Los estudios recientes sobre los cambios que los sectores marginados —urbanos y rurales— experimentan, parecen originarse en tres preocupaciones. Una de ellas es la ideológica. Toda vez que han sido desmentidos o debilitados los planteamientos acerca del potencial revolucionario de los obreros latinoamericanos, insertados en una industrialización que aún debe autosostenerse, algunos autores quisieran un sustituto. La "ecología de la protesta", ubicada entre los campesinos, se aviene a estos deseos. Esta tendencia recuerda al populismo decimonónico ruso que postulaba "la marcha hacia el pueblo" y la posibilidad de saltar etapas en la ruta hacia la redención final. De momento, la marcha latinoamericana es intelectual; carece del cándido impulso que movió a aquella *intelligentsia* que pretendió alfabetizar a los rudos habitantes del campo. La orientación de ambos, sin embargo, es relativamente semejante.

El segundo aspecto es el político y se desdobra en direcciones opuestas. Por un lado, los impugnadores del régimen presente quisieran acentuar las contradicciones inherentes a la modernización de la

which outline the history concepts research findings and recent controversies in medical anthropology the cross cultural study of health illness and medical care Among the topics covered are transcultural psychiatry food and nutrition anthropology of the body alcohol and drug use traditional healers childbirth and bereavement and the applications of medical anthropology to international health issues such as the HIV AIDS pandemic malaria prevention and family planning It is a valuable resource not only for scholars and students of medical anthropology but also for health professionals working in multi cultural settings or in international medical aid programmes

A History of Family Planning in Twentieth-century Peru Raúl Necochea López, 2014 History of Family Planning in Twentieth Century Peru **Margaret Sanger's Eugenic**

Legacy Angela Franks, 2014-12-24 Margaret Sanger the American birth control and population control advocate who founded Planned Parenthood stands like a giant among her contemporaries With her dominating yet winning personality she helped generate shifts of opinion on issues that were not even publicly discussed prior to her activism while her leadership was arguably the single most important factor in achieving social and legislative victories that set the parameters for today's political discussion of family planning funding population control aid and even sex education This work addresses Sanger's ideas concerning birth control eugenics population control and sterilization against the backdrop of the larger eugenic context

Gender and Society Colin Blakemore, Susan D. Iversen, 2000 In this eclectic collection of essays distinguished scholars from different and specialized disciplines discuss aspects of sex gender and gender and society In his contribution to this series of essays on Gender and Society Peter Goodfellow states sex the biological separation into male and female is controlled by DNA and is determined by DNA Gender the arbitrary social division between masculine and feminine is a social construct that involves interaction between an individual and society The definition of gender offered by Goodfellow is cogently developed by Germaine Greer in her essay on women as victims of rape. One of the newest and most controversial aspects of modern criminology Susan Watkins suggests that the understanding of gender has influenced the analysis of population change the efforts by activists to ensure reductions in fertility internationally and the acceptance of birth control in local communities in Kenya This analysis is complimented by Michele Le Doeuff in a discussion of the complex interplay between reduced fertility increased literacy and the function of work in the everyday life of every woman whatever her social class or level of education The question of how the sexes differ in their perception and processing of information about their external world is tackled by Lucia Jacobs within a biological and evolutionary context She proposes that sexual selection should be given credit for the rapid evolution of our unique abilities and complex culture concluding that it is the female that is the smaller the ecological sex best adapted to survive in the ecological niche of the species and it is the male who carries the heavier burden or handicap of sexual selection his fitness dependent on arbitrary traits that reduce his competitive ability as a human being although they are all too necessary for his competitive ability as a man The contribution of the sociobiologist Sarah Hrdy focussed on sexual selection drawing on a wide range of research on the physiological and

behavioural responses of subhuman primates but appropriately drawing her inspiration from Spencer's own writings on physical beauty and its consequences for posterity The chapters in this book were originally delivered as The Herbert Spencer Lectures in 1995 at Oxford University Quality Education for All Dean H. Nielson, William K.

