Birth Of New Zealand A Nations Heritage:

New Zealand in the League of Nations Gerald Chaudron,2011-11-08 When New Zealand's prime minister William Massey joined other heads of British Empire countries in signing the 1919 Treaty of Versailles to end World War I and join the League of Nations he did not regard the act as a declaration of independence On the contrary while Canadian and South African leaders saw membership in the league as a rite of passage towards greater autonomy New Zealand's leader viewed it as an unwelcome burden and a potential threat to the British Empire This history of New Zealand's relations with the League of Nations from its inception in 1920 to its demise in 1946 follows the government's transformation in attitude from its initial hostility to detached acceptance and finally passionate support in the late 1930s By chronicling this complex movement the book traces New Zealand's first tiny halting steps towards developing its own foreign policy **Aotearoa an unbiased AI**

independence from Britain and develop a Rhodesian national identity by changing Rhodesia's old colonial symbols and examines how the meaning of these national symbols changed over time. Finally, the book offers insights into the role of race in Rhodesian national identity, showing how portrayals of a timeless black population were highly dependent upon circumstance and reflective of white settler anxieties. Using a comparative approach, the book shows parallels between Rhodesia and other settler societies as well as other post-colonial nation states and even metropolises as themes and narratives of decolonisation travelled around the world.

The Palgrave Handbook of State-Sponsored History After 1945 Berber Bevernage, Nico Wouters, 2018-02-03. This handbook provides the first systematic integrated analysis of the role that states or state actors play in the construction of history and public memory after 1945. The book focuses on many different forms of state-sponsored history, including memory laws, monuments and memorials, state archives, science policies, history in schools, truth commissions, historical expert commissions, the use of history in courts and tribunals, etc. The handbook contributes to the study of history and public memory by combining elements of state-focused research in separate fields of study. By looking at the state's memorialising capacities, the book introduces an analytical perspective that is not often found in classical studies of the state. The handbook has a broad geographical focus and analyses cases from different regions around the world. The volume mainly tackles democratic contexts, although dictatorial regimes are not excluded.

Heritage in the Digital Era Rodanthi Tzanelli, 2013-03-05. What happens to traditional conceptions of heritage in the era of fluid media spaces? Heritage usually involves intergenerational transmission of ideas, customs, ancestral lands and artefacts, and so serves to reproduce national communities over time. However, media industries have the power to transform national lands and histories into generic landscapes and ideas through digital reproductions or modifications, prompting renegotiations of belonging in new ways. Contemporary media allow digital environments to function as transnational classrooms, creating virtual spaces of debate for people with access to televised cinematic and Internet ideas and networks. This book examines a range of popular cinematic interventions that are reshaping national and global heritage across Europe, Asia, the Americas, and Australasia. It examines collaborative or adversarial articulations of such enterprise by artists, directors, producers, but also local national and transnational communities that blend activism with commodification, presenting new cultural industries as fluid but significant agents in the production of new public spheres. Heritage in the Digital Era will appeal to students and scholars of sociology, film studies, tourist studies, globalization theory, social theory, social movements, human cultural geography, and cultural studies.
