The Routledge Handbook of Henri Lefebvre, The City and Urban Society Michael E. Leary-Owhin,John P. McCarthy,2019-11-21 The Routledge Handbook of Henri Lefebvre The City and Urban Society is the first edited book to focus on Lefebvre s urban theories and ideas from a global perspective making use of recent theoretical and empirical developments with contributions from eminent as well as emergent global scholars The book provides international comparison of Lefebvrian research and theoretical conjecture and aims to engage with and critique Lefebvre s ideas in the context of contemporary urban social and environmental upheavals to use Lefebvre s spatial triad as a research tool as well as a point of departure for the adoption of ideas such as differential space to reassess Lefebvre s ideas in relation to nature and global environmental sustainability and to highlight how a Lefebvrian approach might assist in mobilising resistance to the excesses of globalised neoliberal urbanism The volume draws inspiration from Lefebvre s key texts The Production of Space Critique of Everyday Life and The Urban Revolution and includes a comprehensive introduction and

concluding chapter by the editors The conclusions highlight implications in relation to increasing spatial inequalities increasing diversity of needs including those of migrants more authoritarian approaches and asymmetries of access to urban space Above all the book illustrates the continuing relevance of Levebvre s ideas for contemporary urban issues and shows via global case studies how resistance to spatial domination by powerful interests might be achieved The Handbook helps the reader navigate the complex terrain of spatial research inspired by Lefebvre In particular the Handbook focuses on the series of struggles globally for the right to the city and the collision of debates around the urban age cityism and planetary urbanisation It will be a guide for graduate and advanced undergraduate teaching and a key reference for academics in the fields of Human Geography Sociology Political Science Applied Philosophy Planning Urban Theory and Urban Studies Practitioners and activists in the field will also find the book of relevance

Animals in the City Laura A. Reese,2021-11-15 This book presents interdisciplinary research to examine the ongoing debates around nonhuman animals in urban spaces It explores how we can better appreciate and accommodate animals in the city while also exploring the ecological health ethical and cultural implications of the same The book addresses seven interrelated themes such as blurred boundaries between the human and the nonhuman the right of nonhuman species to the city interactions between the human and nonhuman animals the fabric of urban space human and nonhuman complex systems and collective welfare that forms the basis of a transspecies urban theory It explains how a holistic understanding of the city requires that these blurred boundaries are acknowledged and critically examined Chapters analytically consider the need to bring interspecies relationships to the fore to tackle questions of legitimacy and who has the right to the city These also consider important intersections between the economic political social and cultural aspects of the urban experience The research contained in this book focuses on the development of an urban theory that would eradicate the divide between humans and other species in cities and it depicts nonhuman animals as social actors that have voices within urban spaces With global insights on human animal relationships in a contemporary context this book will be useful reading for scholars and students of urban studies animal sciences animal law animals and public policy anthropology and environmental studies who are interested in the study of animals in cities
