experiences barred against applicable leadership and organizational development barometers *African American Urban History since World War II* Kenneth L. Kusmer, Joe W. Trotter, 2009-08-01 Historians have devoted surprisingly little attention to African American urban history of the postwar period especially compared with earlier decades Correcting this imbalance *African American Urban History since World War II* features an exciting mix of seasoned scholars and fresh new voices whose combined efforts provide the first comprehensive assessment of this important subject The first of this volume's five groundbreaking sections focuses on black migration and Latino immigration examining tensions and alliances that emerged between African Americans and other groups Exploring the challenges of residential segregation and deindustrialization later sections tackle such topics as the real estate industry's discriminatory practices the movement of middle class blacks to the suburbs and the influence of black urban activists on national employment and social welfare policies Another group of contributors examines these themes through the lens of gender chronicling deindustrialization's disproportionate impact on women and women's leading roles in movements for social change Concluding with a set of essays on black culture and consumption this volume fully realizes its goal of linking local transformations with the national and global processes that affect urban class and race relations *The African American Church Community in Rochester, New York, 1900-1940* Ingrid Overacker, 1998 This work examines the connections between the faith foundations of members of the African American church community in Rochester New York and the work the community engaged in to nurture and protect its members during the first four decades of the twentieth century The book concentrates on four local churches Memorial AME Zion Mt Olivet Baptist Trinity Presbyterian and St Simon's Episcopal and explains how each addressed the human service educational economic and political needs of African Americans in Rochester the book highlights the role of women in the church community and relies heavily on interviews with members of the respective churches This analysis of Rochester's church community challenges the perception of the African American church as accommodationist and otherworldly during this critical time in the formation of the African American community both locally and nationally *The Divided Mind of the Black Church* Raphael G Warnock, 2023-11-21 An altar call to action from the U S senator and senior pastor at Atlanta's Ebenezer Baptist Church Publishers Weekly What is the true nature and mission of the church Is its proper Christian purpose to save souls or to transform the social order This question is especially fraught when the church is one built by an enslaved people and formed from its beginning at the center of an oppressed community's fight for personhood and freedom Such is the central tension in the identity and mission of the Black church in the United States For decades the Black church and Black theology have held each other at arm's length Black theology has emphasized the role of Christian faith in addressing racism and other forms of oppression arguing that Jesus urged his disciples to seek the freedom of all peoples Meanwhile the Black church even when focused on social concerns has often emphasized personal piety rather than social protest With the rising influence of white evangelicalism biblical fundamentalism and the prosperity gospel the divide has become even more
