Black Bolshevik Autobiography Of An Afroamerican Communist:

Black Bolshevik Harry Haywood, 1978 *Black Bolshevik* is the autobiography of Harry Haywood the son of former slaves who became a leading member of the Communist Party USA and a pioneering theoretician on the Afro American struggle. The author's first hand accounts of the Chicago race riot of 1919, the Scottsboro Boys defense, communist work in the South, the Spanish Civil War, the battle against the revisionist betrayal of the Party and other history shaping events are must reading for all who are interested in Black history and the working class struggle.

Black Communists Speak on Scottsboro Walter T. Howard, 2007-12-07 On March 25 1931 Alabama police detained nine young African American men at a railroad stop not far from Scottsboro. In the process they encountered two white women who promptly accused the young men of raping them. Soon after all white juries found the nine youths guilty and eight of them were sentenced to death. Although many Americans were outraged by the injustices of the case the loudest voices raised in protest were those of members of the American Communist Party. Many white Communists spoke out but black Communists took the lead in organizing public protests and legal responses. As this surprising book makes clear they were acting at the direction of the Communist International Comintern which had directed them to address the Negro problem. Now with the opening of formerly inaccessible Communist party archives this collection of primary documents reveals the little known but major roles played by black Communists in the case of the Scottsboro Boys.

Nationalism, Marxism, and African American Literature between the Wars Anthony Dawahare, 2009-09-18 During and after the Harlem Renaissance two intellectual forces nationalism and Marxism clashed and changed the future of African American writing. Current literary thinking says that writers with nationalist leanings wrote the most relevant fiction, poetry and prose of the day. Nationalism, Marxism and African American Literature Between the Wars. A New Pandora's Box challenges that notion. It boldly proposes that such writers as A. Philip Randolph, Langston Hughes and Richard Wright who often saw the world in terms of class struggle did more to advance the anti racist politics of African American letters than writers such as Countee Cullen, Jessie Redmon Fauset, Alain Locke and Marcus Garvey who remained enmeshed in nationalist and racist discourse. Evaluating the great impact of Marxism and nationalism on black authors from the Harlem Renaissance and the Depression era, Anthony Dawahare argues that the spread of nationalist ideologies and movements between the world wars did guide legitimate political desires of black writers for a world without racism. But the nationalist channels of political and cultural resistance did not address the capitalist foundation of modern racial discrimination. During the period known as the Red Decade 1929-1941 black writers developed some of the sharpest critiques of the capitalist world and thus anticipated contemporary scholarship on the intellectual and political hazards of nationalism for the working class. As it examines the progression of the Great Depression the book focuses on the shift of black writers to the Communist Left including analyses of the Communists' position on the Negro Question, the radical poetry of Langston Hughes and the writings of Richard Wright.

Left of the Color Line Bill V. Mullen,James Smethurst,2012-01-01 This collection of fifteen new essays

explores the impact of the organized Left and Leftist theory on American literature and culture from the 1920s to the present. In particular, the contributors explore the participation of writers and intellectuals on the Left in the development of African American, Chicano, Chicana, and Asian American literature and culture. By placing the Left at the center of their examination, the authors reposition the interpretive framework of American cultural studies. Tracing the development of the Left over the course of the last century, the essays connect the Old Left of the pre-World War II era to the New Left and Third World nationalist Left of the 1960s and 1970s, as well as to the multicultural Left that has emerged since the 1970s. Individual essays explore the Left in relation to the work of such key figures as Ralph Ellison, T. S. Eliot, Chester Himes, Harry Belafonte, Amrico Paredes, and Alice Childress. The collection also reconsiders the role of the Left in such critical cultural and historical moments as the Harlem Renaissance, the Cold War, and the Black Arts Movement of the 1960s and 1970s. The contributors are Anthony Dawahare, Barbara Foley, Marcial González, Fred Ho, William J. Maxwell, Bill V. Mullen, Cary Nelson, B. V. Olguín, Rachel Rubin, Eric Schocket, James Smethurst, Michelle Stephens, Alan Wald, and Mary Helen Washington.

Diversity and Decolonization in Teaching Russian Studies Thomas Jesús Garza, Rachel Stauffer, 2025-08-16. This edited volume is the first to address diversity and decolonization in teaching Russian language literature and culture. For multicultural scholars and classrooms in both K-12 and higher education, the editors aim to expand representations of Russian speaker identities and Russian speaking communities outside of Russia, as well as the culturally and linguistically diverse identities of students and scholars specializing in Russian within the US. Contributions provide concrete examples and philosophical approaches to present alternative ways to transform content and instruction in Russian Studies.

To Die For Cecilia Elizabeth O'Leary, 2018-06-05. July Fourth, The Star Spangled Banner, Memorial Day, and the pledge of allegiance are typically thought of as timeless and consensual representations of a national American culture. In fact, as Cecilia O'Leary shows, most trappings of the nation's icons were modern inventions that were deeply and bitterly contested. While the Civil War determined the survival of the Union, what it meant to be a loyal American remained an open question as the struggle to make a nation moved off of the battlefields and into cultural and political terrain. Drawing upon a wide variety of original sources, O'Leary's interdisciplinary study explores the conflict over what events and icons would be inscribed into national memory, what traditions would be invented to establish continuity with a suitable past, who would be exemplified as national heroes, and whether ethnic, regional, and other identities could coexist with loyalty to the nation. This book traces the origins, development, and consolidation of patriotic cultures in the United States from the latter half of the nineteenth century up to World War I, a period in which the country emerged as a modern nation-state. Until patriotism became a government-dominated affair in the twentieth century, culture wars raged throughout civil society over who had the authority to speak for the nation. Black Americans, women's organizations, workers, immigrants, and activists all spoke out and deeply influenced America's public life. Not until World War I, when the government joined forces with right-wing organizations and vigilante groups, did a racially

exclusive culturally conformist militaristic patriotism finally triumph albeit temporarily over more progressive egalitarian visions As O Leary suggests the paradox of American patriotism remains with us Are nationalism and democratic forms of citizenship compatible What binds a nation so divided by regions languages ethnicity racism gender and class The most thought provoking question of this complex book is Who gets to claim the American flag and determine the meanings of the republic for which it stands **African American Literature in Transition, 1930-1940: Volume 10** Eve Dunbar,Ayesha K. Hardison,2022-04-07 This book illustrates African American writers cultural production and political engagement despite the economic precarity of the 1930s
