Black Fathers in Contemporary American Society Obie Clayton, Ronald B. Mincy, David Blakenhorn, 2003-08-28 The majority of African American children live in homes without their fathers but the proportion of African American children living in intact two parent families has risen significantly since 1995 Black Fathers in Contemporary American Society looks at father absence from two sides offering an in depth analysis of how the absence of African American fathers affects their children their relationships and society as a whole while countering the notion that father absence and family fragmentation within the African American community is inevitable Editors Obie Clayton Ronald B Mincy and David Blankenhorn lead a diverse group of contributors encompassing a range of disciplines and ideological perspectives who all agree that father absence among black families is one of the most pressing social problems today In part I the contributors offer possible explanations for the decline in marriage among African American families William Julius Wilson believes that many men who live in the inner city no longer consider marriage an option because their limited economic prospects do not enable them to provide for a family Part II considers marriage from an economic perspective emphasizing that it is in part a wealth producing institution Maggie Gallagher points out that married people earn invest and save more than single people and that when marriage rates are low in a community it is the children who suffer most In part III the contributors discuss policies to reduce absentee fatherhood Wornie Reed demonstrates how public health interventions such as personal development workshops and work related skill building services can be used to address the causes of fatherlessness Wade Horn illustrates the positive results achieved by fatherhood programs especially when held early in a man s life In the last chapter Enola Aird notes that from 1995 to 2000 the proportion of African American children living in two parent married couple homes rose from 34.8 to 38.9 percent a significant increase indicating the possible reversal of the long term shift toward black family fragmentation Black Fathers in Contemporary American Society provides an in depth look at a problem affecting millions of children while offering proof that the trend of father absence is not irrevocable

Crime Control As Industry Nils

Christie,2016-10-04 Crime Control As Industry translated into many languages is a modern classic of criminology and sociology Nils Christie one of the leading criminologists of his era argues that crime control rather than crime itself is the real danger for our future Prison populations especially in Russia and America have grown at an increasingly rapid rate and show no signs of slowing Christie argues that this vast and growing population is the equivalent of a modern gulag run by a rapacious industry both public and private with vested interests in incarceration Pain and confinement are products like any other with a potentially limitless supply of resources Widely hailed as a classic account of crime and restorative justice Crime Control As Industry s prophetic insights and proposed solutions are essential reading for anyone interested in crime and the global penal system This Routledge Classics edition includes a new foreword by David Garland
