Anti-Submarine Warfare David Owen, 2007-11-15 A deep dive into the tactics and technology used to defend against submarines from the opening of the First World War through World War II and beyond The submarine was undoubtedly the most potent purely naval weapon of the twentieth century In two world wars enemy underwater campaigns were very nearly successful in thwarting Allied hopes of victory indeed annihilation of Japanese shipping by US Navy submarines is an indicator of what might have been That the submarine was usually defeated is a hugely important story in naval history yet this is the first book to treat the subject as a whole in a readable and accessible manner It concerns individual heroism and devotion to duty but also ingenuity technical advances and originality of tactical thought What developed was an endless battle between forces above and below the surface where a successful innovation by one side eventually produces a countermeasure by the other in a lethal struggle for supremacy Development was not a straight line wrong ideas and

assumptions led to defeat and disaster Iconography with dozens of photographs and often large format diagrams a vast bibliography and a complete and documented general approach make this volume a work of great quality and of great interest for all enthusiasts and scholars of this very interesting subject *Storia Militare* The modeller will not only find the text engaging but there is a superb collection of photographs and illustrations which of course include submarines corvettes and destroyers Subjects which the modeller increasingly appreciates Highly recommended *Model Boats* *My Lonesome Rose* Mario Liberatore,2013-10-08 This collection of poetry was written during one servicemans active duty in the US Army during World War II It contains the personal hopes and dreams of a man who found moments of solitude to pen thoughts in poetic writing to share his romantic love affair a longing for home and the rigors of life while serving his country In deep and silent meditation but far from total relaxation I sit here each lonely night and search my thoughts for words to write Experience a yearning strength of mind and determination to win not only a war but also the heart of his hometown bride to be *In Love with Freedom* Steven E. Aavang,2011-04-05 Based upon her own words this is the story of a unique individual whose deep love for her native country was overshadowed only by her compelling love for freedom Born with a pedigree of royalty reaching back to the Byzantine Empire and riches comparable to the American Rockefellers this princess seemed destined to a life of pampered luxury and perhaps a noble charity Life however doesnt always follow the script especially someone with Catherines character In Love With Freedom a sweeping story of one womans remarkable lifetime of triumph and tragedy in the kaleidoscope of the twentieth century The story begins with a toddler snatched from her mothers bosom by her evil father and hidden for thirteen years in a series of orphanages a pawn in a high stakes game of ransom and revenge The plucky fearless and resourceful child at last escapes and crosses Europe eventually arriving in Romania on the Orient Express and is declared a princess but that is only the beginning of her journey Catherine learns to be a princess wife and mother through World War I the Depression and epidemics Yet it is World War II that is her defining moment Learn how this woman of less than five feet of stature stands up to the despicable Gestapo and the mighty Nazi Armies earns the moniker the Angel of Ploesti from the 1400 American POWs that are torn from the angry skies of Hitlers most heavily protected resource Romanias Catherines oil fields and then survives the starvation pogroms and death of the Soviet liberation of Eastern Europe What can she do to escape the barbarism What can she do to help her country and all those oppressed by the horrors of Communism and dictatorships The answers are truly amazing and inspiring *Consolidated B-24 Liberator* Brown Kittel,2025-03-15 The Consolidated B 24 Liberator was a four engined medium high wing heavy bomber it adopted a type of wing known as the Davis wing narrow and elongated which became its distinctive feature together with the double oval shaped fin The Liberator was one of the most important American bombers it ended the war as the American warplane built in the greatest number in history In fact more than 18 000 examples were built It was together with the B 17 Flying Fortress the flagship bomber of the United States Army Air Force The most famous mission of the Liberators was against the oil fields

of Ploesti Romania on August 1 1943 which ended in disaster due to the incorrect sequence of the attack waves The B 24 was widely used in World War II where it served in every branch of the American armed forces as well as in several Allied air forces and navies It was used in every theater of operations and during its missions shot down approximately 2 600 enemy fighters Along with the B 17 the B 24 was the mainstay of the U S strategic bombing campaign in the Western European theater thanks to its range it proved useful in bombing operations in the Pacific including the bombing of Japan