Cummings, 2014-04-08 Modern education conceived in the late 18th century and expanded in the early 19th century to promote enlightenment and social equality may finally be nearing its institutional limit Over the past decade following nearly a century of steady gains there has been little further advancement in modern education The modern system has proved effective in serving the interests of the established core of contemporary society but ineffective in reaching for the periphery The contributors to this volume offer various corrective approaches to correct this state of affairs *The Ultimate Resource* 2 Julian Lincoln Simon, 1998-07-21 Rev ed of The ultimate resource by Julian L Simon published Princeton N J Princeton University Press c1981 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1985

Government Confronts Culture Bruce Fuller, 2012-09-10 Transitional societies struggling to build democratic institutions and new political traditions are faced with a painful dilemma How can Government become strong and effective building a common good that unites disparate ethnic and class groups while simultaneously nurturing democratic social rules at the grassroots Professor Fuller brings this issue to light in the contentious multicultural setting of Southern Africa Post apartheid states like South Africa and Namibia are pushing hard to raise school quality reduce family poverty and equalize gender relations inside villages and townships But will democratic participation blossom at the grassroots as long as strong central states so necessary for defining the common good push universal policies onto diverse local communities This book builds from a decade of family surveys and qualitative village studies led by Professor Fuller at Harvard University and African colleagues inside Botswana Namibia and South Africa Population Control Steven Mosher, 2017-07-05 For over half a century policymakers committed to population control have perpetrated a gigantic costly and inhumane fraud upon the human race They have robbed people of the developing countries of their progeny and the people of the developed world of their pocketbooks Determined to stop population growth at all costs those Mosher calls population controllers have abused women targeted racial and religious minorities undermined primary health care programs and encouraged dictatorial actions if not dictatorship They have skewed the foreign aid programs of the United States and other developed countries in an anti natal direction corrupted dozens of well intentioned nongovernmental organizations and impoverished authentic development programs Blinded by zealotry they have even embraced the most brutal birth control campaign in history China's infamous one child policy with all its attendant horrors There is no workable demographic definition of overpopulation Those who argue for its premises conjure up images of poverty low incomes poor health unemployment malnutrition overcrowded housing to justify anti natal programs The irony is that such policies have in many ways caused what they predicted a world which is poorer materially less diverse culturally less advanced economically and plagued by disease The

population controllers have not only studiously ignored mounting evidence of their multiple failures they have avoided the biggest story of them all Fertility rates are in free fall around the globe Movements with billions of dollars at their disposal not to mention thousands of paid advocates do not go quietly to their graves Moreover many in the movement are not content to merely achieve zero population growth they want to see negative population numbers In their view our current population should be reduced to one or two billion or so Such a goal would keep these interest groups fully employed It would also have dangerous consequences for a global environment Public Administration Singapore-Style Jon S. T. Quah,2010-04-21 Singapore was ranked first for the competence of its public officials from 1999 to 2002 by The Global Competitiveness Report This book intends to provide a detailed study of public administration Singapore style *Descent Through Males* Gideon M. Kressel,1992 *Detailed Statistics on the Urban and Rural Population of the Philippines, 1950 to 2010* Kevin G. Kinsella,1984 Current Catalog National Library of Medicine (U.S.),1985 First multi year cumulation covers six years 1965 70 **Coerced Contraception?** Ellen H. Moskowitz,Bruce Jennings,1996-09-13 Long acting and reversible contraceptives such as Norplant and Depo Provera have been praised as highly effective moderately priced and generally safe Yet as this book argues the very qualities that make these contraceptives an important alternative for individual choice in family planning also make them a potential tool of coercive social policy For example policymakers have linked their use to welfare benefits and judges to probation agreements In this book authors from the fields of medicine ethics law and the social sciences probe the unique and vexing ethical and policy issues raised by long acting contraception The book offers comprehensive ethical guidelines for health care professionals and policymakers as well as an ethical framework for analyzing policies and practices concerning long acting contraceptives The authors consider cultural social and ethical issues pertaining to contraception and they provide historical and scientific background on today s controversies They explore alternative conceptual and theoretical frameworks including analyses of autonomy coercion and responsibility in reproductive decisions This volume also notes the special concerns that arise when policies promoting long term birth control target low income women and women of color and when these contraceptives are used in developing countries Ethics in Global Health Ruth Macklin,2012-06-14 This is a collection of Ruth Macklin s previously published articles on ethics in global health and research The articles range from a chapter in a book published in 1989 to a journal article currently in press The essays fall into two broad categories policy and practice and multinational research **The Role of the Public Bureaucracy in Policy Implementation in Five ASEAN Countries** Jon S.
