Birdless Summer:

Birdless Summer Suyin Han, 1968 The events of Chinese history between 1938 and 1948 are reconstructed in this 3rd volume of Han Suyin's autobiography *Birdless Summer*, 1976 *Birdless Summer* Suyin Han (pseud.), 1972 Birdless Summer Han Suyin, 1968-10 *Encyclopedia of Post-Colonial Literatures in English* Eugene Benson, 2004-11-30 Documents the history and development of Post colonial literatures in English together with English and American literature and includes original research relating to the literatures of some 50 countries and territories In more than 1 600 entries written by more than 600 internationally recognized scholars it explores the effect of the colonial and post colonial experience on literatures in English worldwide *Picturing China in the American Press* David D. Perlmutter, 2007-03-29 Picturing China in the American Press juxtaposes what the ordinary American news reader was shown visually in Time Magazine between 1949 and 1973 with contemporary perspectives on the behind the scenes history of the period Time Magazine is an especially fruitful source for such a visual historical contrast and comparison because it was China centric founded and run by Henry Luce a man who loved China and was commensurably obsessed with winning China to democracy and Western influence Picturing China examines in detail major events the Korean War and Nixon's trip to China less considerable occurrences shellings of Straits islands and diplomatic flaps great personages Chairman Mao and Henry Kissinger and the common people and common life of China as seen through the lenses and described by the pens of American reporters artists photographers and editors Picturing China in the American Press is of great interest to both scholars of communications Chinese history China Studies and journalists Beyond Suffering James Flath, Norman Smith, 2011-04-13 China was afflicted by a brutal succession of conflicts through much of the nineteenth and twentieth centuries Yet there has never been clear understanding of how wartime suffering has defined the nation and shaped its people In Beyond Suffering a distinguished group of historians of modern China look beyond the geopolitical aspects of war to explore its social institutional and cultural dimensions The chapters in Part 1 Society at War reveal how militarization and war can both structure and destabilize society while those in Part 2 Institutional Engagement show how institutions and the people they represent can become pawns in larger power struggles Lastly Part 3 Memory and Representation examines the various media monuments and social controls by which war has been memorialized Based on fragmented accounts of poorly understood incidents Beyond Suffering pieces together a fuller picture of the multiple fronts on which wars in modern China have been fought experienced and remembered *An Ethical Literary Criticism of Han Suyin's Autobiography* Florence Kuek, 2025-04-15 Han Suyin 1916 1917 2012 became a household name when Love is A Many Splendored Thing the Hollywood rendition of her novel won several awards in 1956 The study of Han Suyin went out of fashion for a while but it has recently been revitalised especially in Singapore and Malaysia Kuek pays attention to The Crippled Tree autobiographical series delineating her two track narrative of her family saga against the backdrop of 20th century China Different from the

earlier studies on Han Suyin that employed perspectives from postcolonialism feminism and new historicism this book examines Han Suyin s autobiography through the lens of ethical literary criticism ELC paying attention to the ethical lines and knots embedded in her series Using ELC an apolitical literary analysis approach this book uncovers multiple layers of meaning and reveals Han Suyin s life trajectory which draws attention to China s difficult path of modernisation in the past century The insights gleaned from this book shed light on Han Suyin s life accomplishments in the face of great adversities and challenges This is a valuable book that will enlighten literary critics on critical approaches to autobiography and those interested in understanding the development of modern China through the words of a proud Chinese Eurasian writer living in the era

Race War! Gerald Horne,2005-11-01 Japan s lightning march across Asia during World War II was swift and brutal Nation after nation fell to Japanese soldiers How were the Japanese able to justify their occupation of so many Asian nations And how did they find supporters in countries they subdued and exploited *Race War* delves into submerged and forgotten history to reveal how European racism and colonialism were deftly exploited by the Japanese to create allies among formerly colonized people of color Through interviews and original archival research on five continents Gerald Horne shows how race played a key and hitherto ignored role in each phase of the war During the conflict the Japanese turned white racism on its head portraying the war as a defense against white domination in the Pacific We learn about the reverse racial hierarchy practiced by the Japanese internment camps in which whites were placed at the bottom of the totem pole under the supervision of Chinese Korean and Indian guards an embarrassing example of racial payback that was downplayed by the defeated Japanese and the humiliated Europeans and Euro Americans Focusing on the microcosmic example of Hong Kong but ranging from colonial India to New Zealand and the shores of the U S Gerald Horne radically retells the story of the war From racist U S propaganda to Black Nationalist open support of Imperial Japan information about the effect of race on U S and British policy is revealed for the first time This revisionist account of the war draws connections between General Tojo Malaysian freedom fighters and Elijah Muhammed of the Nation of Islam and shows how white racism encouraged and enabled Japanese imperialism In sum Horne demonstrates that the retreat of white supremacy was not only driven by the impact of the Cold War and the energized militancy of Africans and African Americans but by the impact of the Pacific War as well as a chastened U S and U K moved vigorously after this conflict to remove the conditions that made Japan s success possible

A Century of Travels in China Douglas Kerr,Julia Kuehn,2007-05-01 Writings of travelers have shaped ideas about an evolving China while preconceived ideas about China also shaped the way they saw the country *A Century of Travels in China* explores the impressions of these writers on various themes from Chinese cities and landscapes to the work of Europeans abroad From the time of the first Opium War to the declaration of the People s Republic China s history has been one of extraordinary change and stubborn continuities At the same time the country has beguiled scared and puzzled people in the West The Victorian public admired and imitated Chinese fashions in furniture and design gardens and clothing

while maintaining a generally negative idea of the Chinese empire as pagan backward and cruel In the first half of the twentieth century the fascination continued Most foreigners were aware that revolutionary changes were taking place in Chinese politics and society yet most still knew very little about the country But what about those few people from the English speaking world who had first hand experience of the place What did they have to say about the real China To answer this question we have to turn to the travel accounts and memoirs of people who went to see for themselves during China's most traumatic century While this book represents the work of expert scholars it is also accessible to non specialists with an interest in travel writing and China and care has been taken to explain the critical terms and ideas deployed in the essays from recent scholarship of the travel genre

