## **Birth Of The Modern World Society 1815-1830:**

**The Birth Of The Modern** Paul Johnson, 2013-10-31 A classic study of fifteen crucial years in the formation of the modern world The Birth of the Modern has established itself as a new kind of historical work an examination of the way the matrix of the modern world was formed Paul Johnson one of today's most popular historians takes fifteen critical years and subjects them to a fascinatingly detailed analysis their geopolitics and politics their cultural and intellectual life their technology and science He investigates every area of life in every corner of the world And he makes of this huge variety of elements a coherent narrative told through the lives and actual words of the age's people outstanding and ordinary so that the reader feels he was there

**The New Space: Genesis and Background** Bahman Bazargani, 2012-09 The New Space Genesis and Background author Bahman Bazargani considers the idea that the quasi aesthetic focus of attraction of the polytheistic era was the brave hero This quasi aesthetic focus of attraction overshadows all the other parameters of that paradigm Liberty in that paradigm meant the liberty of moving in these dimensions In contrast during the monotheistic paradigm the meaning of liberty was drastically changed and overshadowed by the quasi aesthetic focus of attraction of that paradigm that is by the eternity other world Barzagani further strives to show that the era of reason was somehow an autocratic era that had a great impression upon the modern time while it was philosophically more tolerant to the two centuries before Throughout The New Space Genesis and Background he examines the changes that the concept of liberty experiences from the classic teachings to the present and the new quasi aesthetic focus of attraction which as a metavalue and the true meaning of life overshadows all the other social values He posits that although there is a consensus that liberty is the meaning of life but that there is no consensus on the meaning of liberty Finally Bazargani comes to the conclusion that horizontal respect is a new principle that can be the new quasi aesthetic focus of attraction and a metavalue that would overshadow all the social values even liberty itself the beginning of the new space pluralist mega space

*War, Science and Terrorism* Dr J Richardson, 2012-12-06 Describes the application of research to the evolution of weapons It shows how natural engineering information and environmental sciences are exploited how even social science is applied to recruitment battlefield and logistical management and careful preparation of terroristic acts

[A Patriot's History of Globalism](#) Larry Schweikart, 2024-02-20 Larry Schweikart has won wide acclaim for his number one New York Times bestseller *A Patriot's History of the United States* Now with *A Patriot's History of Globalism* Schweikart shows that globalism or the attempt to form a one world government is nothing new In the wake of Napoleon's defeat in 1814 the globalists of the day mostly monarchs sought to create a governing arrangement for Europe Within forty years three of the major participants were at war with each other After World War I they tried again at Versailles this time even more aggressively changing boundaries of nations and moving populations That attempt only lasted twenty years before another major war between the participants Yet again after World War II globalists used the threat of the atomic bomb to try to form an international government with the

United Nations Most recently the World Economic Forum and World Health Organization are attempting to minimize nationalities with global control of money and medicine But there are signs this tide has been reversed and is finally in decline A Patriot s History of Globalism is the gold standard text for the history of globalism

**Romantic Readers and Transatlantic Travel** Robin Jarvis,2016-04-08 Why and how did people read literature on North America by explorers travellers emigrants and tourists This is the central question Robin Jarvis takes up as he addresses a significant gap in scholarship on travel writing its contemporary reception Referencing reviews in the periodical press personal journals letters autobiographies marginalia and bibliographical evidence relating to the production distribution and reception of travel literature Jarvis focuses especially on the ideas and perceptions of North America expressed by individuals who never visited the subcontinent Among the issues Jarvis explores are what the British reception of North American travel narratives says about the ways in which the United States was imagined in the Romantic period how poets such as Samuel Taylor Coleridge Felicia Hemans Robert Southey and William Wordsworth all voracious travel readers incorporated their readings of travel books into their works and the ways in which the reception of North American travel writing should be contextualized within the broader contours of British society and culture Significantly Jarvis differentiates between different communities of readers to show the extent to which class or professional status affected the way travel literature was read Of equally crucial importance he discusses the reception of travel literature on Canada and the Arctic as distinct from that on the United States His book constitutes the most thorough exploration to date of the private reading experiences of travel literature during the Romantic period

**Riding the Tiger** John Seidensticker,Peter Jackson,Sarah Christie,1999-02-08 Beauty grace and power make the tiger one of the world s most loved animals yet it is precisely these qualities that have been its downfall Poaching for skins and body parts loss of habitat and prey and conflicts between people and wild tigers have caused catastrophic declines in tiger numbers throughout their range If wild tigers are to survive through the next century we must act now Riding the Tiger is a comprehensive scientific and eminently readable account of the problems and possible solutions of securing a future for wild tigers Lavishly illustrated in full colour it is written by leading conservationists working throughout Asia It is a vital information resource for tiger conservationists in the field necessary reading for serious students of carnivore conservation and conservation biologists in general and an accessible overview of tiger conservation for general readers

