Birds In Counties: An Ornithological Bibliography Of The Counties Of England, Wales, Scotland And The Isle Of Man

David K Ballance,2000-05-05 This is an ornithological bibliography for the counties of England Wales and Scotland and for the Isle of Man It includes all known books pamphlets and papers which contain substantial studies of the birds of local areas from a county down to a back garden or a gravel pit Each county has an introduction on its boundaries and the history of its ornithology There has been no comprehensive national publication of this kind since Mullens Swann and Jourdain s Geographical Bibliography in 1920 The volume also provides a detailed record of the many county and local bird reports and of the ever increasing number of area surveys produced by statutory and voluntary bodies The material is arranged by the pre 1974 counties and takes the record up to 1995 There are maps to show the many changes in county boundaries since 1800 The book will be a standard reference work for libraries and collectors and for anyone interested in the rich and diverse development of local ornithology in its homeland *Rural Bird Life of England* Charles Dixon,1899 **Rebirding** Benedict Macdonald,2019-04-08 WINNER OF THE WAINWRIGHT PRIZE FOR WRITING ON GLOBAL CONSERVATION Winner of the Richard Jefferies Society and White Horse Book Shop Literary Prize splendid Guardian visionary New Statesman Rebirding takes the long view of Britain s wildlife decline from the early taming of our landscape and its long lost elephants and rhinos to fenland drainage the removal of cornerstone species such as wild cattle horses beavers and boar and forward in time to the intensification of our modern landscapes and the collapse of invertebrate populations It looks at key reasons why species are vanishing as our landscapes become ever more tamed and less diverse with wildlife trapped in tiny pockets of habitat It explores how Britain has uniquely relied on modifying farmland rather than restoring ecosystems in a failing attempt to halt wildlife decline The irony is that 94% of Britain is not built upon at all And with more nature loving voices than any European country we should in fact have the best not the most impoverished wildlife on our continent Especially when the rural economics of our game estates and upland farms are among the worst in Europe Britain is blessed with all the space it needs for an epic wildlife recovery The deer estates of the Scottish Highlands are twice the size of Yellowstone National Park Snowdonia is larger than the Maasai Mara The problem in Britain is not a lack of space It is that our precious space is uniquely wasted not only for wildlife but for people s jobs and rural futures too Rebirding maps out how we might finally turn things around rewilding our national parks restoring natural ecosystems and allowing our wildlife a far richer future In doing so an entirely new sector of rural jobs would be created finally bringing Britain s dying rural landscapes and failing economies back to life Birds in England Andrew F.