Feminism and Socialism in China (Routledge Revivals) Elisabeth Croll, 2013-01-11 First published in 1978 *Feminism and Socialism in China* explores the inter relationship of feminism and socialism and the contribution of each towards the redefinition of the role and status of women in China In her history of the women's movement in China from the late nineteenth century onwards Professor Croll provides an opportunity to study its construction its ideological and structural development over a number of decades and its often ambiguous relationship with a parallel movement to establish socialism Based on a variety of material including eye witness accounts the author examines a wide range of fundamental issues including women's class and oppression the relation of women's solidarity groups to class organisations reproduction and the accommodation of domestic labour women in the labour process and the relationship between women's participation in social production and their access to and control of political and economic resources The book includes excerpts from studies of village and communal life documents of the women's movement and interviews with members of the movement

The United States and China Michael Schaller, 2016 From the Opium Wars of the 1840s to the Red Scare of the 1940s through the Tiananmen Square massacre of 1989 and the Wen Ho Lee espionage case of 2000 Chinese American relations have swung like a pendulum throughout the years Now in its fourth edition and thoroughly revised and updated *The United States and China Into the Twenty First Century* looks at more than a century of Chinese American turmoil from a dual perspective examining how two dramatically different cultures interacted cooperated and collided

John Adams's Nixon in China Timothy A. Johnson, 2016-05-06 John Adams's opera *Nixon in China* is one of the most frequently performed operas in the contemporary literature Timothy A Johnson illuminates the opera and enhances listeners and scholars appreciation for this landmark work This music analytical guide presents a detailed in depth analysis of the music tied to historical and political contexts The opera captures an important moment in history and in international relations and a close study of it from an interdisciplinary perspective provides fresh compelling insights about the opera The music analysis takes a neo Riemannian approach to harmony and to large scale harmonic connections Musical metaphors drawn between harmonies and their dramatic contexts enrich this approach Motivic analysis reveals interweaving associations between the characters based on melodic content Analysis of rhythm and meter focuses on Adams's frequent use

of grouping and displacement dissonances to propel the music forward or to illustrate the libretto The book shows how the historical depiction in the opera is accurate yet enriched by this operatic adaptation The language of the opera is true to its source but more evocative than the words spoken in 1972 due to Alice Goodman's marvelous poetic libretto And the music transcends its repetitive shell to become a hierarchically rich and musically compelling achievement

Life Mapping as Cultural Legacy I-Chun Wang, Mary Theis, 2021-01-15 This volume celebrates a fascinating variety of nonfiction known as life writing This genre resonates quintessentially with the core of the humanities in its profoundly individual ways of fusing narrators with their narrative subjects The book brings together scholars from around the world to explore the personal mapping of such narrators in the context of their cultural legacies The hybrid fusions themselves form several subgenres that complement each other as they affirm human dignity and values and our need for human connection felt at all times but especially during times of globally met threats The ever expanding forms of hybridography here along with testimonies diaries letters and journals bear witness to how individuals have contrived to overcome their own traumatic sources of pain and suffering to discover joy and how to further map their pathways forward The narratives not only communicate important information and aesthetic beauty needed to prolong troubled lives due to social anxiety or mental illness but also challenge sociocultural issues involving stigma migration racial discrimination and persecution human trafficking and ecological concerns Global in scope personal in focus and historically and culturally contextualized the analyses provided here once again illustrate how much we have to learn from each other

Eurasian Emma Teng, 2013-07-13 In the second half of the nineteenth century global labor migration trade and overseas study brought China and the United States into close contact leading to new cross cultural encounters that brought mixed race families into being Yet the stories of these families remain largely unknown How did interracial families negotiate their identities within these societies when mixed race marriage was taboo and Eurasian often a derisive term In Eurasian Emma Jinhua Teng compares Chinese Western mixed race families in the United States China and Hong Kong examining both the range of ideas that shaped the formation of Eurasian identities in these diverse contexts and the claims set forth by individual Eurasians concerning their own identities Teng argues that Eurasians were not universally marginalized during this era as is often asserted Rather Eurasians often found themselves facing contradictions between exclusionary and inclusive ideologies of race and nationality and between overt racism and more subtle forms of prejudice that were counterbalanced by partial acceptance and privilege By tracing the stories of mixed and transnational families during an earlier era of globalization Eurasian also demonstrates to students faculty scholars and researchers how changes in interracial ideology have allowed the descendants of some of these families to reclaim their dual heritage with pride

writing from around the world celebrating all major genres with entries on literary movements periodicals more than 400 individual works and articles on approximately 2 400 authors *Interracial Lovers in Revolutionary China* D. E. Mungello, 2023-07-14 In the twentieth century China underwent a monumental dynastic change and was transformed from an outmoded monarchy into a modern communist state This century of revolutionary change was marked by political upheaval and social chaos It was a period in which Chinese began to go abroad to study and conduct business while foreigners came to China for economic opportunity and adventure In the process Chinese and foreigners began to meet and form romantic relationships These love affairs fengliu yunshi are notable because they coincided with the last phase of Western imperialism including its lingering racial prejudices and even laws against interracial sexual relationships Conversely in China there were periodic outbreaks of hostility and violence against foreigners This book explores the interracial relationships of twenty two people who transcended these obstacles to cross color lines and fall in love *The New York Times Book Review* ,1968
