Paying for Politics Anthony Butler, 2010 Includes bibliographical references and index **Tajikistan Export-Import and Business Directory Volume 1 Strategic Information and Contacts** IBP, Inc., 2018-04-12 2011 Updated Reprint Updated Annually Tajikistan Export Import Trade and Business Directory **Tajikistan Business Law Handbook Volume 1 Strategic Information and Basic Laws** IBP USA, 2012-01-01 Tajikistan Business Law Handbook Strategic Information and Basic Laws **The State and Big Business in Russia** Tina Jennings, 2021-12-28 This book presents a study of the complex relationship between the Russian state and big business during Vladimir Putin's first two presidential terms 2000-2008 Based on extensive original research it focuses on the interaction of Russia's political executive with the oligarchs It shows how Putin's crackdown on this elite group led big business to accept new rules of the game and how this was accompanied by the involvement of big business in policy formulation particularly through the organisational vehicle of the Russian Union of Industrialists and Entrepreneurs RSPP It goes on to discuss why Yukos and its CEO Mikhail Khodorkovsky were targeted by Russia's political authorities and the resultant consequences namely the end of the relatively successful framework via which state business relations had been managed and its replacement by fear and mutual distrust along with a vastly expanded role for the state and state related actors in the Russian corporate sector The book explores all these developments in detail and sets them against the context of continued trends towards greater authoritarianism in Russia

Tajikistan Government and Business Contacts Handbook Volume 1 Strategic Information and Contacts IBP USA, 2013-08 2011 Updated Reprint Updated Annually Tajikistan Government and Business Contacts Handbook *Bourgeoisie, State and Democracy* Graeme Gill, 2008-05-15 One of the key questions in social science is the role of the bourgeoisie in creating a democracy An important issue in contemporary international politics is the trajectory of the current Russian political system This book brings these questions together by exploring the role played by the bourgeoisie in shaping political outcomes in five countries contemporary Russia and industrial revolution Britain France Germany and the USA Its main focus is the way the different new business classes have been integrated into the political system and the implications this had for the political trajectories of the respective countries The contemporary Russian experience is thrown into relief by comparison with the national experiences of the other four countries enabling conclusions to be drawn about both the general question of the historic role of this class in democratisation and the more specific question of its role in Russia today *Commonwealth and Independence in Post-Soviet Eurasia* Bruno Coppieters, Alexei Zverev, Dmitri Trenin, 2022-12-28 Commonwealth and Independence in Post Soviet Eurasia 1998 examines the various attempts to create new forms of integration by the new states of Eurasia The contributors to this volume analyse in detail how the national elites in the independent states conceived their regional policies It looks in particular at the Russian led Commonwealth of Independent States feared by many of the newly independent nations as being the Soviet Union Mark II **Russia's Restless Frontier** Dmitri V. Trenin, Alexey

Malashenko,2010-04 The conflict in Chechnya going through its low and high intensity phases has been doggedly accompanying Russia's development In the last decade the Chechen war was widely covered both in Russia and in the West While most books look at the causes of the war explain its zigzag course and condemn the brutalities and crimes associated with it this book is different Its focus lies beyond the Caucasus battlefield In Russia's Restless Frontier Dmitri Trenin and Aleksei Malashenko examine the implications of the war with Chechnya for Russia's post Soviet evolution Considering Chechnya's impact on Russia's military domestic politics foreign policy and ethnic relations the authors contend that the Chechen factor must be addressed before Russia can continue its development *Funding Democratization* Peter J.

Burnell,Allan Ware,2006-12-15 Democracy is a fine political system but an expensive economic venture Political parties and election campaigns cost money Where does the money come from and at what sacrifice Issues connected with political finance are significant but often neglected aspects of the process of democratization *Funding Democratization* examines how money and politics interact in emerging democracies The contributors investigate the funding of political parties in early North America financial uncertainties of party formation in European countries funding of democratization in new democracies and the influence of funding on contenders for power They also address the nature of political competition in countries that are seeking to embrace often for the first time the rules of democracy They question in what ways politicians can help make democracy affordable The volume compares important democratizing countries such as Russia Brazil South Africa Spain and the regions of East Asia and East Central Europe It also investigates the lessons that emerging democracies can learn from the history of political finance in today's more established democracies *Funding Democratization* will be of interest to political scientists and specialists in international social and political development Peter Burnell studied economics and politics at the University of Bristol before going on to complete his graduate studies with a dissertation on *The Political and Social Thought of Thomas Paine 1737-1809* both at the University of Warwick He is the founding joint editor of the journal *Democratization* and the accompanying book series *Democratization Studies* Alan Ware is a professor of politics and a tutorial fellow in politics at Worcester College Oxford University His research interests include U.S. politics and comparative government

