N. Lim, 2023-09-19 Asia is by far the largest continent in the world The global expansion of the church which emanated from the Middle East as explored in the first book in the series moved along various routes to take root in Asia proper Christianity in Asia is extraordinarily diverse with very ancient forms of the faith dating to the time of the apostles The western church will be enlightened by the dynamic multi pronged Asian story of Christianity Asian Christianity is also distinct due to the numerous non traditional house or cell movements found throughout the region The diversity of Christianity in Asia makes Christians in this region critical for the future of global Christianity **The Apostolic Fathers** Michael W.

Orthodoxy and Heresy in Early Christian Contexts Paul A. Hartog, 2015-01-30 Eighty years ago Walter Bauer promulgated a bold and provocative thesis about early Christianity He argued that many forms of Christianity started the race but one competitor pushed aside the others until this powerful orthodox version won the day The victors re wrote history marginalizing all other perspectives and silencing their voices even though the alternatives possessed equal right to the title of normative Christianity Bauer s influence still casts a long shadow on early Christian scholarship Were heretical movements the original forms of Christianity Did the heretics outnumber the orthodox Did orthodox heresiologists accurately portray their opponents And more fundamentally how can one make any objective distinction between heresy and orthodoxy Is such labeling merely the product of socially situated power Did numerous valid forms of Christianity exist without any validating norms of Christianity This collection of essays each written by a relevant authority tackles such questions with scholarly acumen and careful attention to historical cultural geographical and socio rhetorical detail Although recognizing the importance of Bauer s critical insights innovative methodologies and fruitful suggestions the contributors expose numerous claims of the Bauer thesis in both original and recent manifestations that fall short of the historical evidence With contributions from Rodney Decker Carl Smith William Varner Rex Butler Bryan Litfin Brian Shelton David Alexander Edward Smither Glen Thompson

The Spirit of Truth Myk Habets, 2010-03-01 This pneumatology from below not in the methodological but in the geographical sense from New Zealand extends the contemporary renaissance of the discussion on the doctrine of the Holy Spirit across the theological loci and disciplines A veritable pneumatological contribution indeed by Myk Habets and his colleagues from Down Under Amos Yong J Rodman Williams Professor of Theology Regent University

Entangling Web Alec Ryrie, Mark A. Lamport, 2024-03-19 Europe has a tremendously important role in the history of Christianity and was the continent with the most Christians from roughly the year 900 to 1980 However Europe is now home to only 22 percent of all Christians in the world down from 68 percent in 1900 The major trend of European religion in the twentieth and twenty first centuries has been secularization disestablishment and decreased influence of state churches lower importance of religion in the public sphere the decline of religious beliefs and practices and individual religious switching from Christianity to atheism and agnosticism One hundred years ago it was true that the typical Christian in the world was a white European Given current trends however Europe is clearly no longer the geographic nor demographic center of world Christianity Yet that does not mean Europe has no role in the future It is still the home of major Christian communions such as Catholics Rome Anglicans Canterbury Russian Orthodox Moscow and Lutherans Geneva European mission agencies are active throughout the world providing theological education and social welfare programs combatting climate change and advocating for gender equality

Surviving Jewel Mitri Raheb, Mark A. Lamport, 2022-05-24 The Christian church was born in the Middle East and grew there for centuries Its interaction with Islam turned Christianity in this once predominantly Christian region into a marginalized jewel surviving at great peril within a difficult even sometimes hostile political and religious climate Of course the story of Christianity over the last 1 300 years is not solely one of conflict marginalization and persecution but is also about accommodation interchange and cooperation This introductory book details the history of the church in its Middle Eastern birthplace through the past two thousand years It is a story described as a lost history by Philip Jenkins but it is here uncovered and placed on display For those with eyes to see the church of the Middle East is here revealed as a precious jewel still catching the light

Water from a Deep Well Sittser, Gerald L., 2013-04-23 Gerald L. The Heresy of Orthodoxy (Foreword by I. Howard Marshall) Andreas J. Köstenberger, Michael J. Kruger, 2010-06-09 Beginning with Walter Bauer in 1934 the denial of clear orthodoxy in early Christianity has shaped and largely defined modern New Testament criticism recently given new life through the work of spokesmen like Bart Ehrman Spreading from academia into mainstream media the suggestion that

diversity of doctrine in the early church led to many competing orthodoxies is indicative of today's postmodern relativism. Authors K. Stenberger and Kruger engage Ehrman and others in this polemic against a dogged adherence to popular ideals of diversity. K. Stenberger and Kruger's accessible and careful scholarship not only counters the Bauer Thesis using its own terms but also engages overlooked evidence from the New Testament. Their conclusions are drawn from analysis of the evidence of unity in the New Testament, the formation and closing of the canon, and the methodology and integrity of the recording and distribution of religious texts within the early church.

Christianity: The First 400 years Jonathan Hill, 2013-09-25. The first 400 years after the death of Christ saw huge developments and changes in the emerging faith. Christianity spread from Jerusalem to much of the known world; it became the official religion of the British Empire. Its key texts were written, and its core ideas and beliefs were shaped and formalized. Much of this happened under huge pressure from both within and without. Jonathan Hill charts the fascinating history of this crucial period in the development of Christianity. He shows how and why certain ideas triumphed over others, introduces the key figures both within the faith and among its opponents, and their intellectual struggles. He covers the main battles, often bitterly fought, both of ideas and of weapons. He describes the lives of ordinary Christians and their worship, and how each influenced the other. Occasionally murky, often thrilling and always compelling, the story Hill tells recounts the ways in which a new religion, centred on a single man executed in the Roman Middle East, first struggled and then spread to become the dominant belief system of the world.
