Bitter Sugar Slaves Today In The Caribbean:

Migrant Revolutions Valerie Kaussen, 2008-01-01 Migrant Revolution offers an overview of twentieth century Haitian literature placing its rich tradition in the context of transnational anti colonial politics Kaussen argues that the anti colonial politics of Haitian modernist literature is based on the philosophies of human rights that drove the Haitian Revolution and further that Haitian literary modernity has continually challenged the world colonial order including the contemporary era of globalization

Peripheral Migrants Samuel Martínez, 1995 Peripheral Migrants examines the circulation of labor from rural Haiti to the sugar estates of the Dominican Republic and its impact on the lives of migrants and their kin The first such study to draw on community based fieldwork in both countries the book also shows how ethnographic and historical approaches can be combined to reconstruct patterns of seasonal and repeat migration Samuel Martinez pays close attention to the economic maneuvers Haitians adopt on both sides of the border as they use Dominican money to meet their present needs and to assure future subsistence at home in Haiti The emigrants who adapt best he finds are those who maintain close ties to their home areas Yet in addition to showing how rural Haitians survive under severe poverty and oppression Martinez reveals the risks they incur by crossing the border as cane workers divided families increased short term deprivation and economic insecurity and all too often early death He further notes that labor circulation is not part of an unchanging cycle in rural Haiti but a source of income that is vulnerable to the downturns in the global economy Acknowledging various theoretical perspectives the author compares the Haitian migrations with similar population displacements worldwide As he shows the Haitian workers exemplify an important if seldom studied category of migrants those who neither move to the cities nor emigrate to countries of the North but circulate between rural areas of the Third World Thus this book serves to broaden our understanding of this lower tier of the world s migrants BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

More than a Massacre Sabine F. Cadeau, 2022-06-09 More than a Massacre is a history of race citizenship statelessness and genocide from the perspective of ethnic Haitians in Dominican border provinces Sabine F Cadeau traces a successively worsening campaign of explicitly racialized anti Haitian repression that began in 1919 under the American Occupiers accelerated in 1930 with the rise of Trujillo and culminated in 1937 with the slaughter of an estimated twenty thousand civilians Relatively unknown by contrast with contemporary events in Europe the Haitian Dominican experience has yet to feature in the broader literature on genocide and statelessness in the twentieth century Bringing to light the massacre from the perspective of the ethnic Haitian victims themselves Cadeau combines official documents with oral sources to demonstrate how ethnic Haitians interpreted their changing legal status at the border as well as their interpretation of the massacre and its aftermath including the ongoing killing and land conflict along the post massacre border

Global Latin(o) Americanos Mark Overmyer-Velázquez, Enrique Sepúlveda, 2018 Global Latin o Americanos addresses and reframes a central issue of our time the challenge of incorporating immigrants into Western

societies and economies which too often frame immigrants as the problem How Latino immigrants respond and exercise agency under familiar and unfamiliar global conditions is of critical importance on several fronts including the health of democratic societies and the diverse expressions of citizenship across the Latino diaspora Building on the scholarship of new migratory destinations of people from Latin America and the Caribbean Global Latin o Americanos moves toward studies of diasporic citizenship this shift not only de centers U S dominant interpretations but also places less emphasis on the nation state and its economic systems as units of analysis The book includes work by leading scholars of migration in Latin America Asia Europe and the United States It examines a wide range of intraregional and transoceanic migratory flows and addresses critical themes from several disciplinary perspectives

Consuming the Caribbean Mimi Sheller, 2003-12-08 From sugar to indentured labourers tobacco to reggae music Europe and North America have been relentlessly consuming the Caribbean and its assets for the past five hundred years In this fascinating book Mimi Sheller explores this troublesome history investigating the complex mobilities of producers and consumers of material and cultural commodities including foodstuffs and stimulants sugar fruit coffee and rum human bodies slaves indentured labourers and service workers cultural and knowledge products texts music scientific collections and ethnology entire natures and landscapes consumed by tourists as tropical paradise *Consuming the Caribbean* demonstrates how colonial exploitation of the Caribbean led directly to contemporary forms of consumption of the region and its products It calls into question innocent indulgence in the pleasures of thoughtless consumption and calls for a global ethics of consumer responsibility