*An Outline of Romanticism in the West* John Claiborne Isbell,2022-09-05 Navigating the landscape of Romantic literature and art across Europe and the Americas An Outline of Romanticism in the West invites readers to embark upon a literary journey Showcasing a breadth of theoretical and contextual approaches to the study of Romanticism John Isbell provides an insightful contemporary overview of the field paired with wide ranging comparative reflections on the art and literature that helped shape it Discussing seminal Romantic texts such as Mary Shelley s *Frankenstein* or Germaine de Sta l s *Corinne ou l Italie* Isbell provides a foundation through which to investigate core concepts such as the continuum of Romance

the Romantic hero and Romantic literature's characteristic repudiation of its own Romanticism Unusually for a single author monograph the book includes both published and unpublished material covering Romantic creation across Europe and the two Americas Identifying Romanticism as an international movement Isbell seeks to emphasise a theme frequently ignored by many academics the roots of Romanticism and its variations as a national art His arguments are supported by extensive interrogations of the political and historical contexts that moulded the outlooks of the writers and artists central to the period An Outline of Romanticism in the West underlines the interplay between nationalism history and artistic inspiration and will therefore be of value to students and scholars of literature and history as well as to general readers with an interest in Romanticism in the West

**Killing Strangers** Tim Wilson, 2020 A bewildering feature of so much contemporary political violence is its stunning impersonality with every city centre a potential shooting gallery every metro system a potential bomb alley Killing Strangers explores how acts of political violence have changed over time becoming unchained from inter personal relationships

**The Origins of Postmodern Youth** Reuven Kahane, 2015-11-27 No detailed description available for The Origins of Postmodern Youth

The Search for Fundamentals Lieteke van Vucht Tijssen, Jan Berting, Frank Lechner, 2013-06-29 Modernity dissolves absolute certainties late modernity dissolves them absolutely In the modern world system there appears to be no firm unchallenged ground on which to construct a meaningful canopy But around the world many individuals and groups long for a kind of cultural coherence that they believe once existed They search for fundamentals While these may be sought in religious traditions many also aspire to new secular certainties In their various new forms and contexts the contemporary quests for meaning in turn transform the societies in which they occur The rich comparative examples in The Search for Fundamentals are used to analyze the sources and consequences of several cultural movements The book also offers theoretical reflections on the difficulties they experience and on the message they carry for students of modernity Audience A broad readership of scholars and advanced students in the social sciences and humanities

*A Mad, Bad, and Dangerous People?* Boyd Hilton, 2006-02-16 This was a transformative period in English history In 1783 the country was at one of the lowest points in its fortunes having just lost its American colonies in warfare By 1846 it was once more a great imperial nation as well as the world's strongest power and dominant economy having benefited from what has sometimes if misleadingly been called the first industrial revolution In the meantime it survived a decade of invasion fears and emerged victorious from more than twenty years of war to the death against Napoleonic France But if Britain's external fortunes were in the ascendant the situation at home remained fraught with peril The country's population was growing at a rate not experienced by any comparable former society and its manufacturing towns especially were mushrooming into filthy disease ridden gin sodden hell holes in turn provoking the phantasmagoria of a mad bad and dangerous people It is no wonder that these years should have experienced the most prolonged period of social unrest since the seventeenth century or that the elite should have been in constant fear of a French style revolution in England The

governing classes responded to these new challenges and by the mid nineteenth century the seeds of a settled two party system and of a more socially interventionist state were both in evidence though it would have been far too soon to say at that stage whether those seeds would take permanent root Another consequence of these tensions was the intellectual engagement with society as for example in the Romantic Movement a literary phenomenon that brought English culture to the forefront of European attention for the first time At the same time the country experienced the great religious revival loosely described under the heading evangelicalism Slowly but surely the raffish and rakish style of eighteenth century society having reached a peak in the Regency then succumbed to the new norms of respectability popularly known as Victorianism

*The Language of New Media* Lev Manovich, 2002-02-22 A stimulating eclectic account of new media that finds its origins in old media particularly the cinema In this book Lev Manovich offers the first systematic and rigorous theory of new media He places new media within the histories of visual and media cultures of the last few centuries He discusses new media's reliance on conventions of old media such as the rectangular frame and mobile camera and shows how new media works create the illusion of reality address the viewer and represent space He also analyzes categories and forms unique to new media such as interface and database Manovich uses concepts from film theory art history literary theory and computer science and also develops new theoretical constructs such as cultural interface spatial montage and cinegratography The theory and history of cinema play a particularly important role in the book Among other topics Manovich discusses parallels between the histories of cinema and of new media digital cinema screen and montage in cinema and in new media and historical ties between avant garde film and new media

