Biting The Sun:

Biting the Sun Tanith Lee, 2018-12-18 In a world dedicated to pleasure one young rebel sets out on a forbidden quest Published for the first time in a single volume Tanith Lee's duet of novels set in a hedonistic Utopia are as riveting and revolutionary as they were when they first appeared two decades ago It's a perfect existence a world in which no pleasure is off limits no risk is too dangerous and no responsibilities can cramp your style Not if you're Jang a caste of libertine teenagers in the city of Four BEE But when you're expected to make trouble when you can kill yourself on a whim and return in another body when you're encouraged to change genders at will and experience whatever you desire you've got no reason to rebel until making love and raising hell daring death and running wild just leave you cold and empty Ravenous for true adventures of the mind and body desperate to find some meaning one restless spirit finally bucks the system and by shattering the rules strikes at the very heart of a soulless society

Don't Bite the Sun Tanith Lee, 2013-05-20 It's jang to be wild and sexy and reckless and teen age It's jang to do daredevil tricks and even get killed a few times you could always come alive again It's jang to change your body to switch your sex to do anything you want to keep up with the crowd But there comes a time when you begin to think about serious things to want to do something valid And that's when you find out there are rules beyond the rules and that the world is something else than all they'd taught you

Bibliographies and Literature of Agriculture, 1978 *The Play of Time* Janet Hoskins, 1994-01-05 Janet Hoskins provides both an ethnographic study of the organization of time in an Eastern Indonesian society and a theoretical argument about alternate temporalities in the modern world Based on more than three years of field work with the Kodi people of the island of Sumba her book focuses on Kodi calendrical rituals exchange transactions and confrontations with the historical forces of the colonial and postcolonial world Hoskins explores the contingent contested and often contradictory precedent of the past to show how local systems of knowledge are in dialogue with wider historical forces Arguing that traditional temporality is more complex than many theorists have realized Hoskins highlights the flexibility and relativity of local time concepts whose
