with Tamdgidi's new English verse translation and a transliteration for the same are shared Each quatrain is indexed according to the frequency of its inclusion in manuscripts the earliest known date of its appearance in them the extent to which it has wandered into other poets works and its rhyming scheme Brief comments about the meaning of each quatrain in relation to other quatrains and works attributed to Khayyam are then offered along with any notes regarding its new translation as shared Tamdgidi shows that the quatrains 1 338 in the beginning 30 of which Khayyam offers an opening to his book of poetry as a secretive work of art address the question Does Happiness Exist The latter question is the first of a set of three methodically phased questions Khayyam has identified in his philosophical works as being required for investigating any subject The order in which the quatrains are presented shows that the quatrains included in Part 1 follow a logically inductive reasoning process through which Khayyam delves from the surface portraits of unhappiness to their deeper chain of causes in order to answer his question The thematic topics of the quatrains of Part 1 as shared in Book 8 are I Secret Book of Life II Alas III Times IV Spheres V Chance and Fate VI Puzzle VII O God VIII Tavern Voice and IX O Wine Tender After the opening quatrains where Khayyam explains why he was composing a secretive book of poetry and what it aims to do his inquiry starts with doubtful existential self reflections on his life leading him to first blame his times then the spheres then matters of chance and fate soon realizing that he really does not have an explanation for the enigmas of existence concluding that the answer only lies with God So he appeals to God directly for an answer It is then that

he hears the voice of the Saqi or Wine Tender from his inner tavern to whom he replies in a series of quatrains closing Part 1. It is in the course of the inquiry in Part 1 that the idea of using Wine as a poetic trope is discovered by him, a matter that is separate from his interest in drinking wine which he never denies but is secondary to the spiritual Wine discovered and advanced in his book of poetry that in fact represents his poetry the Robaiyat itself and its promise in answering his questions. The logical order of Khayyam's inquiry shows how seemingly contradictory views that have been attributed to him can in fact be explained as logical moments in the successively deeper inquiries he makes inductively when addressing the question whether happiness exists in the created world. We should therefore judge each quatrain as a logical moment in Part 1's inquiry as a whole in anticipation of the two remaining parts of his book of poetry to be shared in Books 9 and 10 of the series respectively addressing the two follow-up questions: What Is Happiness and Why Does or Can Happiness Exist. A Teacher and a Poet Cy Blanca, 2017-03-15. Shawnee County, Kansas might not be the most accepting place for a gay couple, but boyfriends Antony James and Curtis Ramirez have made it their home. Both of them work at Pauline Central Primary School and while Antony is content teaching, Curt would rather pursue his passion, poetry. He plans to resign, but he doesn't get the chance. Working together has its risks, and when a student witnesses Antony and Curt sneaking a kiss in the workroom, they're reprimanded. The school board's punishment is mild, but some members of the community aren't willing to let the indiscretion go. That small mistake could cost Antony and Curt their home, or it could remind them that home is in the heart, and as long as they stay strong in their love, they'll always have a place to belong. *States of Love: Stories of romance that span every corner of the United States* Plentiful Mike Taylor, 2010-04.