Close Encounters of Empire Gilbert Michael Joseph, Catherine LeGrand, Ricardo Donato Salvatore, 1998 Essays that suggest new ways of understanding the role that US actors and agencies have played in Latin America publisher

Migration and Vodou Karen E. Richman, 2018-10-02 This book and accompanying compact disc provide a rare excursion in the innovative ways a community of Haitian migrants to South Florida has maintained religious traditions and familial connections It demonstrates how religion ritual and aesthetic practices affect lives on both sides of the Caribbean and it debunks myths of exotic and primitive vodou often spelled voodoo which have long been used against Haitians As Karen Richman shows Haitians at home and in migrant settlements make ingenious use of audio and video tapes to extend the boundaries of their ritual spaces and to reinforce their moral and spiritual anchors to one another The book and CD were produced in collaboration to give the reader intimate access to this new expressive media Sacred songs are recorded on tapes and circulated among the communities Migrants are able to hear not only the performance sounds drumming singing and chatter but also a description as narrators tell of offerings sacrifices prayers and the exchange of possessions Spirits who inhabit the bodies of ritual actors are aware of the recording devices and personally address the absent migrants sometimes warning them of their financial obligations to family members in Haiti The migrants dependence on their home village is dramatically reinforced while their economic independence is restricted Using standard ethnographic methods Richman s work illuminates the connections among social

organization power production ritual and aesthetics With its transnational perspective it shows how labor migration has become one of Haiti's chief economic exports A volume in the series New World Diasporas edited by Kevin A. Yelvington

AIDS and Accusation Paul Farmer, 1992 In this book ethnographic historical and epidemiologic data are brought to bear on the subject of the Acquired Immune Deficiency Syndrome AIDS in Haiti The forces that have helped to determine rates and pattern of spread of Human Immunodeficiency Virus HIV are examined as are social responses to AIDS in rural and urban Haiti and in parts of North America History and its calculus of economic and symbolic power also help to explain why residents of a small village in rural Haiti came to understand AIDS in the manner that they did Drawing on several years of fieldwork the evolution of a cultural model of AIDS is traced In a small village in rural Haiti it was possible to document first the lack of such a model and then the elaboration over time of a widely shared representation of AIDS The experience of three villagers who died of complications of AIDS is examined in detail and the importance of their suffering to the evolution of a cultural model is demonstrated Epidemiologic and ethnographic studies are prefaced by a geographically broad historical analysis which suggests the outlines of relations between a powerful center the United States and a peripheral client state Haiti These relations constitute an important part of a political economic network termed the West Atlantic system The epidemiology of HIV and AIDS in Haiti and elsewhere in the Caribbean is reviewed and the relation between the degree of involvement in the West Atlantic system and the prevalence of HIV is suggested It is further suggested that the history of HIV in the Dominican Republic Jamaica Trinidad and Tobago and the Bahamas is similar to that documented here for Haiti

Afrodescendants, Identity, and the Struggle for Development in the Americas Bernd Reiter, Kimberly Eison Simmons, 2012-04-01 Indigenous people and African descendants in Latin America and the Caribbean have long been affected by a social hierarchy established by elites through which some groups were racialized and others were normalized Far from being racial paradises populated by an amalgamated cosmic race of mulattos and mestizos Latin America and the Caribbean have long been sites of shifting exploitative strategies and ideologies ranging from scientific racism and eugenics to the more sophisticated official denial of racism and ethnic difference This book among the first to focus on African descendants in the region brings together diverse reflections from scholars activists and funding agency representatives working to end racism and promote human rights in the Americas By focusing on the ways racism inhibits agency among African descendants and the ways African descendant groups position themselves in order to overcome obstacles this interdisciplinary book provides a multi faceted analysis of one of the gravest contemporary problems in the Americas

Africas of the Americas, 2008-03-31 The anthropology and history of African American religious formations has long been dominated by approaches aiming to recover and authenticate the historical transatlantic continuities linking such traditions to identifiable African source cultures While not denying such continuities the contributors to this volume seek to transcend this research agenda by bracketing Africa and African pasts as objective givens and asking instead what role notions of

