NOBLE, National Organization [of] Black Law Enforcement Executives : Justice by Action ,1998 Black Movement Jeffrey O. G. Ogbar, 2025-04-14 The Great Migration of African Americans from the South to northern and western cities between 1915 and 1970 fundamentally altered the political social and cultural landscapes of major urban centers like New York Chicago Philadelphia and Detroit and changed the country as well By the late twentieth century Black people were mayors police chiefs and school superintendents often at parity and sometimes overrepresented in municipal jobs in these and other cities which were also hubs for Black literature music film and politics Since the 1970s migration patterns have significantly shifted away from the major sites of the Great Migration where some iconic Black communities have been replaced by mostly non Black residents Although many books have examined Black urban experiences in America this is the first written by historians focusing on the post Great Migration era It is centered on numerous facets of Black life including popular culture policing suburbanization and political organizing across multiple cities In this landmark volume Jeffrey O G Ogbar and his contributors explore the last half century of African American urban history covering a landscape transformed since the end

of the Great Migration and demonstrating how cities remain dynamic into the twenty first century Contributors are Stefan M Bradley Scot Brown Tatiana M F Cruz Tom Adam Davies LaShawn Harris Maurice J Hobson Shannon King Melanie D Newport Jeffrey O G Ogbar Brian Purnell J T Roane Chanelle Rose Benjamin H Saracco and Fiona Vernal

The Police and the Ghetto John Cooper, 2000-12 The Black Ghettos are no descendents They are political statements forced upon the minorities by the majority The ghettos are to house throwaway people and keep them out of the mainstream In this the guard the police are not there to catch wrong doers but rather they are there in the ghetto to help maintain the status quo and social order

Over-Policing Black Bodies Delores D. Jones-Brown, Jason M. Williams, 2023-05-31 The 2020 deaths of George Floyd and Breonna Taylor rekindled decades old concerns about the legitimacy of policing They ignited the international recognition that Black people are subjected to forms of police violence that exceed the boundaries of formal law and human decency This book confirms that the Floyd and Taylor cases are not isolated incidents and provides suggestions toward prevention The contributors to the book have served on both sides of the criminal legal system They have been those who were tasked with enforcing the law and those who have been subject to law enforcement Consequently they are able to identify specific failures of a system that focuses on race specifically Blackness as a primary indicator of criminal propensity Through these chapters the authors suggest academically morally and practically sound corrective measures for moving toward a goal of equal rather than discriminatory and excessively harmful treatment

Black Enterprise ,1982-02 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance **Becoming New York's Finest** A. Darien,2013-10-17 After excluding women and African Americans from its ranks for most of its history the New York City Police Department undertook an aggressive campaign of integration following World War II This is the first comprehensive account of how and why the NYPD came to see integration as a highly coveted political tool indispensable to policing **Patrick Lyoya killed by the police: What did I do wrong?** Godfrey Mwakikagile,2022 This work focuses on the tragic murder of Patrick Lyoya an immigrant from the Democratic Republic of Congo who was shot and killed by a police officer in Grand Rapids Michigan in April 2022 The case attracted national attention and drew reactions from around the world It was also covered by international media outlets including BBC and Aljazeera The author looks at the murder in the broader context of race relations and at relations between blacks and the police in Grand Rapids and across the country He also addresses problems of re adjustment to a new life in a new country African immigrants face in the United States Patrick Lyoya faced those problems He also explains although only briefly why the tragedy is inextricably linked with the fate of Lyoya s homeland in a geopolitical context where Western countries have played a critical role in determining the destiny of the country which has earned the unenviable distinction as the bleeding heart of Africa He also briefly examines globalisation which he describes as a new form of imperialism in the post Cold War era and how it is used to justify exploitation of Africa s natural resources including the Democratic Republic of Congo s vast amounts of minerals and how industrialised nations have helped to impoverish the

country and fuel conflict there resulting in the death of millions of people and forcing countless others to flee and seek refuge in other countries including the United States Patrick Lyoya and his family and more than 8 000 other Congolese who settled in Grand Rapids were some of them Although the work briefly examines the ties the United States has had with the Democratic Republic of Congo since independence in the sixties when the country was known as Congo Leopoldville a relationship inextricably linked with the destiny of Congolese refugees who settled in Grand Rapids and other parts of the country its main focus is on the murder of Patrick Lyoya why he was killed what contributed to his murder and other factors about the tragedy The uncertainty of the trial date for this case influenced publication of the book Both sides the defence and the prosecution said they did not know when the trial would take place and implied it would be in 2023 and may be even in the last months of the year They said in November 2022 that it would be many months before the case goes to court a factor that played a major role in reaching the decision to have the book published before the trial It complements the author s forthcoming work *Shattered Dreams Race and Justice* *Ebony*, 1971-05 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine *Ebony*, 1974-12 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine **Jet**, 1992-11-02 The weekly source of African American political and entertainment news **Talking about Race in America: Conversations with conservatives, liberals, independents, immigrants and others** Seth Elijah, 2022-07-15 THIS work is a meeting of the minds People of different political and ideological beliefs articulate their positions on the question of race in the United States that has bedeviled the nation since its founding Conservatives liberals and independents as well as those who don t have any political affiliation or ideological positions exchange views debate offer suggestions and provide solutions to race problems facing the United States There are those who contend that the United States does not have a race problem It is individuals who have problems and they are the ones who complain about racism blaming society for their own failures in life Their problems have nothing to do with race Then there are those who say the United States has a race problem but it is not a major one as it once was Others contend that racism is one of the biggest and most urgent problems facing the nation Immigrants from all parts of the world also express their views and beliefs from different political and ideological perspectives on a subject that has divided the nation and continues to be one of the most contentious in the history of the country There are immigrants who don t see racism as a major problem in the United States even if they admit it exists There are those who agree with many Americans that racism still exists and it is a major problem Although immigrants they also offer solutions to a problem that from their own experience is a major one and should be addressed to achieve racial equality White nationalists also take part in the discussions on race exchanging views with conservatives liberals independents and immigrants They explain their position and offer solutions to the race question some of which don t differ much from the

solutions proposed by some people who would be considered to be an integral part of the mainstream and not on the fringes of the American society There is no consensus on the final solution to the race problem or an answer to the race question in the United States But there is some agreement on some race issues that cuts across racial and ideological lines for example with some black immigrants from Africa and the Caribbean articulating positions that are in conformity with the positions of those who are in the conservative movement contrary to what most black Americans believe Other immigrants including black ones are squarely within the liberal tradition of the Democratic party And there are those who don t embrace Republican or Democratic positions but take an independent position on race matters that is also different from the position taken by independents in the American political mainstream The race question may be far from being resolved But the views proposals and solutions presented in this book may help to point in the right direction toward a final solution to the problem that the United States has faced since slavery

Race and Policing in America Ronald Weitzer, Steven A. Tuch, 2006-06-12 Race and Policing in America is about relations between police and citizens with a focus on racial differences It utilizes both the authors own research and other studies to examine Americans opinions preferences and personal experiences regarding the police Guided by group position theory and using both existing studies and the authors own quantitative and qualitative data from a nationally representative survey of whites blacks and Hispanics this book examines the roles of personal experience knowledge of others experiences vicarious experience mass media reporting on the police and neighborhood conditions including crime and socioeconomic disadvantage in structuring citizen views in four major areas overall satisfaction with police in one s city and neighborhood perceptions of several types of police misconduct perceptions of police racial bias and discrimination and evaluations of and support for a large number of reforms in policing
