Bitter Glory:

Perlycross Richard D. Blackmore, 1895 **Militant Anti-Fascism** M. Testa, 2015-04-14 Fascism is not a thing of the past In this era of crisis and austerity it is growing even stronger The question is How do we stop it According to M Testa the fight against it must be aggressive and unrelenting Using a mixture of orthodox history eyewitness accounts and unflinching analysis he makes the case for a resolutely militant anti fascism one that gives no quarter and tolerates no excuses Unlike other partisan accounts of contemporary battles against fascism and ultra nationalism *Militant Anti Fascism* takes us from proto fascists in nineteenth century Austria to modern day street fights in London providing a broad context for its arguments and looking at numerous countries over a longer period of time The result is both a serious historical study and a story of victory and struggle past and present designed to inspire and energize militants Lay aside as M Testa does your faith in liberal legislative and state approved approaches to today s fascist threat Start by reading this provocative and unapologetic overview of militant anti fascism and the strategies that have successfully confronted the far right when it has reappeared in its many guises

Edible Wild Plants, Volume 2 John Kallas, PhD, 2023-05-16 This new volume 2 like the first is a user friendly pictorially based guide providing all you need to know to start genuinely enjoying wild foods It helps readers successfully identify plants develop gathering strategies and learn preparation and cooking techniques The unparalleled photographs and depth of understanding will knock your socks off All books in this series are designed to teach you things you can actually apply help you identify edible plants at any stage of growth give you close up full color photographs of the edible parts at the optimal stages of growth and show you fun and tasty things to do with them It lays a foundation and covers plants you are likely to come across on a daily basis no matter where you are in North America or Europe It covers those plants in the kind of detail that you need to genuinely know and understand them It clarifies and explains concepts poorly understood and commonly mis represented in the wild food literature Once you receive it compare its coverage of any plant side by side to that same plant in any other book ever written That comparison will reveal the value of this book and represents what I will continue to do in future books Following volume 1 s success volume 2 continues to help you understand the value and potential of wild foods This book has 460 photographs and illustrations fun and authoritative text focused attention on plant details nutrient tables range maps recipes and a plethora of additional preparation and cooking tips In this substantial 416 page book author John Kallas gives you the knowledge and confidence needed to enjoy edible wild plants as a part of your regular diet This second volume of *Edible Wild Plants* adds 18 additional plants their relatives and look a likes in 15 plant chapters to the overall collection of plants covered between the two volumes in *The Wild Food Adventure Series* This book makes it delightfully exciting to learn about and experiment with known wild foods that will be useful to all from beginners to advanced foragers This book features plants in five flavor categories foundation tart pungent or peppery bitter and distinctive sweet Organizing this way helps readers use the plants in pleasing
