Alexander, 2012-12-06 Explore the common ground and the important differences between bisexuality and transgenderism This book guaranteed to provoke debate and discussion of sexuality and gender is the first devoted exclusively to the relationship between transgenderism and bisexuality Combining the work of scholars and activists professional writers and lay people Bisexuality and Transgenderism InterSEXions of the Others presents ideas thoughts feelings and insights from a variety of contributors who are committed to understanding and deepening our understanding of gender and sexuality You'll find scholarly essays narratives poetry and a revealing interview with four male to female transsexuals two of whom are married to women who also participate in the discussion In addition the book includes insightful chapters by well known advocates of transgenderism including Jamison James Green Coralee Drechsler and Matthew Kailey The editors of Bisexuality

and Transgenderism InterSEXions of the Others make the provocative but crucial claim that the larger queer community looks at B and T lives as mere add ons to L and G In this book they focus attention on bisexuality and transgenderism moving the margins to center stage and exploring how sexuality gender desire and intimacy are constructed and circulate in our society The book s inclusion of voices and scholarship from Eastern cultures challenges our understanding of sexuality and gender constructions all the more giving this collection a global scope Here is a sample of what Bisexuality and Transgenderism InterSEXions of the Others examines biphobia and transphobia within the United States gay and lesbian community the bi trans and subversive aspects of the works and images of cultural icons Angelina Jolie and Sandra Bernhardt how bisexual and transgendered identities are socially constructed through relationships the false promise of pomosexual play why the concepts of postmodern sexuality fail to rewrite the construction of gender why swingers who practice bisexual and transgender behavior are often disdained and marginalized by other GLBT people suicidal thoughts and other mental health concerns of bisexual males and females as well as transgender people Eastern perspectives on sexual gender identities with revealing chapters on gender identity in Japan and Indonesia

Contemporary Perspectives on Lesbian, Gay, and Bisexual Identities Debra A. Hope, 2008-12-11 Debra A Hope The Nebraska Symposium on Motivation is steeped in history and tradition Over the years the series editors have striven to maintain the highest standards of a demic excellence and to highlight some of the most important trends in psychology Perusing the chapter titles in the first 53 volumes shows the shifting emphasis as the science of psychology developed in the latter half of the twentieth century All of the most important topics are there drive theory social learning the cognitive revolution developing perspectives on understanding individual differences and the role of culture and the increasing role of neuroscience The key figures are there as well Harry Harlow Kenneth Spence Raymond Cattell George Kelly Albert Bandura Carl Rogers Carroll Izard Walter Mischel Sandra Bem Sandra Spence Herbert Simon David Barlow and many others In late 2004 I met with a group of interested graduate students and together we developed a proposal to join this long and proud tradition with a volume on sexual orientation Our motivation stemmed in part from the events around us The same sex m riage debate was covered extensively in the media reflecting a rapid and important discussion about sexual orientation that we were having and are still having as a society Psychology and related fields have much to offer on many of the issues raised in this debate