Tajikistan Kirill Nourzhanov,Christian Bleuer,2013-10-08 This book is a historical study of the Tajiks in Central Asia from the ancient times to the post Soviet period For millennia these descendants of the original Aryan settlers were part of many different empires set up by Greek Arab Turkic and Russian invaders as well as their own most notably during the Middle Ages The emergence of the modern state of Tajikistan began after 1917 under Soviet rule and culminated in the promulgation of independence from the moribund USSR in 1991 In the subsequent civil war that raged between 1992 and 1997 Tajikistan came close to becoming a failed state The legacy of that internal conflict remains critical to understanding politics in Tajikistan a generation later Exploring the patterns of ethnic identity and the exigencies of state formation the book argues that despite a strong sense of belonging underpinned by shared history mythology and cultural

traits the Tajiks have not succeeded in forming a consolidated nation The politics of the Russian colonial administration the national territorial delimitation under Stalin and the Soviet strategy of socio economic modernisation contributed to the preservation and reification of sub ethnic cleavages and regional identities The book demonstrates the impact of region based elite clans on Tajikistan s political trajectory in the twilight years of the Soviet era and identifies objective and subjective factors that led to the civil war It concludes with a survey of the process of national reconciliation after 1997 and the formal and informal political actors including Islamist groups who compete for influence in Tajik society Tajikistan A Political and Social History is the best source of information on this important country in the English language Drs Nourzhanov and Bleuer present a comprehensive yet detailed account of the past and prospects of this emerging nation and have filled one of the major gaps in Central Asian scholarship This book must be read by those who wish to grasp the vagaries of Central Asia s evolving political and cultural landscapes Reuel Hanks Professor of Geography Oklahoma State University and Editor of the Journal of Central Asian Studies If Tajikistan is known outside its region it is often for the civil war that gravely damaged it This volume authoritatively provides the longer perspective to the unsettling events of the 1990s and skilfully explains them in terms of history social structure and sub state identities In addition to highlighting a wealth of local factors it is insightful on the ways in which antagonists can be transformed into broader ethnic and regional blocs Kirill Nourzhanov and Christian Bleuer are erudite guides to an understudied part of Central Asia while astutely instructing us about larger patterns of state society relations and their impact on the logic of conflict James Piscatori Professor of International Relations Durham University

Policy-Making for Russian Industry Stephen Fortescue, 1997-03-27 A description of the contemporary Russian economy on the basis of an analysis of economic policy making structures and procedures The empirical detail is concentrated in the heavy industry sector although the relationships between all sectors receive attention All sources of policy making input are examined the presidency and central governmental agencies sectoral state agencies industrial representative associations parliament and the regions and individual enterprises Policy making procedures receive considerable attention as part of an effort to distinguish sharply between formal and informal styles of policy making

Tajikistan in the New Central Asia Lena Jonson, 2006-08-25 Central Asia has become the battleground for the major struggles of the 21st century radical Islam versus secularism authoritarianism versus identity politics Eastern versus Western control of resources and the American War on Terror Nowhere are these conflicts more starkly illustrated than in the case of Tajikistan Embedded in the oil rich Central Asian region and bordering war torn Afghanistan Tajikistan occupies a geo strategically pivotal position It is also a major transit hub for the smuggling of opium which eventually ends up in the hands of heroin dealers in Western cities In this timely book Lena Jonson examines Tajikistan's search for a foreign policy in the post 9 11 environment She shows the internal contradictions of a country in every sense at the crossroads reconciling its bloody past with an uncertain future She assesses the impact of regional developments on the reform movement in Tajikistan and in turn examines how changes in Tajik society which is the only Central Asian country to have a legal Islamist party might affect the region The destiny of Tajikistan is intimately connected with that of Central Asia and this thorough and penetrating book is essential reading for anyone seeking to make sense of this complex and important region *Making and Breaking Democratic Transitions* Vladimir Gel'man, Sergei Ryzhenkov, Michael Brie, 2005-01-12 Focusing on the vastly different outcomes of post Soviet regime transitions this study explores why some societies have become more democratic and some have not Based on in depth comparative analyses the book assesses political developments in six of Russia's regions Saratov Nizhnii Novgorod Volgograd Ryazan Ul'yanovsk and Tver oblasts since 1988 The authors consider the influence of Soviet governance systems on the emergence of cleavages and new actors in the post Soviet period They also analyze the impact of institutional changes on regional regimes and the success or failure of formal institutions as a framework for political competitiveness Placing their detailed field data within the larger comparative and theoretical context of political transitions the authors are able to explain the mixed outcomes of post communist regime change in Russia and other post Soviet nations With its innovative model of path contingent democratization and its new typology of political regimes and regime transitions this book will be essential reading for all scholars of democracy **Putin** Richard Sakwa, 2004 The first study of Putin and his politics providing the biographical and political context needed to explain his

Russia's Stillborn Democracy? Graeme J. Gill, Roger D. Markwick, 2000-03-23 The decade and a half since Gorbachev came to power has been a tumultuous time for Russia. It has seen the expectations raised by perestroika dashed, the collapse of the Soviet superpower and the emergence of a new Russian state claiming to base itself on democratic market principles. It has seen a political system shattered by a president turning tanks against the parliament and then that president configuring the new political structure to give himself overwhelming power. These upheavals took place against a backdrop of social dislocations as the Russian people were ravaged by the effects of economic shock therapy. This book explains how these momentous changes came about and in particular why political elites were able to fashion the new political system largely independent of the wishes of the populace at large. It was this relationship between powerful elites and weak civil society forces which has led to Russian democracy under Yeltsin being still born. Ulrich's International Periodicals Directory
