Field Guide to Birds of the Horn of Africa Nigel Redman,Terry Stevenson,John Fanshawe,2010-06-30 This is the first field guide to the birds of this fascinating region and a companion to Birds of East Africa by two of the same authors The Horn of Africa has the highest endemism of any region in Africa and around 70 species are found nowhere else in the world Many of these are confined to the isolated highlands of Ethiopia and Eritrea but a large number of larks specialise in the arid parts of Somalia and adjoining eastern Ethiopia whilst the island of Socotra has its own suite of endemic species The region is also an important migration route and wintering site for many Palearctic birds Over 200 magnificent plates by John Gale and Brian Small illustrate every species that has ever

occurred in the five countries covered by the guide and the succinct text covers the key identification criteria Special attention is paid to the voices of the species and over 1000 up to date colour distribution maps are included This long awaited guide is a much needed addition to the literature on African birds and an essential companion for birders visiting the region

A Comprehensive Illustrated Field Guide Ian Sinclair, Peter Ryan, 2003 Birds of Africa South of the Sahara provides unrivalled coverage of African birds in a single volume and is the first book to describe and illustrate all of the birds found in Africa south of the Sahara Desert the Afrotropic Region including Socotra Pemba and islands in the Gulf of Guinea Some 2 105 species are covered with an additional 70 vagrants briefly described and more than 2 000 images assembled on 359 plates Illustrations portray most distinctive plumages as well as diagnostic flight patterns and major geographic variants Species descriptions give precise identification features highlighting differences between similar species as well as briefly reporting habitat status and calls Distribution maps for each species are based on the latest atlas surveys The most up to date taxonomy is used with many new species described and illustrated for the first time Despite its exceptional coverage this guide is compact enough to use in the field and follows the standard field guide format with texts and range maps appearing opposite the color plates *Roberts' Birds of Southern Africa* Austin Roberts, Gordon L. Maclean, 1988 **The Birds of Africa, Comprising All the Species which Occur in the Ethiopian Region** George Ernest Shelley, William Lutley Sclater, 1896
