Birthmark Of Fear:

Birthmark of Fear Marsha Alexander, 1976 The Birth-mark Susan Howe, 2015-12-03 Susan Howe's classic groundbreaking exploration of early American literature In this classic groundbreaking exploration of early American literature Susan Howe reads our intellectual inheritance as a series of civil wars where each text is a wilderness in which a strange lawless author confronts interpreters and editors eager for settlement Howe approaches Anne Hutchinson Mary Rowlandson Cotton Mather Hawthorne Emerson Melville and Emily Dickinson as a fellow writer her insights fierce and original are rooted in her seminal textual scholarship in examination of their editorial histories of landmark works In the process Howe uproots settled institutionalized roles of men and women as well as of poetry and prose and of poetry and prose The Birth mark first published in 1993 now joins the New Directions canon of a dozen Susan Howe titles *The Biosecurity Individual* Frederike Offizier, 2023-12-04 Discoveries in biomedicine and biotechnology especially in diagnostics have made prevention and self surveillance increasingly important in the context of health practices Frederike Offizier offers a cultural critique of the intersection between health security and identity and explores how the focus on risk and security changes our understanding of health and transforms our relationship to our bodies Analyzing a wide variety of texts from life writing to fiction she offers a critical intervention on how this shift in the medical gaze produces new paradigms of difference and new biomedically facilitated identities biosecurity individuals The Birth-Mark Nathaniel Hawthorne, 2025 Aylmer a brilliant but obsessive scientist has everything he could desire except a perfect wife Though Georgiana is beautiful a small birthmark on her cheek becomes in his eyes an intolerable flaw Convinced that science can correct nature's mistake he sets out to remove it believing he can shape her into something flawless But perfection comes at a cost and some marks are not meant to be erased The Birth Mark is a haunting tale of obsession science and the dangers of idealism With precision and psychological depth Nathaniel Hawthorne examines humanity's relentless pursuit of perfection and the tragic consequences of trying to control what makes us human Nathaniel Hawthorne 1804-1864 is counted among the great American writers In addition to his psychological novels with *The Scarlet Letter* being the most famous he wrote a large number of short stories Many of Hawthorne's tales are set in colonial New England and he often drew inspiration from his own Puritan heritage

Toni Morrison: An Ethical Poetics Yvette Christianse,2013 Toni Morrison An Ethical Poetics situates Toni Morrison as a writer who writes about writing as much as about racialized engendered and sexualized African American and therefore American experience In foregrounding the ethics of fiction writing the book resists any triumphalist reading of Morrison s achievement in order to allow the meditative unsettled and unsettling questions that arise throughout her long labor at the nexus of language and politics where her fiction interrogates representation itself Moving between close reading and critical theory Toni Morrison An Ethical Poetics reveals the ways in which Morrison s primary engagement with language has been a search for how and what language is made to communicate and for how and what speaks in and from generation to generation There is no easy escape from such legacy no escape into a pure language free of the burdens of racialized agendas Rather there is the example of Morrison s commitment to writerly which is to say readerly wakefulness At a time when sustained study devoted to single authors has become rare this book will be an invaluable resource for readers scholars and teachers of Morrison s work

Pygmalion's Chisel Tracy M. Hallstead,2013-05-20 Pygmalion s Chisel For Women Who Are Never Good Enough by Tracy M Hallstead examines the enduring critical presence in contemporary Western culture that scrutinizes critiques and sizes women down in their daily lives despite rights gained through the centuries Pygmalion was the ancient mythical sculptor who believed that all women were essentially flawed He therefore endeavored to chisel to perfection a statue of a woman he called Galatea Like the perpetually carved and perfected Galatea women labor under Western culture s

a priori assumption that they are flawed yet they are often unable to account for the self criticism and self doubt that result from this premise As Hallstead analyzes the culture s requirements for the perfect woman she traces how cultural forces permeate women s personal lives In calling for solutions she resurfaces the thinking of historical women who responded rather than reacted to the patriarchal culture that devalued them In engaging these women of the past whose struggles were eerily similar to our own Hallstead encourages a responsive feminism that becomes the clear path leading outside Pygmalion s chamber door