**Geography and Japan's Strategic Choices** Peter J. Woolley, 2014-05-27 Geography this author contends is the indisputably unique feature of any country Geography and Japan's Strategic Choices begins by explaining Japan's unique location and topography in comparison to other countries Peter Woolley then examines the ways in which the country's political leaders in various eras understood and acted on those geographical limitations and advantages Proceeding chronologically through several distinct political eras the book compares the Tokugawa era the opening to the West the Meiji Restoration the long era of colonialization industrialization and liberalization the militarist reaction and World War II the occupation the Cold War and finally the rudderless fin de siècle Finally Woolley demonstrates how Japan's strategic situation in the twenty first century is informed by past and present geo strategic calculations as well as by current domestic and international changes For students and scholars of U S Japan relations and of Japanese history and politics this book offers any informed reader a fresh perspective on a critical international relationship

**Print Culture at the Crossroads** Elizabeth Dillenburg, Howard Louthan, Drew B. Thomas, 2021-08-30 Print Culture at the Crossroads investigates how the spread of printing shaped a distinctive literary culture in Central Europe during the early modern period Moving beyond the boundaries of the nation state twenty five scholars from over a dozen countries examine the role of the press in a region characterised by its many cultures languages

religions and alphabets Antitrinitarians Roman and Greek Catholics Calvinists Jews Lutherans and Orthodox Christians used the press to preserve and support their communities By examining printing and patronage networks catalogues inventories woodblocks bindings and ownership marks this volume reveals a complicated web of connections linking printers and scholars Jews and Christians across Central Europe and beyond

**Festival of the Poor** Jane Schneider,1996-04 The historical decline of fertility in Europe has occupied a central place in social history and demography over the past quarter century Most scholars credit Europeans with modulating sexual behavior through either abstinence or the practice of coitus interruptus as a rational choice made in the interest of personal economic comfort yet peasant and working classes have typically lagged behind in birth control and have given rise to the adage that sexual embrace is the festival of the poor Scholarly analyses of lag often reinforce this stigmatizing view Now this subject is given a fresh look through a case study in Sicily one of the last outposts of Western Europe s demographic transition By examining population changes in a single community between 1860 and 1980 the authors offer an extended review and critique of existing models of fertility decline in Europe proposing a new interpretation that emphasizes historical context and class relations They show how the spread of capitalism in Sicily induced an unprecedented rate of population growth with boom and bust cycles creating the class experiences in which reputational networks came to redefine family life how Sicilians began to control their fertility in response to class mediated ideas about gender relations and respectable family size and how the town s gentry artisan and peasant classes adopted family planning methods at different times in response to different pressures Jane and Peter Schneider s anthropologically oriented political economy perspective challenges the position of Western Europe as a model for fertility decline on which every other case should converge looking instead at the diversity of cultural ideals and practices such as those found in Sicily that influence the spread and form of birth control Combining anthropological oral historical and archival methods in new and insightful ways the authors synthesis of a particular case study with a broad historical and theoretical discussion will play a major role in the ongoing debates over the history of European fertility decline and point the way toward integrating the analysis of demographic upheaval with the study of class formation and ideology

Telling the Old, Old Story (Larsen) David L. Larsen,2000

*Marketing Modernisms* Peter Richmond,2001-01-01 Architect teacher journalist town planner and cultural entrepreneur Sir Charles Reilly 1874 1948 was a leading figure of the early twentieth century British architectural scene *Marketing Modernisms* is the first book to take an in depth look at Reilly s career tracing his evolving architectural ethos via a series of case studies of his built work Among other issues the author considers Reilly s involvement in cultural enterprises such as the establishment of the Liverpool Repertory Theatre his journalism transatlantic links and town planning theories Reilly has been largely overlooked by writers of Modernist histories but this book restores him to deserved prominence

**Kierkegaard: A Biography** Alastair Hannay,2003-05-05 Written by one of the world s preeminent authorities on Kierkegaard this 2001 biography was the first to reveal the delicate imbrication of Kierkegaard s

life and thought To grasp the importance and influence of Kierkegaard's thought far beyond his native Denmark it is necessary to trace the many factors that led this gifted but according to his headmaster exceedingly childish youth to grapple with traditional philosophical problems and religious themes in a way that later generations would recognize as amounting to a philosophical revolution This book offers a powerful narrative account which will be of particular interest to philosophers literary theorists intellectual historians and scholars of religious studies as well as any non specialist looking for an authoritative guide to the life and work of one of the most original and fascinating figures in Western philosophy *The Victorian Translation of China* N. J. Girardot, 2002-09-05 Publisher Description *Religion in the English Novel* Michael Giffin, 2020-10-23 Romanticism marked a dramatic turning point in philosophy and aesthetics The shift from Classicism to Romanticism to Modernism and its Posts is paralleled in the shift from Kant to Hegel to Nietzsche to Derrida The central notions of the Enlightenment nature progress rationalism and rejection of the irrational are opposed by the central notions of the Counter Enlightenment relativism vitalism anti rationalism and sense of the organic Then there is the idea of freedom at the heart of the West's religious and secular vocabularies The authors discussed in this study ask their readers to consider the question of freedom and constraints upon it For some freedom is found in Christianity for others Christianity is freedom's enemy