Africanity and pastfulness play in the social and ritual lives of historical and contemporary practitioners of Afro Atlantic religious formations The volume s goal is to open up contextually salient claims to African origins to empirical scrutiny and so contribute to a broadening of the terms of debate in Afro Atlantic studies

Haiti Patrick Bellegarde-Smith,2004-05-14 The updated edition of this perceptive study could hardly appear at a more auspicious moment as the latest phase of the tragedy of Haiti is unfolding It brilliantly illuminates the rich tapestry of Haitian culture and reveals the remarkable resilience of the Haitian people subjected to centuries of rapacity and violence and brutally punished for revealing the limited definition of freedom adopted by the French and American revolutions in the author s accurate words As he relates they have continued to teach such lessons to this day frightening the rich and powerful in their own tortured land and at the centers of global rule It is our great loss if we choose not to understand and there is no better starting point than this learned and penetrating inquiry Noam Chomsky Institute Professor Emeritus Department of Linguistics and Philosophy MIT Caribbean Quarterly,1984

Haiti and the United States Brenda Gayle Plummer,1992 Stressing the importance of domestic policy and the character of civil society in the formation of foreign policy Plummer illuminates the various factors that figured in the relationship between the two countries throughout the nineteenth century She discusses the aspirations of Haiti s founders in building a self governing black society Haitian responses to the transatlantic abolition movement the development of Haiti s creole culture and the country s shrewd negotiations with the United States over commercial and strategic issues The late 1800s Plummer shows proved a turning point in Haitian U S relations as Washington s assumption of regional hegemony changed the balance of power for a Haiti long committed to a multilateralist diplomacy In the twentieth century tensions between traditional and reformist elements in Haitian society erupted in a crisis that brought U S intervention and long term military occupation Plummer examines the consequences of this intervention as they were incorporated into the later interactions between the United States and Haiti and shows how these troubled relations contributed to the rise of the repressive Duvalier regime The recent fall of that regime Plummer suggests now presents the psychological moment to which Elihu Root referred so many years ago

Sugar and Power in the Dominican Republic Michael R. Hall, 2000-01-30 A study of the powerful impact that sugar had on U S Dominican relations as the primary vehicle of reciprocal manipulation from 1958 to 1962 Sugar and Power examines the development of the sugar industry in the Dominican Republic Hall uncovers new evidence that supports the belief that U S Latin American relations during this period were frequently a two way street with the United States reacting to Latin American initiatives just as frequently as Latin Americans responded to American initiatives Both Eisenhower and Kennedy used sugar quota legislation as a foreign policy tool At the same time the Trujillo regime played upon Washington's fear of communism in response to the Cuban revolution to obtain an expanded sugar quota Drawing heavily on U S and Dominican government documents this study argues that the U S initiated economic sanctions against Trujillo to gain hemispheric support against Castro's Cuban revolution Kennedy expanded those sanctions in an attempt to push the Dominican Republic along the path toward democracy Although Juan Bosch's election at the end of 1962 and the

allotment of a generous sugar quota indicated the apparent success of U S foreign policy toward the Dominican Republic the overthrow of Bosch in 1963 indicated that the path toward democracy was longer than American policy makers had anticipated This case study in the role of economic coercion in U S Latin American relations during the Cold War tries to present a balanced account of both sides of the story

Nation Building, State Building, and Economic Development

Sarah C.M. Paine, 2015-01-28 Why do some countries remain poor and dysfunctional while others thrive and become affluent The expert contributors to this volume seek to identify reasons why prosperity has increased rapidly in some countries but not others by constructing and comparing cases The case studies focus on the processes of nation building state building and economic development in comparably situated countries over the past hundred years Part I considers the colonial legacy of India Algeria the Philippines and Manchuria In Part II the analysis shifts to the anticolonial development strategies of Soviet Russia Atatürk's Turkey Mao's China and Nasser's Egypt Part III is devoted to paired cases in which ostensibly similar environments yielded very different outcomes Haiti and the Dominican Republic Jordan and Israel the Republic of the Congo and neighboring Gabon North Korea and South Korea and Papua New Guinea and Indonesia All the studies examine the combined constraints and opportunities facing policy makers their policy objectives and the effectiveness of their strategies The concluding chapter distills what these cases can tell us about successful development with findings that do not validate the conventional wisdom
