Baker, Manthia Diawara, Ruth H. Lindeborg, 1996 Roots & Culture Eddie Chambers, 2016-12-18 How did a distinct and powerful Black British identity emerge In the 1950s when many Caribbean migrants came to Britain there was no such recognised entity as Black Britain Yet by the 1980s the cultural landscape had radically changed and a remarkable array of creative practices such as theatre poetry literature music and the visual arts gave voice to striking new articulations of Black British identity This new book chronicles the extraordinary blend of social political and cultural influences from the

mid 1950s to late 1970s that gave rise to new heights of Black British artistic expression in the 1980s Eddie Chambers relates how and why during these decades West Indians became Afro Caribbeans and how in turn Afro Caribbeans became Black British and the centrality of the arts to this important narrative The British Empire migration Rastafari the Anti Apartheid struggle reggae music dub poetry the ascendance of the West Indies cricket team and the coming of Margaret Thatcher all of these factors and others have had a part to play in the compelling story of how the African Diaspora transformed itself to give rise to Black Britain

 Warmington, 2014-02-24 Ask any moderately interested Briton to name a black intellectual and chances are the response will
 be an American name Malcolm X or Barack Obama Toni Morrison or Cornel West Yet Britain has its own robust black
 intellectual traditions and its own master teachers among them C L R James Claudia Jones Ambalavaner Sivanandan Stuart
 Hall and Paul Gilroy However while in the USA black public intellectuals are an embedded if often embattled feature of
 national life black British thinkers remain routinely marginalized Black British Intellectuals and Education counters this
 neglect by exploring histories of race education and social justice through the work of black British public intellectuals
 academics educators and campaigners The book provides a critical history of diverse currents in black British intellectual
 production from the eighteenth century through post war migration and into the post multicultural present focusing on the
 sometimes hidden impacts of black thinkers on education and social justice Firstly it argues that black British thinkers have
 helped fundamentally to shape educational policy practice and philosophy particularly in the post war period Secondly it
 suggests that education has been one of the key spaces in which the mass consciousness of being black and British has
 emerged and a key site in which black British intellectual positions have been defined and differentiated Chapters explore
 the early development of black British intellectual life from the slave narratives to the anti colonial movements of the early
 twentieth century how African Caribbean and Asian communities began to organize against racial inequalities in schooling in
 the post Windrush era of the 1950s and 60s how from out of these grassroots struggles black intellectuals and activists of the
 1970s 80s and 90s developed radical critiques of education youth and structural racism the influence of multiculturalism

black cultural studies and black feminism on education current developments in black British educational work including post racial approaches Critical Race Theory and black social conservatism Black British Intellectuals and Education will be of key relevance to undergraduates postgraduates and academics engaged in research on race ethnicity education social justice and cultural studies
