edifice which we call material reality This knowledge of physics also contains the building blocks of a theory of mind Mind and matter are inseparably built into each other Physics and metaphysics imply each other on the level of a living organic and inorganic reality This book is written for everybody who looks for answers to the fundamental question of what life is who and what are we as human beings what could be the meaning of life and what is the structure of our reality The essence of these writings is the question into the value of beauty the value of human culture and the question how we are part of the wonderful order of nature Philosophical and scientific jargon is explained in parts where it was inevitable to use
