Birds of Oregon Ira N. Gabrielson, Stanley G. Jewett, 2010-10-20 From Foreward Lovers of the great outdoors as well as those scientifically inclined are to be felicitated upon the publication of *The Birds of Oregon* by Gabrielson and Jewett For forty years these men patiently and painstakingly assembled the material for this imposing and delightful book They brought to the task a wealth of experience and of scientific knowledge They covered the state from the Columbia to Goose Lake and from the Pacific Ocean to the Snake River By personal contact they know Oregon from sea level to the summit of Mt Hood They transferred from nature's book to the printed page some of nature's most interesting and beautiful expressions

Jobanek, 1997 This exhaustive richly annotated resource fills an important gap in Oregon bird literature George Jobanek has carefully searched dozens of early ornithological scientific and natural history journals and publications from *American Field* to *Zoe* for records of Oregon birds Because of the rarity of many references and their inaccessibility to most readers the author has provided annotations for each of the nearly two thousand entries Jobanek conveys in a concise manner the salient points of each article and frequently quotes from the references especially descriptions of abundance and range In addition many of the annotations include citing of recent references By briefly describing each item Jobanek reveals its usefulness for contemporary readers References are organized by author and cross indexed by species county key word and year of publication Key words such as behavior conservation distribution migration nesting plumage and taxonomy have been assigned to each entry to reflect the primary topic or theme of the Oregon material of the reference A gazetteer identifies localities mentioned in the annotations This bibliography is a valuable new resource for professional and informed amateur ornithologists wildlife managers ecologists natural historians librarians and anyone interested in birds in the Pacific Northwest Its references will offer researchers a base for future studies and allow readers a glimpse of an earlier golden era in ornithology      **Sandy River Delta Plan EIS, Multnomah County**, 1995
